This White Lead has been making good for nearly 200 years.

Not only is it absolutely pure, but it is whiter, of greater covering capacity and of longer life than any similar product. The paint in which it is used works easily and produces a tough, elastic film that is very durable.

Brandram's Genuine B.B. White Lead

Brandram Bros. & Co. of London, England, invented their process for corroding white lead in the reign of George II. Although almost 200 years have since passed and many other white leads have appeared on the market Brandram's Genuine B.B. White Lead has maintained its preferential price and position wherever it is sold throughout the world.

Our agent in your vicinity will be glad to give you prices on request.
