

REVIEW OF THE MARKETS

(Market letter furnished by Longhead & Taylor.)

Winnipeg.—Extremely narrow market. The foreign situation, however, showing more interest and direct cable advice to the effect that there is a good consumptive demand also that freights show a hardening tendency, suggesting a broader export trade in evidence.

Cash premiums maintained on this market and a good demand by the shipping branch of the trade for all grades.

Weather may show scattered rains over the western provinces, but crop conditions generally construed as very favorable. The strength in northwest markets, in our opinion, will help maintain present levels for winter wheat and while it is true we are daily getting nearer to the new crop movement, winter wheat territory, if such wheat is of good quality this year, and it is reasonable to expect that it is, then we look to see good premiums bid for the first run of new crop wheat over old crop values. Direct private advice from foreign markets to the effect that Russian stocks have been very much exaggerated, and that there is not the well advertised stock of wheat in Russia that the trade have been informed of.

Oats.—Oats dull at current values, moderate trade passing.

Flax.—Flax deliveries have been liberal and have passed into good hands. We are of the belief that we have seen the last of liquidation in flax for some time. Prices will be susceptible now to growing crop news.

Wheat.—Chicago—Cables showed rather surprising strength but the weather over the holidays and likewise the war news were a little too good and the bulls

were not very aggressive in foreign lead, following of Liverpool. The visible supply decreased only about 20,000 bushels for the week and an authoritative local expert, whose figures usually parallel the government's estimate, placed the total crop at 763,000,000 bushels, placing the winter at 492,000,000 and the spring at 271,000,000 bushels. Some new inquiry from abroad was reported, but the business done was very small.

Corn.—Corn has ruled firm. The favorable weather created some local bearish sentiment and some pressure was put on December delivery but the country offerings were light and a fairly good demand for corn for shipment continues. Altogether the local list seems to offer good trading opportunities without warranting a positive position.

New York.—The full effect of Carranza's favorable note was felt in the early afternoon when prices reached the highest levels of the day. Mexican Petroleum was up about five points and steel common above 87. There was no great buying power, however, appeared in the market and trading became dull, but prices held fairly well at the close except in a few issues like Butte and Superior, where there was considerable short selling. Aside from the Carranza note there was little news of immediate market reaction and they seemed to lack real incentive.

Germany tries to belittle the successes being scored by the allies, but the news from Paris telling of the sublime faith held there in the ultimate success of the present campaign gives the best indication of the situation.

Strength in the railroad stocks may be accounted for by shifting from war orders issues into the shares. If the Allies successes continue more of this readjustment is likely to take place.

FRUIT CONVENTION TO BE HELD JULY 20-21

Annual Midsummer Gathering of B.C. Growers Scheduled for Pentecost

Pentecost, B. C., June 30.—The annual midsummer convention of the British Columbia Fruit Growers' association and the British Columbia Entomological society will be held here on July 20 and 21 under the auspices of the Department of Agriculture of the provincial government. The sessions will be open to the public and everybody interested is invited to attend. The program as outlined includes addresses and papers by the following on the subjects given:

D. Jones, fruit commissioner, Ottawa.—The Marketing of Fruit.

Lionel E. Taylor, Kelowna, vice-president of the B. C. Entomological society.—Birds in Their Relation to Fruit Growing and Agriculture.

This address will be illustrated by lantern slides.

Dr. F. F. Westbrooke, president of the British Columbia University, Vancouver.—Agricultural Education in British Columbia.

R. M. Winslow, provincial horticulturist, Victoria, B. C.—Why Advertise B. C. Fruit?

R. C. Abbott, coast markets commissioner, Vancouver, B. C.—Opening the Coast Market for Okanagan Fruits and Vegetables.

R. C. Treherne, assistant Dominion Entomologist for British Columbia.—Important Insect Pests of Okanagan Fruits and Their Control.

J. W. Eastham, provincial plant pathologist, Vancouver, B. C.—The control of Plant Diseases in Irrigated Orchards, Vancouver, B. C.—Cut-worms and Their Control.

Other probable speakers who have not been definitely arranged for as yet include Hon. William Manson, Hon. E. Bark, Idaho, and Prof. W. S. Thornber.

Special rates will be given on all railroads and it is expected that a number of representatives of prairie fruit dealers will be present. The Calgary board of trade are endeavoring to have their long proposed excursion to British Columbia at this time. As the convention dates are only a few days before the convention of the Western Canada Irrigation association at Kamloops it is probable that a number of prairie visitors will come to the convention here, and then go on to the convention in Kamloops.

CAPT. J. RICHARDS, DIES IN BATTLE
Captain Joseph Richards, of Calgary, is reported to be killed in action. He was promoted from sergeant. He was formerly night chief in the C. P. R. telegraph office here.

He was born in Ireland, and leaves a widow who lives in Calgary.

Canada as soon as it is recruited up to full strength.

Teamsters, Carpenters, Trackmen, Pick and Shovel Men, and all others interested in railway construction had better join this popular battalion as all the officers will be railway construction engineers well known all over Canada.

Recruiting for Alberta has been placed in charge of Captain J. Duff, and recruiting commenced on Tuesday, July 4th, 1916.

Recruiting Headquarters, 702 Centre street, Calgary (Old Herald Building).

Fruits are cooling and thinning to the blood and serve as a gentle purgative as well. Fewer greets should be eaten because they are heating and the body requires less in the summer than in winter.

RED DEER FAIR A SUCCESS
Red Deer, July 7.—Over six thousand people attended the fair on Friday, which was a splendid success in all departments. The grand stand accommodation was only half of what was demanded. Exhibits of cattle were notably numerous, especially in Jerseys, Ayrshires and Herefords, which all produced the finest specimens of their class, and the judges were unable to finish judging by night. Heavy horses' classes were also well filled and judging was unfinished. Light horses showed up well; judges, W. F. Lowe.
