## PREMIER ANNOUNCES POLICY OF NEW GOVERNMENT

## A Full Statement of Plans for Solving the Problems now Facing the Country

Ottawa, Oct. 19—After consultation with his colleagues, the Prime Minister has issued the following statement with regard to the formation and personal of the new government, and with respect to its policy, so far as there has been opportunity to consider it.

## Labor Will be Represented

The present Union or National government has been formed with a desire to give representation to all elements of the population who support the purpose and effort of Canada in

tation facilities; the co-operative management of the various railway systems so as to secure economy in operation, to avoid unnecessary construction, and to secure the widest and most effective use of existing railway facilities; the encouragement and development of the shipbuilding industry and the establishment of steamship lines upon both oceans and upon the Great Lakes, co-operation with the various Provincial Governments for the improvement of highways; the investigation of the postal facilities of air service for important national purposes.

## Economy

(8)—The reduction of public expenditure, the avoidance of waste, and the encouragement of thrift.

## To Reduce Cost of Living

(9)—Effective measures to prevent excessive profits, to prohibit hoarding, and to prevent combinations for the increase of prices and thus reduce the cost of living.

(10)—The encouragement of co-operation among those engaged in agricultural production, with a view to diminishing the cost of production and marketing, so that the price paid to the producer may conform more closely to that paid by the consumer.

## Develop Our Resources

(11)—The general development of all the varied resources of Canada and their conservation and utilization to the best advantage of the people, with the co-operation and assistance of the state in every responsible way for that purpose.

## For Industrial Peace

(12)—Adequate consideration of the needs of the industrial population; the maintenance of good relations between employers and employees and such conditions of employment as will assure suitable standards of living among the laboring classes.

## To Develop the National Spirit

The policy of the Government will also aim at a truer understanding and comprehension between the various communities, both east and west, and the development of a national spirit of united effort among our people, as the trustees of a great heritage.

## Methods Proposed

For the purpose of effectively carrying out these policies the following methods have been determined.

(1)—A new portfolio, that of Immigration and Colonization, has been established.

(2)—For the effective prosecution of the war, a permanent Committee of the Cabinet will be established.

(3)—For the purpose of considering and carrying out the other lines of policy above mentioned, another permanent Committee of the Cabinet will also be constituted.

The Orders in Council establishing these committees have been prepared and as soon as they have been accepted by His Excellency, the Governor General, they will be given to the press for publication. The personnel of each committee will be announced at the same time.

## THINK

Before you ask a merchant to make a delivery, send goods on approval or incur other expense, is it necessary?

Delivery service is expensive, and ultimately you must pay for it. If the service is not necessary you are not only wasting your own money, but the resources of Canada as well.

Canada is in urgent need of economy. Carry your parcel home. There is an old engraving hanging in many homes depicting a young and ragged urchin stepping up to a lady and asking if he may carry her parcel. Times have changed. To-day that same little chap might have difficulty finding a parcel to carry; and why?

Because fashion has decreed that we may carry almost anything but a parcel. The result has been heavy delivery expense, which must be paid by the consumer, together with the same percentage of profit as is carried by the goods themselves. Because it does not show separately in the bill, it is not recognized as an additional cost. To a large extent merchants are to blame for this. If they were to adopt the 'cash and carry' system, giving a price advantage to those who paid cash and carried their parcels, requests for delivery would soon show a decrease.—J. D. in Conservation.

Friends of Sheriff John O'Brien were shocked to learn of his death following an automobile accident near his home recently. Deceased was well and favourably known here as elsewhere. Much sympathy is felt for the bereaved relatives.

Quite a number of the men from this vicinity have gone to Clearwater with Fred MacLaggan for the winter. Men seem very scarce.

## NEW CHAMPION RANGE A GREAT BAKER

**Fawcett**

Ranges are wonderful bakers because the oven is always just right. The heat is evenly distributed at all times around all sides of the oven, and a steady temperature results.

An oven thermometer tells you the temperature of the oven instantly, and the perfect regulation of heat enables you to have any temperature you want at any time.

Fawcett Ranges are the handsomest, most economical, durable, and satisfactory, as well as the best bakers.

Send for our booklet explaining why. It contains facts about ranges that you, as a housekeeper, ought to know.
