

**Breathing Disease.**  
Infectious diseases are breathed into the system from those affected with disease or from bad smells; yet how many women breathe daily the offensive steam from common soaps made from rancid fats, and keep their hands for hours in such solutions, and the clothing from such soap suds is worn next the tender skin. No wonder disease and eczema are prevalent! Users of Sunlight Soap—Octagon Bar—know the difference between that and the pure, healthful smell from the vegetable oils and pure edible fats in Sunlight Soap. 208

**RETURN OF ARCH-BISHOP BRUCHESI**

Montreal, Jan. 19.—His Grace Archbishop Bruchesi, accompanied by Rev. Canon Dauth, who went to Rome with him; Rev. Canon Roy, and Rev. Canon Gauthier, will arrive from New York tomorrow morning. His Grace will celebrate Mass at the St. James Cathedral at eight o'clock, and at the conclusion a "Te Deum" of thanksgiving will be sung. During the morning His Grace will be waited on by the leading members of the clergy of the diocese and presented with an address.

Among the first announcements that it is expected by the canons of the diocese will be made by His Grace are the establishment in his diocese of a branch of the order of Passionist Fathers. Contrary to the statement that has already been made, it is also believed that as a result of his visit to Rome, he will announce a further division of the Archdiocese of Montreal, and the erection of a diocese of Joliette. Since assuming direction of the diocese, His Grace has been in favor of the division of parishes so that better results may be obtained, and it is understood that it was on the same principle that he made the recommendation to His Holiness the Pope that the archdiocese should also be divided.

**INTERVIEWED IN NEW YORK.**  
New York, Jan. 19.—Archbishop Bruchesi arrived here on Saturday on the La Savoie, on his return from a visit to Rome, whither he had gone to offer homage to the Pope on his jubilee.

Archbishop Bruchesi said the Pope showed unimpaired mental and physical energy, investigating minute details in person, yet appearing in even better health than at his visit five years ago.

Archbishop Bruchesi had two private audiences with the Pope during his stay in Rome, besides presenting many Protestant and Catholic tourists to His Holiness. He characterized the report as to his having gone to Rome to receive a Cardinal's hat as untrue and ridiculous.

Asked as to the Manitoba school question, Archbishop Bruchesi said the Pope took a great interest in the matter. Personally the Archbishop hopes the Catholics of Manitoba would ultimately receive the same treatment that was meted out at the present time to the Protestants in Quebec. Archbishop Bruchesi returned to America by way of France. The whole of France, he said, monks, nuns, as well as sisters and brothers, was at present under a cloud. Archbishop Bruchesi spoke very strongly against the action of the French Government. Asked for his solution of the problem he said that as the expulsion had been made by the law, so by the law must it be unmade.

**ARRIVAL IN MONTREAL.**  
Montreal, Jan. 20.—Looking the picture of health and delighted to be back among his own flock, His Grace Archbishop Bruchesi, arrived in Montreal shortly after twelve o'clock today.

The joyful welcome announced by the ringing of the bells of all the Catholic churches in the city, told of the universal joy of the faithful at the return of the pastor at the end of the longest absence since taking charge of the diocese.

At 3 o'clock in the afternoon at St. James' Cathedral took place the solemn chanting of a "Te Deum" of thanksgiving for the safe return of His Grace.

In thanking the clergy and faithful for their kind words of welcome, His Grace referred to the great pleasure and satisfaction there had been in visiting His Holiness the Pope. He had found His Holiness in excellent health and everything pointed to his being able to direct the work of the Catholic Church for many years to come.

**CARDINAL PAROCCHI.**

Venerable Sub-Dean of the Sacred College Succumb to Heart Disease.

Rome, Jan. 15.—Cardinal Lucido Mary Parocchi, sub-dean of the Sacred College and vice-chancellor of the Holy Catholic Church, died suddenly today of heart disease.

The deceased prince of the Church was born at Mantua, Aug. 13, 1833, created and proclaimed June 22, 1877. The son of a miller and having risen from the ranks by the sheer force of his energy and ability, Cardinal Parocchi was acknowledged as one of the most remarkable men of the Sacred College, possessed of great force of character and piety. His death leaves only one Cardinal, His Eminence Louis Oreglia di Santo Stefano, who was appointed by Pope Pius IX.

**GREEK LETTER SOCIETIES AND TORONTO UNIVERSITY**

Shall Public Land be Granted to Secret Organizations?—Serious Question That is Agitating the Learned Men in Queen's Park.

(Toronto World, Jan. 9, 1903.)

On the northwest corner of Hoskin avenue and Devonshire Place, and on what is, perhaps, one of the finest sites in the Park, stands a substantial looking building, which serves ostensibly as a residence for students attending the University of Toronto, but which is in reality nothing more than a social club for members of the Kappa Alpha Society, a secret organization of students and graduates, incorporated under the Ontario Companies' Act, in the usual way, with a capital stock of \$10,000.

The land on which the club is built is a corner lot, 75 feet by 120, and is leased to the Kappa Alpha Society by the University at the extremely low figure of \$1.00 a year, thus making the land practically a gift.

The money to build the club was lent by the Board of Trustees to the society; the amount being \$6,000, and the rate of interest 3 1/2 per cent. per annum.

The building has accommodation for about ten or twelve residential students.

**PERTINENT QUESTIONS.**

As several other secret societies have applied for land and money on the same terms as the Kappa Alpha, the following questions naturally arise:

1. Should secret organizations be encouraged in a public non-denominational institution like the University of Toronto?
2. Should public land be granted to any organization, over which the University, can have, in future, but feeble control?
3. Should such organizations, whether incorporated under the Ontario Companies' Act for purposes of gain or not, be allowed to do business without taxation?

The graduates of the University of Toronto, who are not members of secret societies, are now called upon to discuss these questions, and the Board of Trustees will probably be asked to explain their present attitude to the friends of the University and to the general public.

**BOARD OF TRUSTEES.**

The members of the Board of Trustees of the University of Toronto are:

- John Harkin, LL.D., K. C., chairman.
- James Loudon, M. A., LL.D., president of the University, vice-chairman.
- Hon. Sir William Ralph Meredith, LL.D., Chancellor of the University.
- Hon. Charles Moss, LL.D., vice-chancellor of the University.
- Maurice Hutton, M.A., principal of University College.
- Byron Edmund Walker, Esq.
- John Herbert Mason, Esq.
- Hon. Andrew Trew Wood.
- Casimir Stanislaus Gzowski, Esq.

**COMMUNITY COLLEGE RESIDENCES.**

(Toronto World, Jan. 10, 1903, Editorial.)

A news item in yesterday's World says that some objection has been raised to the University of Toronto giving a site to a Greek Letter society for a residence in the Park for a nominal sum, and lending the money to build at a moderate interest.

There are two sides to this question, and we await further information; but in the meantime we offer it as a fact that similar societies have secured similar privileges in connection with nearly all the universities in the States, and the net result has been that the students are better housed, better fed, and are morally improved by living in communities of this kind. Universities that have attempted to lodge and feed their students have in nearly every case failed, the most successful instance of students being well lodged and fed is probably at Harvard, where it is managed very largely by the students themselves. They have solved problems connected with good food, quick service and reasonable lodging in a way that the governing bodies of the college have never been able to approach. Half of a university education consists in college associations rather than in mere book learning, and if university students through community living are improved in their manners and ideas, a distinct gain is made. The old plan of students living in garrets and subsisting on a dollar a week has been exploded. Another good feature of university residence is that every member of the community is bound to assume his share of the responsibility of the management, and in that way everyone comes out with an experience somewhat of a house-keeper and somewhat of a business man, as well as being learned in books.

**THE UNIVERSITY OF TORONTO AND FRATERNITY HOMES.**

(Toronto World, Jan. 18.)

Editor World—The point at issue in this question is not whether secret societies should be encouraged in the university, nor whether public land shall be granted to organizations over which the university can

**ST. MARY'S C. L. & A. A.**

The last regular meeting of the above association was held in the club rooms, with President Read in the chair. After the disposal of the regular business a debate took place—

"Resolved, That Chinese Should be Excluded from Canada"—a subject which proved to be instructive and entertaining. Messrs. W. Oster and Steve Dee spoke in the affirmative, while Messrs. C. A. Girvin and Jas. McLaughlin upheld the negative. The judges for the occasion were Messrs. C. Zeagman, F. Barry and J. Dono-yan, who decided that the honors were about even.

President Read entertained with a piano solo, and H. Richard sang the "Holy City," which was rendered in a very efficient manner.

During the course of the meeting President Read introduced Mr. French, of the Ottawa College Football team.

Mr. Ches. Ceerri made his initial speech before the members and his subject, Venezuela, was much appreciated by those present.

Before the close of the meeting, Rev. Father A. O'Leary, of the St. Aloysius Club, and Rev. Father Williams, of St. Mary's, addressed the members.

**A LINIMENT FOR THE LOGGER.**

Loggers lead a life which exposes them to many perils. Wounds, cuts and bruises, cannot be altogether avoided in preparing timber for the drive, or in ever work, where wet and cold combined are of daily experience, coughs and colds and muscular pains cannot but ensue. Dr. Thomas' Electric Oil when applied to the injured or administered to the ailing, works wonders.

**INTERCOLONIAL RAILWAY OF CANADA.**

We have received a copy of the Intercolonial Railway is a fac-simile of the lithograph is a fac-simile of a design burned into a wooden panel giving a very striking effect, the moosehead lending itself very appropriately to this branch of illustrative art, which is an imitation of pyrography or burnt work.

Speaking of railway trade-marks, The Montreal Star refers to that of the Intercolonial Railway as follows:—"The moosehead is used by the Intercolonial Railway as representative of the largest and finest of the game animals in Canada, and one which is of itself 'intercolonial' in being common to Quebec, New Brunswick and Nova Scotia. No railway in American passes for so long a distance through a country which is recognized everywhere as the 'Home of the Moose.' Apart from this geographical application, the moose is held by the Intercolonial Railway as representing the Government line in its position among railways as the moose is king of the forests. In the size, symmetry of form, strength, endurance and speed of the moose are found the points of excellence for which the Intercolonial Railway seeks to commend itself to the public."

**DIED**

Hamilton, Jan. 19.—Mrs. Walsh, wife of Mr. John Walsh, of the post-office, died this morning. The deceased was a singer of more than ordinary ability, and for many years was a member of the choir of St. Mary's Catholic Cathedral.

**W. J. Dixon Cured of Rheumatism by Dodd's Kidney Pills.**  
He Could Hardly Walk or Sleep. But is now Strong and Healthy Once More.

Barwick, P. O., Rainy River, Jan. 12. — (Special).—The hardships endured by the settlers of a new country so often bring on Rheumatism that any well authenticated cure is eagerly discussed and carefully investigated in this neighborhood. For this reason the recent cure of William John Dixon has created a sensation. He was a familiar figure limping around with his stick, and his cure was so speedy and complete that it is little wonder people are looking on Dodd's Kidney Pills as something to swear by.

"I had an attack of Typhoid Fever," Mr. Dixon says in telling his story, "and after I got over it and started to work Rheumatism set in. I had pains in my back and in my right hip so bad that I had to use a stick to walk and I had no comfort in sleeping. I could no more than dress myself for nearly two months, and for three or four months I could not lace my right shoe or put my right leg on my left knee.

"A brother of mine advised me to try Dodd's Kidney Pills and after taking three boxes I began to walk around and do my work and lace up my shoes.

"Six boxes cured me completely."

**THE CANADIAN NORTHWEST**

**HOMESTEAD REGULATIONS**

Any even numbered section of Dominion lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

**ENTRY**

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10 is charged for a homestead entry.

**HOMESTEAD DUTIES**

Under the present law homestead duties must be performed in one of the following ways, namely:

- (1) By at least six months' residence upon and cultivation of the land in each year during the term of three years, or—
- (2) If the father (or the mother, if the father is deceased) of any person who is eligible to make a homestead entry resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the law as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother, or—
- (3) If the settler has his permanent residence upon farming land owned by himself in the vicinity of his homestead the requirements of the law as to residence may be satisfied by residence upon the said land.

**APPLICATION FOR PATENT**

Should be made at the end of the three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

**INFORMATION**

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at the Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion lands in the railway belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.
