GEOLOGY

PRELIMINARY MAP

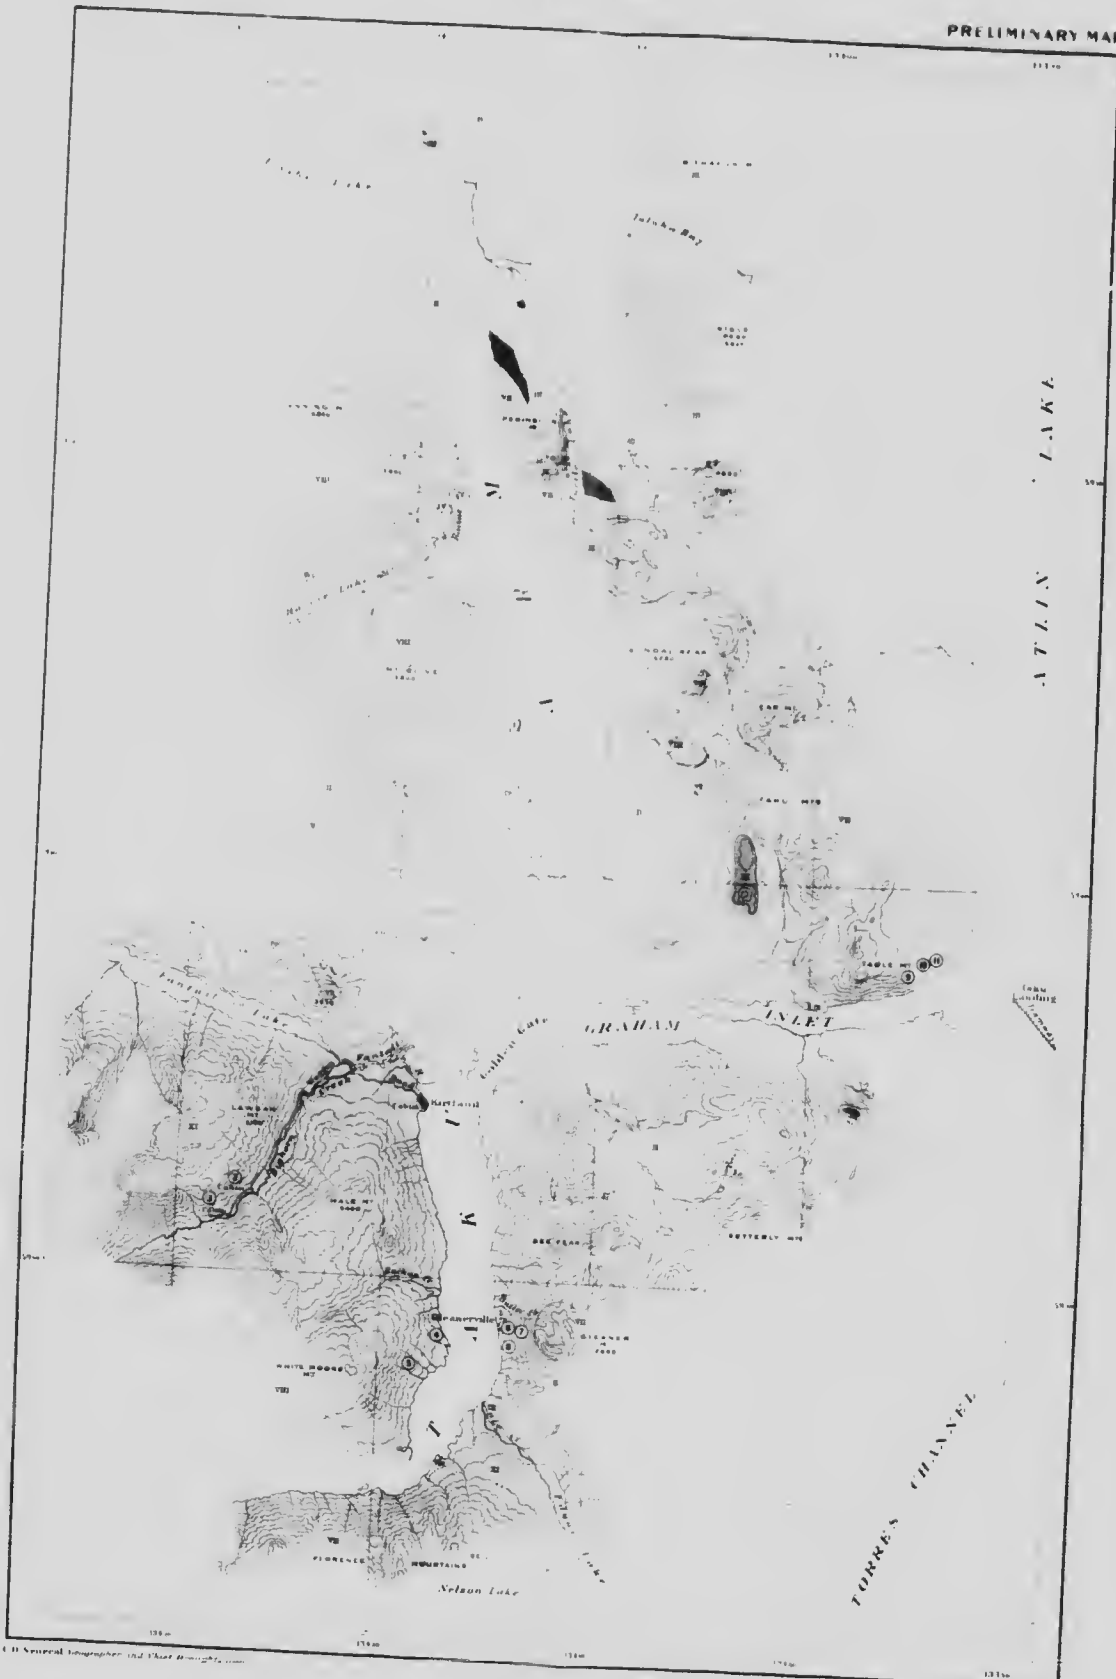

- LEGEND**
- Sedimentary Rocks**
- I Limestone conglomerates
 - II Lagerschiefer
 - III Reddish sandstones
- Igneous Rocks**
- IV Andesitic flows and tuffs
 - V Basaltic lavas
 - VI Basaltic intrusions
 - VII Charlton Hill subvolcanics
 - VIII Coast Range intrusions
 - IX Pebbly granites
- Unclassified Rocks**
- X Tuffite group
 - XI SP. Group

MINING PROPERTIES

- Antimony veins
- 1 Lakefront and Antimony claims
- Gold silver quartz veins
- 2 Bird's and Gold Lias claims
- 3 Lawson group
- 4 White Moose group
- 5 Roper group
- Gold tellurium quartz veins
- 6 Engineer, Mass group
- 7 Linnar group
- 8 Actland group
- Cupiferous silver gold veins
- 9 Petty group
- 10 Dundee claim
- 11 Pelton group

Symbols

- Mining properties
- Museum road
- Station

MAP 94A
Tak Arm, ATLIN DISTRICT, B.C.
Scale of miles

1. D. Several topographic and chart sheets.

Geology and photogeographic curves
by D. D. Carver, 1910
Base map made by Topographical
Division from topographic surveys.
