JANAICA SARSAPARILLA, . As ordered by the Pharmacopæa of London College of Physician PREPARED BY

ALEXANDER URQUHART, Medical Hall, 7, Great St. James' Street. THIS Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-consibilishing the constitution after it has undergone the effects of Mercury. In Chronic Rhoumation, the most marked effects have been produced by the Medic ine for re-establishing the construction indergone the effects of Mercury. In Chronic Racumatum the most marked effects have been produced by the use of Sarsaparilla; and its continued use is often attended with improvement of appetite and digestion, increase of strength, the production of a more healthy state of mind, and the palitation, or, in some cases, complete disappearance of various mortial symptoms, as Eruptima, Ulcerations, pains of a Rheumatic character, & c., & c.

Drs. McGulloch, Campbell, McDonell, and Fraser, who have extensively used it in their practice, have kindly favoured the Proprietor with the following Certificates:

ALEX. URGUSART, Esq:—DEAR SIR.—I have much pleasure in bearing testimony to the faithful mainmer in which you prepare your Fluid Extract of the Compound Decoction of Sarsaparilla. That I am enabled to do, on account of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism. I have prescribed it with the most marked effects, I can, therefore, without the least hesitation. recommend your preparation as one possessing all the Medicinal qualities of the Compound Decoction of Sarsaparila, while it is at the same time more palatable, and less apt to dorange the Stourach.

Your most obedient servant.

Moyreman, February 10th, 1987.

I beg to certify, that I have employed very extensively, the "Fluid Extract of Sarsaparilla." made by Mr. Unquener, in all those diseases in which that Medicine is usually prescribed, and that I have found it a most valuable preparation. Ican: moreover, state, from personal investigation, that the proprietor employs none but the purceit ingredients, and bestows the greatest care and attention upon the mode of preparing this remedy.

We have not unfrequently called attention to this criticle in the columns of our paper, and we have done so with the full confidence that it was a good one, and deserving the patronage of the public. We have had a chance to witness its effects upon some of our friends, which, in addition to the high enconaisms passed upon it by our brethern of the press, not in paid pulls, but in honest, candid statements, from having derived a branch tenselves, makes no desirtom of advising all those who have occasion to resort to a remedy for pulmonary disctions, to avail themselves of it. We have too much confidence in Mr. Fowle, the general agent, to believe he would thrust this, or may other medicate, upon the community, unless he had full faith in five-feates,—in confirmation of which the proprietor offers a mass of testimonty from the most unquestionable courses, Neither would we be indented as enging that this will always cure consumption after it is seasted, although it selfom fails to relieve try body is flable to a cold, which, if ouglected, will lead to faint results—by taking this medicine, we doubt not many lives may be saved.—[Now England Washingtonian, Borton.
