TO ORGANISTS—BERRY'S BALANCE HYDRAULIC ORGAN BLOWER. These Engines are particularly adapted for blowing Church or Parlor Organs, as they render them as available as a Piano.

They are Self-Regulating and never over-blowing. Numbers have been tested for the last four years, and are now proved to be a most decided success. For an equal balanced pressure producing an even pitch of tone, while for durability, certainty of operation and economy, they cannot be surpassed. GENTS,—I have taken one bottle of Dr. Austin's Phosphate, recommended by Dr. Bentley, of this place, and have received great benefit from it. A BIG INVESTMENT.—G. M. Everest, of Forest, states that Hagar's Pectoral Balsam still holds its own amongst the many cough medicines in the market. He says that he has sold it for nearly sixteen years, and the sales are steadily increasing. One family has purchased over 50 bottles for various members and friends.

Mr. Henry Marshall, Reeve of Dunn, writes:—"Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia." This medicine is making marvellous cures in Liver Complaint, Dyspepsia, etc., in purifying the blood and restoring manhood in full vigor.

CONSUMPTION

And all like diseases of the Head Throat and Chest, including the Eye, Ear and Heart, successfully treated at the

Ontario Pulmonary Institute,

No. 135 Church Street, opposite the Metropolitan Church, Toronto, Ont. M. HILTON WILLIAMS, M.D., M.C.P.S.O., Proprietor.

The only Institute of the kind in the Dominion of Canada.
All diseases of the respiratory organs treated by the most improved medicated Inhalations, combined with the proper constitutional remedies.

Nearly 40,000 cases successfully treated during the past sixteen years for some form of head throat or lung troubles.

CONSUMPTION.

There is a point which we would advert, and that is the unwillingness of those suffering from diseases of the chest to acknowledge themselves in any danger until their disease has reached an advanced stage. This arises, no doubt, in a great degree from the presumed hopelessness of such cases. We would warn all who have a frequent desire to "clear the throat," and who become fatigued and "out of breath" on every slight occasion, that they are on the high road to all those changes and symptoms which constitute pulmonary consumption—that the disease begins in a majority of cases as "cold," ending in "sore throat;" that gradually it extends down the windpipe, rendering the voice slightly hoarse and indistinct, first observed on reaching aloud, and that finally involves the bronchial tubes and the air-cells. The seat of the primary disease is in the mucous membrane of the throat, windpipe and bronchial tubes. The expectoration comes from this membrane, and the tubercular matter is deposited on its surface. In therefore, they would avoid the dangers which attend consumption in its advanced stage, they will not disregard those signs of impending evil, but by prompt and judicious means seek to restore the offending organ to its former tone and health.

By the system of Medicated Inhalation thousands of cases are cured after all hope of a cure is past. And thousands are to-day living witnesses of this very fact.

Consultation free and prices of the Institute are within the reach of all.
If possible call personally for consultation and examination, but if impossible to do so write for a "List of Questions" and "Medical Treatise."
