FELLOWS'

COMPOUND SYRUP OF

FOR THE RELIEF AND CURE

WASTING DISEASES

Consumption, Bronchitis, Asthma, Caneral Debility, Brain Exhaustion, Chronic Constipation, , bronic Diarrhoea. Dyspepsia, or Loss of Nervous Po, vr. It is unequalled in the treatment of Pala 'ation of the Heart, Trembling of the

Hands and Limbs, Loss of Appetite, Energy or Memory.

It acts with vigor contieness and subtlety, owing to the exquisite harmony of its facredients, akin to pure blood itself. I's taste is pleasan, and insensors, the taste

Its first apparent effect is to increase the appetite. It assists digestion, and causes the food to assimilate properly—thus the system is nourished. It also, by its tonic action on the digestive organs, induces more copious and regular evacuations. The moidity with which patients take on flesh while under the influence of the Syrup, of their indicates that no other preparation can be better adapted to he'p and n urish the constitution, and hence be more efficacious in all depression of spirits, shaking or trembling of the hands or body, cough, shortness of breath, or consumptive habit. The nerves and muscles become strengthened, and the blood purified.

READ WHAT THE INVENTOR, MR. FELLOWS, HAS TO SAY ABOUT HIS SYRUP OF THE HYPOPHOSPHILES.

In the summer of 1864 I was suddenly effected by a copious exp c or at on cf mneo-purulent matter. I had been declining in health for some months, a chib exceedingly nervous, the symptoms raused alarm. As my besiness we steat of a dispensing chemist, the shop was constantly visited by medical men, all of whom tendered their advice. During 1864 and 1865 my chest was examined by ten first class physicians, some of whom pronounced the case Bronchitis; some, not wishing to cause alarm, or unwilling to venture an -pinion, gave no decision; some sort divisequivocally that I had Tubercular Disease of the Lungs, and located the trouble where the pains were felt. By professional advice, I us ol, in turn, horse-back or recise, country life, eggs and ale in the morning, tonies, Bourbank was kiv, cod-hver oil, electricity, tar, and various inhalents, but the trouble incress Expectoration became more profuse and offensive. Night-sweats at in. d chills, diarrhosa, dyennon, cough, blood-streaked expectorations, loss of all the first prefits, Les of memory, loss of ambition, accompanied by general pros rain, showed the Under the microscope the blood was found to outsin but a small portion of v a z-d corpuscies; the heart's action was feeble; the pulse intermittent; the ach could not digest properly, so that flatulency and acidity was the result. Finding the ymptoms indicated Consumpt on, I determined to use every effort to stay its progress, and, if possible, to cure it. I selected the most powerful tonics and moderators, and combined them with the vital constituents of the human body. For months I end v ered to amalgamate them before my efforts were crowned with succes. I speak too plainly or too strongly of the effects produced, and the beat fit ed from the composition.

At first my appetite increased; the expectoration became easy, digestion negter; faces became more copious and less frequent : cold chills ceased : night-sweats lessened; I gained in weight; the hacking cough left me; refreshing sleep returned; my spirits became buoyant, the mind active and vigorous. I continued taking the Syrup month after month; but owing to the damp, foggy climate of St. John, my recovery was necessarily slow, although I could observe a gradual them of etraneth for three years, during which time I continued taking the remedy. My present weight is one hundred and eighty-eight, being thirty-on above my usual. I have no symptoms left denoting disease. The only no able sign ing tw lve months was the expectoration. Now that he stopp d, and I consider mys. a we'l The read-r may ask. How do you know ar difficulty to have proceed d from ulcered do subseculated lung ! I answer, In the most certain of all modes for ascendaring. In March last I coughed from the right lung a piece of PHOSPHATE OF LIME, half the size of a pea, which could have come from no other place, as d which the highest authority in Lung Diseases (Laennec) states is the result of tuberc'e, which has been cured. Added to this, I had the leaden-colored, purulent, blood streaked expectoration, and the opinion of one of the best diagnosticians in the country. I believe I have experienced all the symptoms incident to the two first stages of Consumption, and have successfully combitted them, so that I do not despair of any case where there is left sufficient lung tissue to build upon. I can only add that the m re monetary consideration of increased sales would never induce me to publish this report, but a sincere sympathy for the poor Consumptive, with whose misfortune I believe it villany to trifle.

JAME I. FELLOWS, Inventor of Fellows' Compound Syrup of Hypophosphites.

THE BEST REMEDY

CHERRY

monary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL IS such a remedy, and no other soeminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure

efficiency and uniforms-PECTORAL. ity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PEC-TORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of

the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
