Woman Jumps Into Lake.

Dunkirk, Aug. 21.—Mrs. Thomas J.
Meyers, 34 years old, of King street,
committed suicide Saturday morning
by drowning. About 10 o'clock she ap-
peared on the Central avenue
dock and handing a small hand-
bag to a boy, named Wick, said:
"I am going to jump in the lake." She
sprang over the edge of the plank-
ing into the deep water. A small bottle
nearly full of carbolic acid was found
in the hand bag.

Stamping Out the Fever.

New Orleans, La., Aug. 21.—The
yellow fever report to 6 p.m. yester-
day: New cases 45, total cases to date
1,385, deaths 4, total deaths 196, new
foci 115, total foci 306, remaining
under treatment 381. For several days
the number of new cases has shown
a decline, while the number of deaths
have been remarkably lower, con-
sidering the number of cases reported
a week ago.

Suspected of Murder.

Ottawa, Aug. 21.—Constable Wilson
and Constable L'Etoile arrested three
tramps at Angers, Que., near Thuroso,
on Saturday night, and there are being
held pending the arrival of Chief De-
tective McCaskill of Montreal, as sus-
pects in connection with the murder of
the C. P. R. call boy Audette at Farn-
ham. The men say they came from
near Montreal and gave their names as
Frank King, Henry Ennis and Arthur
Labelle.

Mrs. Fairlitz—That odious Mrs.
Sharpe made a very mean comment
on my age to-day.

Mrs. Askum—Told you you were
getting old, I suppose?

Mrs. Fairlitz—Oh, no. She said I
still looked quite young.

THE INDIAN'S GAIT.

It Gives Him Perfect Balance, With
Great Economy of Force.

A woodsman walks with a rolling
motion, his hips swaying an inch or
more to the stepping side, and his
pace is correspondingly long. This
hip action may be noticed to an exag-
gerated degree in the stride of a pro-
fessional pedestrian, but the latter
walks with a heel and toe step, where-
as an Indian's or sailor's step is more
nearly flat footed. In the latter case
the center of gravity is covered by
the whole foot. The poise is as secure
as that of a ropewalker. The toes
are pointed straight forward or even
a trifle inward, so that the inside of
the heel, and the outer side of the ball
of the foot and the smaller toes all do
their share of work and assist in balanc-
ing. Walking in the woods in this manner
one is not so likely either to trip over
projecting roots, stones and other traps
as he would be if the feet formed
hooks by pointing outward. The ad-
vantage is obvious in snowshoeing. If
the Indian were turned to stone while
in the act of stepping the statue would
probably stand balanced on one foot.
This gait gives the limbs great con-
trol over his movements. He is al-
ways poised. If a stick cracks under
him it is because of his weight and
not by reason of the impact. He goes
silently on and with great economy
of force. His steady balance enables
him to put his moving foot down as
gently as you would lay an egg on the
table.—Field and Stream.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.
NO NAMES USED WITH-
OUT WRITTEN CONSENT.

He was surprised at how the
sores healed.—I took your New
Method Treatment for a serious
blood disease with which I had
been afflicted for twelve years.
I had consulted a score of phy-
sicians, taken all kinds of blood
medicines, visited Hot Springs
and other mineral water re-
sorts, but only got temporary
relief. They would help me for a
time, but after discontinuing
the medicines the symptoms
would break out again—running
sores, blotches, rheumatic pains,
looseness of the hair, swellings
of the glands, palms of the hands scalling, itching of the skin, dyspep-
tic stomach, etc. I had given up in despair when a friend advised me
to consult you, as you had cured him of a similar disease 8 years ago.
I had no hope, but took his advice. In three weeks the sores
commenced to heal up and I became encouraged. I continued the New
Method Treatment for four months and at the end of that time every
symptom had disappeared. I was cured 7 years ago and no signs of any
disease since. My boy, three years old, is sound and healthy. I cer-
tainly can recommend your treatment with all my heart. You can
refer any person to me privately, but you can use this testimonial as
you wish.

We treat Nervous Debility, Varicose, Stricture, Vitil Weakness,
Blood and Skin diseases, Urinary, Bladder and Kidney complaints of
men and women.

LIFE BUOY AND OAR.

How to Get Into the One and to Sup-
port Yourself With the Other.

Very few persons know how to get
into a life buoy, and, as in this uncer-
tain world one never knows when one
may need to make use of a buoy in
real earnest, a little practice might
prove of great value in an emergency.

Now, when the buoy is thrown into
the water the temptation is to try to
lift it over one's head and shoulders
or to dive through it. This, however,
is impossible. The correct thing is to
grasp the two sides of the buoy, with
fingers of the hands uppermost, lower
yourself under the buoy and come up
through the center, then rest your
arms upon the sides, and you will be
comfortably supported as long as it is
necessary.

More often than otherwise, in case
of accident, a life buoy is not at hand.
In such event an oar may be used as
a substitute. Now, there is some little
art in saving oneself by this means,
for an average sized scull is not buoy-
ant enough to support a person if he
grasped the first impulse would direct.

There is only one way in which the
oar will support a human being. It
must be ridden like a hobby horse.
The haft is put between the legs and
the blade allowed to project above the
surface of the water in front of one.
By this means the head is kept well
above the water.

SOME SECRET INKS.

Writing That Remains Invisible Un-
til Exposed to Heat.

Letters written with a solution of
gold, silver, copper, tin or mercury
dissolved in aqua fortis, or, simpler
still, of iron or lead in vinegar, with
water added until the liquor does not
run in a white paper, will remain in-
visible for two or three months if kept
shut up in the dark, but on exposure
for some hours to the open air will
gradually acquire color, or will do so
instantly on being held before the fire.

Each of these solutions gives its own
peculiar color to the writing—gold, a
deep violet; silver, slate; lead and cop-
per, brown, but all possess this com-
mon disadvantage—that in time they
eat away the paper, leaving the let-
ters in the form of perforations. There
are a vast number of other solutions
that become visible on exposure to
heat or on having a heated iron passed
over them, the explanation being that
the matter is readily burned to a sort
of charcoal, simplest among which we
may mention lemon juice or milk, but
the one that produces the best result
is made by dissolving a scruple of sal
ammoniac in two ounces of water.

Writing with rice water, to be ren-
dered visible by the application of
iodine, was practiced successfully in
the correspondence with Jelalabad in
the first Afghan war.

DO WE TALK TOO MUCH?

A Plan For Enough Silence to En-
able Us to Think.

In the United States we are prone
to talk too much. We do not suf-
ficiently appreciate the value and beauty
of silence.

During the after business hours, at
the lunch and dinner table we talk on
and on without ceasing, as though
there was nothing worth thinking
about. We invented the first talking
machine, and no American is consid-
ered properly equipped unless he can
talk at all times and upon all sub-
jects.

Information must be imparted and
ideas exchanged; it is essential to men-
tal companionship and develops our
faculties of expression. But there is
no necessity for the endless and eter-
nal talk in which so many of us in-
dulse.

There is a great force and value in
silence. It enables us to think. It
forms and expresses character. The
great men of the world were relatively
silent men; they talked only when they
had something to say, and the greatest
of them said but very little.

We should study the beauty of sil-
ence and develop our thinking power
rather than our talking power.

The Bridal Wreath.

The bridal wreath is usually formed
of myrtle branches in Germany; it is
made of orange blossoms in France
as well as our own country; in Italy
and the French cantons of Switzer-
land it is of white roses; in Spain the
flowers of which it is composed are
red roses and pinks; in the islands of
Greece vine leaves serve the purpose
and in Bohemia rosemary is employed.
In German Switzerland a crown of
artificial flowers takes the place of the
wreath.

The Sequel.

"When I saw her last she seemed to
have fallen in love with him."
"Oh, yes, but that was some time
ago. She's suing him now for breach of
promise."
"Trying to get damages for the fall,
eh?"

Sure Thing.

Juswed—Do you know, old man, I
don't spend so much money now as I
did before I was married. Money—
How's that? Juswed—Well, I don't
have it to spend.

Apprehension.

One Woman—If I thought I would
ever have hair as gray as Mrs. Bad-
ger's, I believe it would worry me to
death. Another—I am sure I should
dye right off.

History is a mighty drama, enacted
upon the theater of time, with suns
for lamps and eternity for a back-
ground.—Carlyle.

you clean them the Sunlight way. Chop very finely a piece of Sunlight Soap and
put it into a bottle with a teacupful of hot water, shaking it well and adding a wine
glass full of spirits of ammonia. Paint the frames with this liquid, let it stay on a
few minutes, then wash off with a soft brush and cold clean water, and polish
with clean chamois leather. Sunlight Soap is the only soap that can be used
successfully in every cleansing operation in the household.

The Pursuit of Man.

Directly or indirectly we are all in-
terested in the pursuit of the desirable
male, for whom every function is re-
ally arranged whatever be the ostensible
reason. When one sees on all sides
how eligible men are run after, fawned
upon, flattered, coaxed and hum-
bugged, can the truth of it be denied?
Ladies' Field.

An Unfair Fight.

Mrs. Wickwire—If woman were
given the credit she deserves, I don't
think man would be quite so prominent
in the world's history. Mr. Wickwire
—I expect you are right. If she could
get all the credit she wanted, he'd be
in the poorhouse.

A Funny Will.

Comforting Friend—Has your hus-
band made his will? Prospective Wid-
ow—Yes, the wretch. He's left every-
thing to the doctor if he cures 'im, an'
not a blessed farthing to his widdler
an' orphans.

Minard's Liniment Cures Colds, etc.

Disastrous Fumigation.

Peterboro, Aug. 21.—The two barns,
all the out-buildings and forty tons of
hay on Edward Allan's farm, four miles
north of Douro, were destroyed by fire
last Friday. Mrs. Edwards was fumi-
gating the hen house and a strong wind
blowing from the south fanned the hot
coals into a blaze. Allan's loss will
amount to about a thousand dollars.
There was no insurance.

Telegraphers' Strike Ends.

St. Paul, Aug. 21.—The strike of the
telegraphers on the Northern Pacific
was officially declared off by President
Perham of the Order of Railroad Tele-
graphers. Mr. Perham says the men
accepted the terms offered by the Nor-
thern Pacific before they went on
strike. He says these terms give the
operators a total increase of about \$20-
000 a year in wages.

Sir William Mulock Returns.

lock, Postmaster-General of Canada,
was a passenger on the Campanie,
which arrived Saturday from Liverpool
and Queenstown.

PHYSICAL DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are
scores and hundreds of persons suffering from nervous debility, which should be cured first, and re-
ceive his pay afterwards, is not the man to in-
flict confidence in those who are in search of
honest treatment.

My acceptance of a case for treatment is
evidence to a cure. I never accept in-
complete cures. I am satisfied to receive the
money for the value I have given the patient,
but I expect to prove my worth and show the fe-
male and satisfactory results before I ask for the fee.
So, should I fail to cure the case, the patient
loses nothing, while I cure him I have
given what is worth much more than money
—I have given him his health again. I am the
very first specialist in the United States who
has had sufficient confidence in his ability to
say to the afflicted,
NOT ONE DOLLAR NEED BE PAID UNTIL CURED

There is no guess work, no experiment about
my method. I am a known expert in my cho-
sen specialties, and offer you the best and only the
best treatment. When your life or your health
is at stake, inferior treatment which leaves
after-effects worse than the disease itself, is dear
at any price.

men in different parts of Canada and Mexico, as well as all over the United States,
are being cured by my system of home treatment, I feel fully justified in claiming that it is
the most perfect and successful system ever devised. All physicians coming to me for
consultation over obstinate cases which they are occasionally called upon to treat will
receive the usual courtesies of the profession. Medicines for Canadian patients shipped
