## STOP TAKING DRUGS

They Are Poisons to Your Stomach, Nerves and Vitals.

Ever since you can remember you have understood that the way to cure a pain outside was to take something inside. That is the foundation of our Canadian drug habit. Since childhood you have depended on drugs to kill pain. It never occurred to you that the drug was also killing the nerves of the stomach and over-taxing the heart. That is the reason for your stomach trouble. You have ruined your stomach with strong drugs and weakened your heart action by driving it beyond its strength with heart stimulants.

You can put on extra fire and draft in the furnace and drive up an engine at top speed without hurting the engine, but you can't do that very often with your heart because it is not made of iron.

You don't realize that until your heart refuses to be forced any more—that it is the time when drugs, which "used to do the work right away," don't seem to have any more effect and you are forced to realize your health is gone.

Every time you take a drug to force the stomach, liver, kidneys or heart you hurt them—you actually lessen their natural vitality—and taking another, because they are weakened by each dose, and anyone can see that in time, by steady dosing, you will have no natural action of any of these organs. From that time on your existence will depend upon forced stimulation, and when that fails you are gone.

Electricity is a relief from the old habit—the drug habit. It does by natural means what you expect drugs to do by unnatural means. It gives real strength to your body, and when your body has its natural strength there can't be any trouble, can't be any pain, because there is no pain in a perfectly healthy body. The exhilarating sensation is felt without sting or burn, and I have perfected it with the regulating device which makes the current mild or strong at will.

My Electric Belt does wonders in a few applications. It arouses

all the dormant energies, develops muscular and nerve life, and restores the feelings of youth, courage and vigor. It makes perfect men of the weakest, puniest specimens of half-men.

Dr. McLaughlin:  
Dear Sir,—I have worn your Belt for thirty days, and I am feeling fine, the best I have for years. My stomach is very much better, and my appetite has improved wonderfully. I can now eat a good meal and be satisfied, which I could not do before. I feel like a new man entirely.—FRED. J. CUTTER-BUCK, Brockville, Ont.

Dr. McLaughlin:  
Dear Sir,—I am pleased to be able to tell you that I now feel like a new man in every way. Wishing you all the success that you deserve, in your endeavor to relieve suffering humanity, I remain,  
F. A. OUELLET, Springfield, N.S.

She neighed in joy. And when they were both on the celestial prairie, the horse exulted in finding again the old companions of his misery and seeing their happiness, which would last forever.

There were horses that had drawn huge stones over slippery pavements; that had been beaten violently; that had succumbed under cruel loads; that, with blinded eyes, had turned ten hours each day the merry-go-round. There were mares that, in the bull-fights, and before the eyes of young girls, who had looked on with flushed cheeks, had swept the hot sand of the arena with their rent intestines. And there were others and others.

And now they all took their own gait on the great plain of divine peacefulness.

Other animals were also happy. Cats mysterious and refined, obeyed only their Creator. They purred gently at threads, with a feeling of inexplicable importance.

Dogs—good mothers—spent their time nursing their young. Fish swam without fear of the angler; birds feared no gun. And so it was with all the animals.

There was no man in this Paradise.—*Boston Journal.*

### MARES CARRIED FOALS WELL OVER TIME.

Some rather noted brood mares have contributed to our knowledge on the periods that the equine species may carry a foal to birth. (1) Hyeres, the mother of the Derby winner and great stallion Hagen, and other famous running horses, as Hutab, Hutschachtel and Hans Sachs, gave birth to a stallion foal on March 4th, in Frederick William's stud, by the sensational stallion, Ard-Patrick. The mare was barren during the three previous years, and this time gestation extended to 368 days. (2) Unorna, one of the less-fortunate Thoroughbreds in breeding, also in Frederick William's stud, foaled on March 9th, a brown colt, by the original Arabian horse, Dziaf-Amir. The mare had been covered repeatedly in January, February, March, 1904. She was successfully served on March 22nd. On June 4th, 1904, the mare showed symptoms of heat plainly while at pasture, and allowed herself to be covered the same day; she refused the stallion on the 5th inst. In November, pregnancy was confirmed by movement of the foetus. On March 7th, 1905 her udder enlarged and she foaled a healthy colt on the 9th. Hence, according to the last date of coition (June 4), the period of gestation occupied only 278 days, so that it can be accepted with certainty that the mare became pregnant after being covered on March 22nd, and consequently the duration of pregnancy was at least 352 days. It appears, therefore, although it rarely occurs, that a mare which already had been pregnant 74 days, once more showed symptoms of heat and took the stallion.—*Berliner Tier, Wochen.*

Alexis Aladyn, the leader of the Russian Douma's Labor Party, was marvelling in New York at the strength of the labor unions of America. "Now that I grasp the size and power of these unions," he said, smiling, "I see the point of a story that I failed to understand coming over on the boat.

"An American woman told me this story. She said that a young bride was found, one afternoon, crying bitterly in the smoking room of her club.

"Why, my dear," said an elderly matron, "what is the matter with you?"  
"Oh," sobbed the bride, "I'm going to leave George. Dear me, I am going straight back home to mother."

"What," exclaimed the matron, "has George already proved unkind? Well, they're all alike, my—"

"But the weeping bride interrupted her.

"No," she said, her shoulders shaking with grief, "George is so dear. He's perfect. But that brute of a Hans Simmons has refused to buy Mrs. Simmons a new dinner gown, and District 4 of the Amalgamated Wire Company has been ordered out on strike."

### This Surplus of Over a Million and a-Half

—\$1,552,364.26—the 1906 surplus of The Mutual Life of Canada, on Government Standard of Valuation—or \$1,203,378.58 on Company's Valuation Standard (an increase on the latter, for the year, of \$251,377.46)—proves that The Mutual Life enjoys, to an extraordinary degree, the full confidence of the people.

The gains in every department are far beyond our expectations—and the steady gains of preceding years had made those expectations reasonably high.

## Kidney Disease And Its Danger.

Kidney disease comes on quietly—may have been in the system for years, before you suspected the real cause of your trouble. There may have been backaches, neuralgia, sciatica, rheumatism, etc. Perhaps you did not know these were symptoms of kidney disease, so the trouble kept on growing worse, until disturbances of the water appeared, or there was gravel or retention of urine, or some such sign of kidney trouble.

Doan's Kidney Pills should be taken at the first sign of anything wrong; they strengthen the kidneys and help them to filter the blood properly—help them to flush off, and carry away with the surplus water, all those impurities which the blood gathers up in its circuit of the body.

Mrs. Alfred LeBlanc, Black Cape, Que., writes: "I feel it my duty to say a word about DOAN'S KIDNEY PILLS. I suffered dreadful pains across my back—so bad I could not stoop or bend. After having used two boxes I now feel most completely cured. I highly recommend DOAN'S KIDNEY PILLS."
