#### UNITED FRUIT COMPANIES

The fifth annual meeting of the United Fruit Co's of N.S., Ltd., was held at Kentville on Tuesday with morning, afternoon and evening session and the work completed on Wednesday morning. President John Donaldson called the meeting to order and after roll call gave his presidents address dealing succinctly and generally with the work accomplished during the year Mr. John Chute, secretary presented his annual report.

In the afternoon session Mr. A. P. Runsey, inspector for the companies read his report stating his visits to each of the companies how the packing was done and making various recommendations as to more and better spraying better handling of fruit and more care in keeping fruit packages clean.

Inspector Vroom spoke of the good work done by Mr. Runsey and the need of great care in handling of fruit and packages. Some barrels were shipped in a disgraceful condition getting dirty in the orchards and by being conveyed in cattle and coal cars.

Mr. D. Johnson, Fruit Commissioner, Ottawa, who had just arrived in the hall received a hearty welcome and gave the United Fruit Co's great credit for the work they were doing in spraying, packing, etc. They were establishing a record for good fruit and were assisting him in the work he had to do.

Mr. H. Stairs moved that the directors be recommended to make a call of 15 per cent on the capital stock of the companies so as to give central more working capital. This seconded by Mr. Clarke and debated somewhat and passed.

Mr. McMahon said for various reasons if the directors approved of this, a call would not be made very soon Election of Officers.

At the close of the afternoon session the officers, delegates and visitors took autos and paid a visit to the Experimental Farm where they were received by Prof. and Mrs. Blair and spent a most pleasant time in looking over the farm and the growing crops. The work being done there was a revelation to the fruit growers and plainly showed them the importance of such a station in this important section.

The New Glasgow Chronicle says: "He may have been too observing as his eagle eye glanced at a group of over or under dressed girls on the opposite walk. Somewhere, he remarked, in the old sixth school reader, it said: The age of chivalry has gone and that of sophists, economists and calculators has succeeded and the glory of Europe is extinguished forever. Now do you think the age of modesty is gone and that of peek-a-boo waists, short skirts and silk stockings has succeeded, but here he broke away from the question, with the parting shock, it would be tough to be blind these days."

## Relaxing the Tension with a Good Gillette Shave

A day a-wing over enemy lines—scouting, observing, fighting, dodging shells and machine-gun bullets—is an nervous strain that has no precedent and probably no equal. When our airmen alight at last, after flights an eagle might envy, they certainly do enjoy the refreshing relaxation of a cool, smooth Gillette shave.

Nor is this appreciation of the Gillette Safety Razor limited to our airmen, or even to our own British armies. Every service has its own tense moments, hours or days, with its welcome intervals of relaxation when the Gillette is a friend indeed. Keen, compact, always ready for action, the Gillette Safety Razor is treasured in tens of thousands of kits on every fighting line on land and sea—and by no means least in the land of its birth, with the forces of our newest Ally.

Nor does its service end here, for "the man behind the gun", who in the factory, the office or on the land is bending every energy towards production—be too gets solid comfort and satisfaction out of the Gillette Safety Razor and its wonderful three minute shave.

Spend a five dollar bill to send a Gillette to one of your officers—and get one for yourself to see how much he'll appreciate it!

#### CANADIANS HAVE CAPTURED LA POULOTTE

CANADIAN HEADQUARTERS IN FRANCE, June 26—Canadian troops entered the village of La Coulotte this morning. The Germans have withdrawn in this neighborhood from a line about one and three-quarters of a mile long.

The retirement of the Germans ceased during the night. Patrols sent out on that part of the front opposite Mericourt and to the south found the enemy's front line strongly held. The Germans used many flares throughout the night, and threw rifle grenades whenever our patrols were observed. In the vicinity of La Coulotte machine guns were in action all night. The night was wild and pitch dark. The torrential rain which fell was accompanied by a high wind, which held the advance towards the village until daylight.

Our casualties, the people at home will be glad to learn, were remarkably few. Coulotte was occupied without a single fatality. The German artillery fire has been far below normal. It has

been directed chiefly on his former front line of trenches. Between our shelling and his very little is left of them.
