Why Best for Babies?

"Granny" Chamberlain "I am often asked why Chamberlain's Cough Remedy is best for babies. Well, there are several reasons:

- First: It is perfectly harmless and can be given with every confidence to the youngest or most delicate child.
 - Secondly: It contains no alcohol, opium, chloroform, morphine or any other narcotic.
 - Thirdly: Children like it, and no persuasion is needed to get them to take it.
- For the above reasons alone it is impossible to get a better medicine for babies than

Chamberlain's Cough Remedy

But aside from its safety it relieves coughs and colds, is the best remedy known for croup, and when given as soon as the croupy cough appears it will even prevent the attack."

SIGNALS OF DISTRESS

Kentville People Should Know How to Read and Heed Them

Sick kidneys give many signals of distress. The secretions are dark, contain sediment. Passages are frequent, scanty, painful. Backache is constant day and night. Headaches and dizzy spells are frequent. The weakened kidneys need quick help. Don't delay! Use a special kidney remedy.

Booth's Kidney Pills cure sick kidneys, backache, and urinary disorders. Kentville evidence proves this statement. James Foster of Gasperau, N. S. says:—"For several months I had been very much troubled with lame and soreback which inconvenienced me very much in working. The pains in my back were so severe at times that I would have to stop my work. The kidney secretions had also been highly colored and contained a heavy sediment. I had tried various remedies to relieve me but without receiving any benefit from them. I then learned of Booth's Kidney Pills through an advertisement and procured a box at J. D. Clark Pharmacy and found in them almost immediate relief. Today I feel as if I had a new back as it does not trouble me in the least. The kidney secretions have also learned and I feel better generally. Sold by Dealers. Price 50 cents." The R. T. Booth Co., Lt. Fort Erie Ont, Sole Canadian Agents.

MANUFACTURERS LIFE REPORT

The twenty-ninth annual report recently submitted to the policy-holders and shareholders of the Manufacturers Life Insurance Company was very satisfactory in every respect. The total net premium income from interest, dividends, etc., \$1,155,526.32, making a total income of \$4,387,763.76. The payments to policy holders amounted to the large sum of \$1,824,161.83, in addition to which the company set aside the further sum of \$1,476,365 for reserves and dividends, and the general surplus was increased \$402,325.95. After setting aside a special mortality reserve of \$125,000, and dividends payable to policy-holders in 1916, amounting to \$266,138, the general surplus of the company amounted to \$2,254,655.10. The surplus earned, \$789,102.79, was the largest in the history of the company. The new insurance issued and revived amounted to \$12,599,040, and the total insurance in force now amounts to \$85,746,172. The assets of the company have now reached the large sum of \$20,744,678.34, and the policy reserves \$17,337,011.

The policyholders of the Manufacturers Life can feel they are safely insured in a company making satisfactory progress.

The Superintendent of Insurance at Ottawa when recommending that the proposed merger be not approved, said that the excellent condition of the manufacturers justifies the belief that its future profits will be on a par with those of the best companies, and that the interests of the policyholders will not suffer by the company not completing the proposed amalgamation.

The Manufacturers Life has evidently made thorough preparation for a future aggressive insurance campaign. It has appointed Mr. J. B. McKechnie, F. L. A., General Manager and Actuary. Mr. McKechnie joined the company in the year 1903, after graduating from Queen's University. He is a Fellow of the Actuarial Society of America, and a Fellow of the Institute of Actuaries of Great Britain.
