The New Twenty-year Capital Return Policy

(Issued by The Canada Life)

A Young Man and His Future

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumu-, lated profits, after giving you insurance protection for twenty years.

Easily Understood:

1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,-for \$5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends-

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live-

this Special Cash Guarantee may be applied to increase the amount of your policy to more than \$7500.

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.
