

THE ACADIAN.

WOLFVILLE, N. S., OCT. 5, 1917

Editorial Brevities.

Although the flight of an Italian aviator from Turin to England has received only passing mention in the press, it is well to keep in mind the fact that such a journey has been made without stop. Also it is well to keep in mind the fact that Italian aviators on American aviation fields have demonstrated the carrying ability of their larger type machines with accommodation for a dozen and more passengers. These happenings have both a war and a peace significance. They demonstrate the growing possibilities of the flying machine, and force the conviction that not far distant is the time when it will be possible to use the aeroplane for big military operations, such as the transportation of an invading army. They also suggest the steady development of aerial navigation as an aid to peaceful pursuits of commerce.

An Appreciation.

It is with deep regret that we announce the passing of Lt. Corp. Graham from the personnel of the Granville Canadian Special Hospital. Lt. Corp. Graham has decided to try his fortune combating the Hun in the air and to this end proposes to qualify as an officer in the R. N. A. S.

In the departure of Lt. Corp. Graham the Hospital News loses a valuable member of its staff. He was not only the Treasurer, but looked after Advertisers, Sales, Collections, News Items, etc. In addition to this he occasionally found time to write some excellent articles on his own account.

That he will make good in his new vocation there is not the slightest doubt. Full of energy, a fine physique and a fearless disposition are qualifications that will rank him with the bravest and best.

His many friends will heartily join in wishing him every success in his dangerous but glorious calling.—From the "Canadian Hospital News," Ramsgate, England.

The above refers to Stuart Graham, son of Edson Graham, of this town. He was wounded at the front in March, 1916, and has since been in a Canadian hospital at Ramsgate, where he has had ample opportunity to watch the deviltry of the Hun air-men.

Baby's Own Tablets Prized by Mothers.

Mrs. Henry Vanreder, Rodney, Ont., writes: "I have used Baby's Own Tablets for the past five years and prize them very much. They have proved of such value to me that I always keep them in the house." Once a mother has used Baby's Own Tablets she would use nothing else. They are thorough but mild in action and never fail to make the sickly baby well. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The splendid skating rink at Kentville, one of the largest in the province, was totally destroyed by fire at an early hour Wednesday morning. The fire, which started in the centre of the building, on the lower floor and creeping to the roof, spread rapidly until the whole building was in flames. Mr. C. E. Walker, formerly of Digby, was operating it as a roller rink.

An Acadia Man

WRITES INTERESTINGLY OF LIFE AT THE FRONT.

France, Sept. 5th, 1917
(Continued from first page)

Apropos of that, let me say that conscription in Canada meets no divided opinion here. It demands only what is fair to us, to those who will by its working be preserved for work in Canada, and to Canada, the Empire and our allies. The division on the Bill gives both satisfaction and apprehension, for it is a division on lines other than political, but reveals racial groupings that we Canadians can only deplore and fear. There is truly a critical task to be performed at home to attain the unity and harmony which are essential along with the liberty and justice for which the soldier is fighting and dying here.

As I suggested already, we appreciate every remembrance from our friends by letter, papers, magazine or 'box.' I have shared in the good things from Wolfville and enjoy learning of what's doing on the hill and in the town. We know that you have given freely of your boys and men and are not regretting it. We know, too, your sorrow in the death of one and another who could be named, and as to the welfare of those who have been wounded or are still here accepting their uncertain fortunes. For you and for us the change from Vimy Ridge to Gaspereau will be made with gladness, touched with sorrow, and it cannot follow too closely the end of the fight. However, the graves of our friends on the battered Ridge, and in the fields behind and beyond it, are the graves of men who played the game and for Canada and Canadians a reputation for courage and worth that must remain as one of its most precious traditions, and will give consolation to those who have suffered much at home.

Just a word again from the Acadia viewpoint. As one of the class of '12, I am pleased at what its men have done. Our popular 'Farmer' Pince, was loved and was gaining successive promotions in officer's rank when he was killed. Our Rhodes' Scholar, Hart Reid, was wounded in the Artillery where he held commission. Others with stars are Donaldson, Andrews, Baker and Kinney. They are somewhere at duty, at home, in England, or here. I learned of the second last when I ran upon him here when reporting to a Company office. A certain sergeant, from S. P. C. L. I. is not unknown nor unappreciated while he enjoys the privilege of the personal and natural attractions of Wolfville and vicinity during the succeeding months of convalescence. Walter Bars, Collins and I increase the list. We may not complete it. We have seen Lt. W. A. Porter, of R'y Constr. Bn. Phil Beals, '09, was a delightful associate, but he has gone to get great scenes of loss. We cherish the spirit of Acadia men. We appreciate the President, whose services are limited by physical conditions. Any exceptions there may be do not deny the prevailing loyalty of the response of undergraduate and alumnus and Academy student. As for the delightful Co-ed, and alluring Sem. they could be counted on to rival the 'Life and Death' battalion of Russia, if such were necessary or permitted. At least they are to be credited for many an enlistment amongst the boys, and for no little comfort and diversion for their service.

Get Behind the Wheel of a Ford and Drive
TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.
If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.
Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness; while on country roads and hills its strength and power show to advantage.
Buy a Ford and you will want to be behind "the wheel" constantly.
