Not One Lost.

To our many customers throughout the Northwest whose watches we had for repairs before our disastrous fire, early in January, we are pleased to say that not one was lost nor damaged in any way, for we have always been very careful to keep all our repairs in our large fireproof vault. We trust you will bear with us for a little while in our unsettled condition, and we promise you that all repairs will be returned in first-class order as quickly as possible. Having saved all our tools, we are again in shape to give you the same excellent service as we have in the past, and we solicit your further patronage.
