

REMARKS.

The following abstract has been made with a view to give to the different boards of commissioners and trustees, as well as the masters of academies and schools, an opportunity of obtaining information, as to the state of the laws that affect education. In order that it should be early placed in their hands it has been prepared with some haste, but I trust it will be found in all material points to be accurate and intelligible. As there are but two acts now in force, it will be easy if any doubtful question of construction should arise, to refer to the original clauses.

A list of commissioners and trustees of Academies is appended, as complete and correct as time would permit.

☞ All communications to the Central Board of Education should be addressed, post paid, to the subscriber

BEAMISH MURDOCH.

HALIFAX, June, 1841.
