**FREEHOLD FARM FOR SALE.**  
THE Subscriber intending to leave the Island next Spring, offers for Sale, his very excellent Farm at Brackley Point, consisting of 60 acres. It is bounded on the West by the Brackley Point Road, on the North by James M'Callum, Esq.'s Farm, and fronts on the east. The whole Land is well fenced and in a high state of cultivation. There is a Farm Dwelling House, 28 x 18 in good tenable order, and another New House on the Road side, which has been usually Let to a Tradesman, at £5 per annum. A well furnished and commodious Barn, 75 x 30 ft. A Horse Stable 16 x 18, well fitted up. There is also upon the Premises a Saw Mill, which is supplied by a good stream of water, and which at a little expense might be converted into a Grist Mill; it would be a desirable situation for such an Establishment. For further information and particulars apply to  
PETER M'KINNON.  
Brackley Point, October 31, 1851.

**Blake's Metallic Fire Proof Paint, OR, ARTIFICIAL SLATE.**  
THIS admirable article has been tested for years and proved very valuable, becoming a perfect slate, as hard as marble from the action of the weather and fire—a better fire-proof than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with these metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron or stone coating as hard as the true itself, and never chafes off.  
BEWARE OF WORTHLESS COUNTERFEITS.  
As the popularity of my paint has induced those of unprincipled men to attempt to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone.  
The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island.
