Shortening

If you have a sewing machine, a clothes wringer or a carpet sweeper (all new inventions of modern times), it's proof that you can see the usefulness of new things.

Is a wew shortening, and every

housekeeper who is interested in the health and comfort of her family should give it a trial. It's a vegetable product and far superior to anything else for shortening and frying purposes. Physicians and Cooking Experts say it is destined to be adopted in every kitchen in the land. This is to suggest that you put it in yours now. It's both new and good. Sold in 3 and 5 pound pails, by all grocers.

Dr. B. J. KENDALL COMPANY,

his party. And now the quid nuncs acy that a new light is breaking upon the situation. Agencies, which it is claimed are to bring about the amalgamation of the silver forces into a party which Senator Cameron is to head, are said to have commenced work. A close friend of Senator Jones of Nevasla authoritatively 15 stated to your correspondent that this apottate republican senator is a backer of the Cameron presidential boom. This statement, simple in itself, opens up a wide range of political probabilities when dissected. It is said that when Senator Jones takes his place at the head of the silver party, which he has just embraced in a dramatic avowal of allegiance, a position which it is asserted he will undoubtedly occupy by virtue of his long prominence in national affairs, his efforts, after looking to his own senatorial interests, will be devoted to an attempt to swing the silver party into line for Don Cameron. It is said by the silver men that, fine discrimination is to be made against what they are pleased to call the 'hoyseed populists' – a term which they explain as meaning those people who hold to the fantastic ideas of the subtraces the caster the 'hayseed populists,' for free treasury stamp. Of course they expect to catch the 'hayseed populists,' for free silver is a plank in the populist platform, the aim of the new silver men is to ract to their banner a class of voter o would not join a distinctively pulist movement but who will go in

or a change in the financial, system. This is the germ of the new Don Cameron presidential boom which the political circles are whispering about. Secretary Carlisle will hold, apropos of the much-mosted sugar bounty ques-tion, that under the law he is not only

secretary Carlisie will hold, apropose of the mean make much-mosted sugar bounty question, that under the law he is not only unauthorized to make payments for bounties on sugar already produced prior to Aug. 27, 1894, but that he is specifically instructed by the new tariff act not to pay them. Arguments in this connection on behalf of their constituents were filled by Senator Caffery of Louisian and Benator, Manderson of Nebraska. Secretary Carlisle believes that payments behavior in the became operative. While the became operative, while the became operative, while the lateral of the Treasury population of the producers. The plains for unpaid bounties on all kinds of sugar made prior to Aug. 27, 1894, amount, approximately, to \$260,000.

In the equation of philicies, sugar on the democratic side will be put down as an offset to free silver secession on the republican side. The revolt of the sugar planters from the democratic party is a striking parallel to the defection from the republican stack. The revolt of the sugar planters from the democratic party is a striking parallel to the defection from the republican stacks. The revolt of the sugar planters from the democratic party is a striking parallel to the defection from the republican stacks. The revolt of the sugar planters from the democratic party is a striking parallel to the defection from the republican stacks. The revolt of the sugar planters from the democratic party is a striking parallel to the defection from the republican stacks. The sugar of himself has greatly improved his ondition.

Some time ago it was reported that Creedon was a victim of muscular rhemanical loes from it will unselfishly greatly it for the group it means to other the fact of the producers.

Here Defendence is the value of the producers of the sugar planters from the democratic party is a sugar on the defendence of the sugar planters from the democratic party is a community which will suffer direct and great financial loss from it will unselfishly accept it for the good it means to others. To Louisiana sugar is as important as silver is to Nevada. And while Nevada seeks to advance its interests through an alliance with tire populists, the sugar planters of Louisiana contemplate a flopping act such as in years past would have been considered hardly less odious than treason. Tempora mutantur. For some ungiven reason Senator Peffet's son was dropped from the pay roll of the Senate the other day as assistant doorkeeper. The removal was not mide until the last fringe of his illustrous father's whiskers had departed from the

think so ourselves, for there are so many government boarders from all over the country here. But the United States the manager stipulated that I was to box Census Buteau, a d sinterested concern, shows in a builetin recently issued that which was to be 'try out' with any local on a comparative percentage basis of home owners Washington is entitled to be called the City of Homes. be called the City of Homes.

H: Tells Something of His Inner Life-

father's whiskers had departed from the Capital, and it is suspected that the political complexion of the family he disconnecting to do with the case. Until a short time ago Mr. Peffer had his family represented to the number of four on the pay rolls of the Senate. His daughter is his private secretary, one son was assistant doorkeeper, and another was a special messenger. Some lively was a special messenger. Some lively telegraphing between the Capital and points in cyclonic Kansas followed the recent removal, but the senatorial Peffer contingent still numbers only three.

It has sometimes been said of Washington by envious provincials that it is a boarding houses. We began to

"Though my task was not a severe one from a scientific point of view, the work was hard and monotonous and the perspiration attracted from my pores as I scampered from the stage into my cold, Sept. 14th, 1824.
