Annually.Also the largest Manufacturers of Pressed Brick in the Western
Provinces, Quality unexcelled. Write for Prices.**EMINENT AUTHORITIES**all agree that the finer the clinker is ground
the better the cement. It costs more to
grind 10% finer than other brands, but**"WE DON'T CARE!"**

"It is generally accepted that the coarser particles in cement are practically inert, and it is only the extremely fine powder that possesses adhesive or cementing qualities. The more finely cement is pulverized, all other conditions being the same, the more sand it will carry and produce a mortar of a given strength."
