A RICH SHIPMENT-

The management of the I. X. L. mine is preparing another of the shipments of excetionally high-grade ore that have won for the mine the undisputed distinction of being the richest producer in the Kcotenays. It is well known that in the I. X. L. pockets of ore are encountered in the vein that give wonderful returns and the contents of one of these pockets are now being sacked for shipment. The quantity will be in the neighborhood of two tons and the management will be very much disappointed if the two tons in question do not net \$4,000 per ton. In addition to this the usual quantity of \$20 ore is being extracted as work proceeds. The ore from the lower level, now being opened up, is running higher than in any of the previous levels.

It was arranged that a representative of each of the tirms interested should meet Mrs. LaMore at the Windsor yesterday afternoon to receive their accounts. When the creditors arrived. the lady was not in sight, and one of them remained at the hotel while another went to the house where the lady resided. There he found Mrs. LaMore just etepping into a carriage drawn by one of the local stables. The lady's two daughters were already in the carriage, and when Mrs. LaMore gently reminded that she had failed to keep her engagement she replied that it was useless as she had not the funds to liquidate her bills. Asked as to her destination, she stated that she was going to Trail for the afternoon. The siness man was dubious and arranged by means of a telephone near by to press for a settlement. Proper documents were secured and placed in the hands of Sheriff Robinson. A carriage and team were secured also in the shortest possible time.

Half an hour after Mrs. LaMor lrove out of the city on the Northport road Sheriff Robinson passed through the city gate in company with representative of P. Burns & Co. Their team was spirited and in fine fettle for The sheriff wielded the ribbons and he got all there was out of the horses without pushing them beyond their capacity. The distance to Sheep creek, ordinarily eighty minutes' drive was covered in forty minutes, and the quarry was overhauled within five minutes' run of the boundary line. It was suggested to Mrs. LaMore that she had taken a somewhat circuitous route to Trail, a fact which she admitted.

Men who lack the vigor and snap of youth, who have "grown old" too soon; who have been debilitated and weakened by mental overwork, worry, youthful errors or later excesses, who would care for an honest opinion as to the possibility of having such power returned-to these I am pleased to offer my advice and consultation free.

During my 30 years' experience as a specialist I have tested all medicines known to science for such disorders, and I pledge my word that not one case out of every hundred can be cured by drugs. The reason is that stimulants must be used, and after treatment is left off the trouble returns. The best and surest remedy I have found to be the pure galvanic current of Electricity PROPERLY applied. I

would have no reason for saying this were it not true, for I can give medicines if the patient desires. I pin my faith to Electricity because it is a NATURAL cure, and does not STIMULATE, but STRENGTHENS: hence the results are permanent.
