

In the foregoing paper I have endeavoured to place before you the chief points of our Act. I must apologize for the crudeness of its form, as I before stated shortness of time was the great drawback.

In conclusion, I would suggest that the Standing Committee on Land Surveying should formulate a series of questions to all surveyors in the Province, giving plenty of time for their consideration and answers before our annual meeting. This would give us material to discuss, and would have the effect of bringing the whole matter to a focus. The back picket, as it were, would stand out clearly, and the cross-hairs being readily adjusted, the front picket would be placed true and plumb. So that our young Association may have no fear of planting a post, with even the brass nail in the head, so true that, in the future, surveyors may range from it with accuracy and precision to the satisfaction of themselves and the public at large, whose servants we are.
