SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY PERSON who is the sole head of a
family, or any male over 18 years old,
may homestead a quarter section of available
Dominion land in Manitoba, Saskatchewan or
Alberta. The applicant must appear in person
at the Dominion Lands Agency or Sub-agency
of the district. Entry by proxy may be made
at any agency, on certain conditions, by father,
mother, son, daughter, brother or sister of in-
tending homesteader.

Duties.—Six months' residence upon and culti-
vation of the land in each of three years. A
homesteader may live within nine miles of his
homestead on a farm of at least 80 acres sole-
ly owned and occupied by him or by his father,
mother, son, daughter, brother or sister.

In certain districts a homesteader in good
standing may pre-empt a quarter-section along-
side his homestead. Price, \$3.00 per acre.

Duties.—Must reside upon the homestead or
pre-emption six months in each of six years
from date of homestead entry (including the
time required to earn homestead patent) and
cultivate fifty acres extra.

A homesteader who has exhausted his homestead
right and cannot obtain a pre-emption in cer-
tain districts. Price, \$3.00 per acre. Duties.
—Must reside six months in each of three
years, cultivate fifty acres and erect a house
worth \$300.00.

W. W. CORY,

Deputy of the Minister of the Interior.

STOCK FOOD COMPANY, OTTAWA, ONT.

QUESTIONS AND ANSWERS. Miscellaneous.

PROBABLY ECZEMA.

I have a horse that is in a terrible
condition. He is a horse that has been
well cared for, kept very fat for a good
while, stabled most of the time, and
allowed a little grass once in a while.
He is so itchy that he bites himself
wherever he can, and rubs until you
would think he would take the hair all
off. Last winter he had big patches
rubbed off each side larger than a man's
hand. Then he got a little better, and
now he is as bad as ever. W. K.

Ans.—He probably has a skin disease
called eczema. This is usually due to
high feeding and want of exercise. Purge
him with 10 drams aloes and 2 drams
ginger. Follow up with 1½ ounces
Fowler's Solution of Arsenic, twice
daily, every alternate week, for four
weeks. Rub a little of the following
lotion well into the affected parts twice
daily, viz.: corrosive sublimate, 30
grains to a quart of water. Feed him
first-class hay, rolled oats and bran,
with a little linseed meal daily. Give
him regular exercise. High feeding must
be avoided on account of the skin trou-
ble. Don't feed corn, wheat, or barley.

PERCHERONS AND U. S. DUTY.

1. A horse is registered in the Amer-
ican Percheron Registry Association
(La Grange, Cook county, Illinois). Will
he be allowed to enter in the United
States, or any part of it, free of duty?
2. A horse is registered in the Na-
tional French Draft-horse Association.
Will he be allowed to enter the United
States, or any part of it, free of duty?
SUBSCRIBER.

These questions were submitted to the
Accountant, National Live-stock Records,
Department of Agriculture, Ottawa, who
replies as follows:

Ans.—1. A Percheron horse, to get
free customs entry into the United
States, must first be recorded in the
Canadian Percheron Studbook. The
Canadian certificate must be submitted to
the Bureau of Animal Industry at
Washington, together with a vendor's
certificate, and an application for a cer-
tificate of pure breeding. United States
officials examine animals at the border,
send description to Washington, and if
this description agrees in all respects
with the information on the Canadian
certificate, the collector of customs at
the port where inspection was made, re-
ceives instructions to admit free of duty.
The American Percheron Registry Asso-
ciation, La Grange, Cook county, Ill., is
not recognized by the Canadian Na-
tional Records. Only such horses in
their Studbook as are eligible for regis-
tration with the Percheron Society of
America, are eligible for registration in
the Canadian Percheron Studbook.

2. Horses recorded with the National
French Draft-horse Association of Am-
erica, Fairfield, Iowa, cannot enter the
United States free of duty, because the
Association is not recognized by the
United States Government. Some horses
recorded in their Studbook are of Per-
cheron breeding. Such of these as are
eligible for registration in the Canadian
Percheron Studbook, may enter the
United States as described above.
French draft horses from France, re-
corded in the Studbook Des Chevaux de
Trait Français, enter the United States
free of duty on their French certificate
of registration.

TRADE TOPIC.

Plants cannot grow without food, and
the soil cannot be said to be fertile un-
less it contains the three food elements,
nitrogen, phosphoric acid, and potash,
in proper proportion and in such form
that the plant can readily assimilate
them. The substance in minimum quan-
tity rules the crop. Good farming is
being able to produce crops, and at the
same time to maintain and ever increase
the productive capacity of the soil.
Read The Wm. Davies Co., Ltd., book-
let, "Farm Fertilizer Way," which is free
for the asking. The Wm. Davies Co.,
Ltd., Toronto, Fertilizer Dept. See the
advertisement in another column, and
write for the booklet.
