TWENTY SIX-FOOTERS

A startling example of how Oats grows in height.

Archdeacon Sinclair, in advising boys to eat much oatmeal, said this: "Among my brothers and my father's brothers and sisters there were 26 six-footers, all brought up on oatmeal."

Oats contain more body-building food, more brain-building food, more nerve-building food than any other grain grown. No other item in all human diet compares in importance with oats. Nothing else creates so much energy.

Thousands of people buy this food eagerly. They accept oatmeal made from oats at the pump and the small, the rich and the worthless. Quaker Oats is made from the cream of the oats, selected by 82 siftings. Only two pounds in a bushel are good enough for use in this food. It is a richness and flavor that all enjoy, and the maximum value as food.

Yet Quaker Oats, despite its quality, costs but one-half cent per bushel. Does it pay to make something inferior? Made in Canada.

Judge Savary, of Annapolis Royal, Writes to Local Historian Regarding Brigham Young--The Celebration of Loyalist Day--A Harmonious Meeting.

Wednesday, May 3.

The annual meeting of the New Brunswick Loyalist Society was held last evening at their rooms in the Market building. The election of several new members whose names had been referred to the standing committee resulted in the addition of the following to the roll of the society: Mrs. W. H. B. Sadler, Mrs. Robert B. Humphrey, John A. Pugsley, C. Percy Humphrey, Walter H. Golding, George H. Dickson, Roy E. Humphrey, Leonard W. Peterson, McGovern Humphrey, Harold Wyndham Humphrey, James Sabine McGovern.

The committee appointed with reference to the proposed celebration of Loyalist Day, reported that all arrangements had been completed for the usual annual service in Trinity church, and that the committee had been struck to arrange for the celebration of Loyalist Day, on May 10th, at 2 o'clock, at the residence of Mr. Raymond, would present upon that occasion. The committee also reported having met committees from the Canadian clubs, and the formation of a joint executive committee composed of the president and secretary of each of these organizations, with whom all arrangements for a joint celebration on the evening of May 18 had been left to the committee.

The election of officers resulted as follows: President, Dr. J. Seelye; 1st vice-president, Dr. Macdonald; 2nd vice-president, J. S. Flagg; chaplain, Ven. Archdeacon Raymond; secretary and historian, D. H. Jack; treasurer, R. W. Fink; marshals, D. M. Millidge, W. Briggs, Drake. Standing committee, I. H. Northrup, Kendall Hall, H. S. Wallace, Robt. Seely, Robert B. Humphrey, Rev. J. W. Miller, John Pugsley, Chester Percy Humphrey, H. J. Anderson.

The historian, Dr. R. Jack, read a brief paper in continuation of that submitted at the previous meeting, in which he had questioned the correctness of certain assertions that the late Brigham Young was the descendant of a New Brunswick Loyalist. He pointed out that his attention had been invited by Judge Savary, of Annapolis Royal, to a section of the history of Annapolis county, compiled by the late W. A. Calneal and himself, where, on page 63 of that work, was distinguished by the name of Samuel Young, a Loyalist, who had settled in Nova Scotia in the years 1769-1, was really the progenitor of Brigham Young. Judge Savary had informed him in a personal letter that Calneal obtained the statement that the great Mormon was a grandson of Ichabod Young, from a member of the Young family, a descendant of Judge Young, who had been a settler as a Loyalist at Annapolis county, but had returned to the United States.

The historian was requested to prepare a paper on some suitable subject to be read in the public schools throughout the city on Loyalist day, and he having suggested a paper on Major Andre and given a synopsis of the proposed treatment of the subject, it received the hearty commendation of the meeting.

The meeting was the most successful and harmonious that has been held for a long time, and it was a pleasure to see the society in a flourishing condition, financially and otherwise.
