

Household Hints For Women

A Column Specially Prepared By The Planet For
The Busy Housewives of Chatham and Vicinity.

HOUSEHOLD SUGGESTIONS.

It is necessary at all times to keep the drain pipes in good condition, especially where the plumbing is old. A good disinfectant is concentrated lye dissolved in boiling water. This should be poured through the kitchen sink and down the pipes, using plenty of boiling water. Then follow with a solution made of crystallized copperas, dissolved also in boiling water. This should be done at least once a week.

Native East Indian cooks are said to use the following method to distinguish edible fungi from poisonous foodstuffs. They throw a silver coin into the water in which the mushrooms are boiled. If the metal turns black with a coating of rust, they condemn the mushrooms, but if the metal retains its color they consider them safe to use.

It is said that lettuce has a property in it that tends to soothe the alimentary canal and the entire nervous system.

When butter does not melt at a temperature of 95 degrees it is because it is adulterated with something like suet.

It is said that the green crown at the top of a pineapple should be taken off if the fruit is not to be used immediately, as otherwise it will absorb the flavor and juice of the fruit.

Take an old teakettle, cut the bottom out and place over irons that are being heated on a gas or kerosene stove. The irons will heat much quicker, and it will save gas.

Most crackers should be placed in a hot oven for a few minutes just before using. A little butter and a crusting in the oven makes quite a different flavor. Toasting is better for certain occasions, such as for use with all kinds of cheese crackers which can be bought, but better ones can be made at home. Spread saltines with butter and then grate American cheese, which must be fairly generous. The browning in the oven must be done with care. Another cheese cracker is made by buttering the unsweetened graham cracker.

It is not good economy to cook the same things day after day. Study up new dishes and serve them daintily; use up all the left-overs; and put bits of bread, cereals, mashed potatoes, or anything of the sort in your griddle cakes, and they will be greatly improved.

If a drop of olive oil is rubbed on dinner knives before putting them away they will keep their brightness, and will not rust.

A little flour spread over the top of cakes before they are iced will prevent the icing from running off.

Where there is great affliction from mosquitoes the following remedy may be appreciated: Put some insect powder on a coarse plate. Put the plate on an inverted tin pan in the centre of the room. Set fire to the insect powder, then close the door and open all the windows. The smoke will send outdoors all the mosquitoes and also flies. The household authority who gives this advice does not state whether it would drive human beings away also; but after the air is clear the mosquitoes will not return and human beings can occupy the room unmolested.

Barthou, Minister of Public Works; M. Ruman, Minister of Agriculture; M. Thevenet, Minister of Marine; and M. Doumergue, Minister of Commerce, will remain, and that Gen. Picquart will get the War portfolio, and M. Millerand the Justice Department. A new Ministry of Labor may be created with M. Vivian, the well-known Socialist Deputy, at its head.

To Make Recommendations.

Toronto, Oct. 23.—Mr. A. B. Ingram, vice-chairman of the municipal and railway board, returned yesterday from Columbus, Ohio, where he attended the American Street and Inter-urban Railway Association. Mr. Ingram stated that he would have some recommendations to make to the board as a result of his visit, one of which would be about fenders. The continuous rail is another point which attracted attention, and demonstrations were given of the welding of steel rails in 55 seconds.

LAMONT IS GIVEN SEAT

Three Judges Appointed by
Lib. Government Decide
In His Favor

CASE MAY BE APPEALED

Regina, Sask., Oct. 23.—The controverted election law is not in force.

That is the decision reached in the Supreme Court sitting yesterday afternoon and the ruling of Judge Prendergast is therefore sustained.

The appeal was on the decision in the petition against Hon. J. H. Lamont in Prince Albert.

The court divided before coming to a conclusion and when all decisions were read it was found that Judges Wetmore and Scott were for quashing the decision of Judge Prendergast and allowing the hearing of election protests, while Judges Stinson, Newlands and Harvie were of opinion that the appeal should be quashed.

The last three judges are appointees of the Liberal Government, while the former two judges, Wetmore and Scott, were appointed by the old Conservative Government.

Five decisions were read out before the final result was known and each judge made his finding on a different ground.

The result of the decision is that 16 protests against the return of members of Legislative Assembly charged with bribery and corruption are held in abeyance and cannot be brought to court for a fair hearing.

Feeling was running high in Regina last night and on the street there is almost as much excitement as when the election was held.

It is said that an appeal will be made to the Supreme Court of Canada.

MUST BE TRIED AGAIN.

Judgment in "Thin Red Line" Case Is Reserved.

Winnipeg, Oct. 23.—Lawrence Dugan, returning officer at Selkirk in the Dominion elections of 1904, must go to trial again.

At a sitting of the Appeal Court yesterday, the decision of Judge Perdue, withdrawing the case from the jury, was reversed. The court orders that the plea of not guilty must be set aside, and that Dugan, who is accused in what is known as the "thin red line" case, of having erased, or caused to be erased, the names of persons entitled to vote on the lists of the Dominion election, must go to trial again.

Mobile, Ala., Oct. 23.—The first news of a terrible hurricane that visited the towns of Ruatan, Tela, Utilia, Colorado and El Progreso, Honduras, on Oct. 12, was brought here Sunday night by the Norwegian fruit steamer Harold.

A number of vessels were wrecked, several destroyed and buildings in each of the towns mentioned badly damaged. The loss to the owners of the fruit plantations will, it is stated, reach almost a million dollars. The British schooner Southern Queen was thrown on the beach at Ruatan and went to pieces in less than an hour, and the Harold suffered somewhat and will have to be docked.

A tidal wave accompanied the hurricane and swept everything before it. Capt. Henrychen reports that when he left, the beaches were strewn with vessels of all kinds, including three large sailing vessels. No lives were reported lost.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and vigorous—you are fed on properly nourishing blood; they are starved nerves.
