

POOR DOCUMENT

LOCAL NEWS.

THE DAVEN WESTON.—Landed about eighty passengers at the wharf Friday.

RIVER.—The water in the river is lower than it has yet been this summer.

DIPHTHERIA.—There are one or two cases of diphtheria, of a light type, in Woodstock.

TRAVEL.—The N. B. Railway on Saturday took a great many passengers from the city.

\$300 REWARD.—A large sum is offered for the apprehension of the persons who fired at the Police Magistrate.

PORTLAND FREE LIBRARY.—The Sun allows its correspondents to swear at the Portland Free Library.

PICNIC.—The Catholic congregation of Johnville will have their annual picnic at Bath on Tuesday the 22nd inst.

DOG TAX.—The time for paying dog tax has expired, so that all who have not paid action will be taken against immediately.

LEAVING FOR HOME.—A large number of the Normal School students left for home Saturday morning by the "David Weston."

SALE OF PROPERTY.—Isaac R. Long sold his cottage on George Street, in this city Thursday, to Charles E. Smith, for \$1800, cash.

RAIL FOR THE BOGS.—Up-river snakes have taken to eating potato bugs. Now if some one will eat the snakes, everything will be lovely.

SALE OF PRINTING STOCK.—Thomas Miller has sold to J. H. Crockett the plant which he used as a job-printing office in the Herald Building.

THE SHERIFFS.—All the old sheriffs have been appointed, except Sheriff Howe of Queens County, who gives place to W. S. Butler, ex M. P.

STILL THEY COME.—A protest was filed on Saturday against Kennedy F. Burns, M. P., for Gloucester. It seeks to disqualify as well as unseat Mr. Burns.

HEAT.—Friday was the hottest day we have had so far this summer, at 12 o'clock noon the thermometer was 90° in the shade; at 3 o'clock P. M. it was 95°.

POLICE NEWS.—The affair of Julius Inches for placing obstruction on the sidewalk was called on Saturday but was postponed until Wednesday owing to Mr. Wetmore, the council for the defendant, being absent.

THE CITY OF ST. JOHN.—This steamer which is owned by Hon. Mr. Burpee and Mr. J. Lunt is now undergoing repairs preparatory to being placed on the river routes between St. John and Fredericton.

THE MARETT.—Friday was another day that the market was minus county provision. The stores, however, are abundant in produce, except eggs, of which there is a scarcity. A few pairs of raspberries and blueberries were offered for sale on the streets.

NOTICE TO CONTRACTORS.—Tenders will be received until Friday, the 25th of August for the erection of a post office, etc., at Woodstock. Plans and specifications can be seen at the Department of Public Works, Ottawa, and at the Post Office, Woodstock.

ENTERPRISE.—James McAvity, of St. John, N. B., and other districts of Lincoln, proposes organizing a corporation to manufacture pulp and paper on the water power at Lincoln Village, Sunbury Co., N. B., with a capital stock of \$75,000.—Halifax Chronicle.

A DESERVED COMPLIMENT.—The Police Magistrate has pursued a course which does him credit; Sergeant Vandine and the other policemen have been shrewd, faithful, uncompromising and brave, and were therefore very obnoxious to the law-breakers.—Exchange.

EXPLORATORY SURVEY.—Mr. W. T. Whitehead, left the city on Saturday for the head of the St. John river, in company with Mr. R. Bellamy, to make an exploratory survey of the vacant Crown Lands in Quebec, on the north-west branch of the St. John. He will be absent four weeks.

POLICE NEWS.—Friday was the day fixed for the preliminary examination of the Lees, but as Sergeant Vandine was unable to attend, they were remanded until Friday, the 17th inst. If, however, Vandine's condition will permit him to attend, the examination will be brought on before Friday.

FUNERAL.—The funeral of Beverly R. Jonett took place Saturday afternoon from his late residence. His remains were taken to the Cathedral and afterwards to the Old Burial Ground. Chief Justice Allen, A. F. Randolph, J. H. Phair, Andrew Inches, A. H. F. Stratton and R. Estey were pall bearers.

OBITUARY.—We regret to chronicle the death of Beverly R. Jonett, Gentleman Usher of the Black Rock which occurred at his residence, near this city, Friday.

WE are also pained to hear of the death of Mr. James M. Fowler's infant son. This is the second child which Mr. and Mrs. Fowler has lost within a few weeks. Although yet a very young couple, they have lost all their children.

YACHTING PARTY.—Dr. Torrens, F. I. Morrison, Fred B. Edgecombe, Jas. F. McMurray, Geo. Burkhart, Chas. Clarke, Wm. Adams, of this city, and Dr. Mulligan, of Boston, have just returned from a few days holiday. They intend going to St. John where they will procure a yacht, and thence down the bay.

At Eastport the party will be joined by W. B. Conthard, of the Peoples Bank, and Jas. Hawthorne. They expect to return home about the 25th.

GONZO WEST.—We learn on good authority that by the last of October next all the Beveridge family will have removed from Andover to the west. Mr. Charles Beveridge who went to Appleton, Wisconsin, some ten years ago, has amassed a competency in the spot and had business. We are told that Mr. W. Beveridge will invest in a knitting factory in Wisconsin.

ARMY WORK.—The Army Work is committing extensive ravages in Sunbury County. The Lieutenant Governor will lose all the hay on Tatch Island, which usually cuts over a hundred tons, other losses are reported. If any one cares to see the pest at work, he can do so by visiting Rice's intervals on the Nashvauk a little distance from the mouth of the stream.

OLD CRIMINALS.—The Bardor Waig says:—The two Lees, Newton and George, who are now in captivity, are well known in this section. These two fellows were associated with Thomas Jordan, of Oldtown, in the bold burglary at the residence of Mrs. Lucy A. Jenkins at Alton. City Marshal Read and Constable Spofford, of Oldtown, pursued these two desperadoes for some days and followed them till they crossed the boundary into New Brunswick.

RAILWAY MATTERS.—It is reported that the result of the negotiations which have lately been conducted between the Railway Companies will be that the Maine Central will become owner of European & North American Railway, and the New Brunswick Railway will enter into possession of the New Brunswick & Canada road. No conclusion has yet been reached; but we have good reason for thinking that the above arrangement will be carried into effect.

The Acton, Ont., Free Press mentions it as a singular fact that every case for violation of the Scott Act in the county, which has come before the Courts, has been against men who were engaged in the hotel business long before the Act came into force, but not against the proprietors of low shebeen shops, "which would spring up in every part of the county when the Act became law," as King Doda endeavored to lead the people to believe, during his gushing lectures in the Scott Act campaign.

THE OFFICERS SQUARE.—At last the matter of fixing up the Officers Square has been brought before the City Council, and they have ordered it to be attended to. It is strange this matter has not been attended to before this but if properly done now the citizens should feel satisfied.

The cleaning up of the Square began yesterday, and the Square will in a few days furnish sitting accommodations. Other improvements which do not doubt follow immediately and our Square will present a respectable appearance.

THE MASCOT.—Bennett & Moulton's troupe delivered Mascot Thursday night. This company have learned the right to a warm reception in this city on future visits. Their performance was very excellent, being mirth provoking, without the least vulgarity. An evening spent with them leaves nothing but agreeable recollections. The performers are all very clever and several of them particularly so.

For a good evening's fun command us to Bennett & Moulton's Comic Opera.

PERSONAL.—We notice that Mr. C. E. Gregory is likely to enter the political arena in Nova Scotia as a candidate, in Antigonish County for the local Legislature.

His Lordship the Metropolitan has returned home.

Mr. Crafts, Civil Engineer of Boston, returned Friday to make specifications for laying down the water pipes and other arrangements about the Water Works.

Mr. Blair of the Maritime Bank has returned to St. John. Mr. Murray will fill his position permanently as manager of the Bank in this city.

FOR THE NORTH WEST.—Somebody proposes a free press excursion to the North-West. The idea is an admirable one, and would be better if the passes entitled the holder to all he wanted to eat along the road and a thousand or two acres of prairie land.

If the inaugurator of the excursion will send a dozen or two passes of this nature to the Herald office we will endeavor to spare some of our staff to go upon the trip, and if none of us can go, we think it would not require a super-human effort to coax some one to represent us, who is not one of the regulars.

BOAT RACE.—Wallace Ross seems bound to bring matters to a point in regard to a race between himself and Hanlan. The following challenge appears in Saturday's Telegraph.

St. John, Aug. 4th, 1882. I hereby challenge Edward Hanlan to row me a five mile race, two and a half miles return, for one thousand dollars a side and the championship of the world, the race to be rowed within six weeks from the date of signing articles, and this challenge to remain open for three weeks from the 5th August. If not accepted in that time I will claim the championship of the world, and be prepared to defend it against all comers.

WALLACE ROSS.

THE CARLETON TRAGEDY.—The inquest on the body of James Campbell was concluded on Thursday afternoon. Owing to the many witnesses to be examined the inquest has continued for several days. The evidence brought out was sufficiently conclusive for the jury to bring in the following verdict.

That on Saturday, the 29th day of July, 1882, James Campbell, of Carleton, St. John, received a blow on the left side of the head and head from the effects of which he died on the following Sunday morning, and the jury say James McCaslin, John Power, John Best, John Pratt, Samuel White and Geo. Godsoe, did feloniously and unlawfully kill the said James Campbell.

The prisoners were committed to await trial.

THE ANTONISHINGLY.—Short time it takes ZOPESA to act upon the Digestive organs and the Liver, proves its wonderful efficacy to the stomach. The first dose relieves. A sample bottle convinces. A large bottle cures.

DAISIES.—Now-a-days not to use "Tea-Berry," the new exquisite for the Teeth and Breath, argues not to be Recherche; take a look at it at your drug store. 5 cent samples.

PROVINCIAL NORMAL SCHOOL.—The second nine months' session of the Normal School closed Friday morning. While the length of the term may have a weariness about it, and may prohibit some from attending, there can be no doubt but those who spend a nine months' course here go out much better prepared to impart knowledge than they who spend half that time at the Normal School. At this examination there were about 100 tried for licenses. Of these there were twelve who tried for Grammar School license, seventeen for 1st class license, for 2nd class and for third class. Many of the Students left yesterday; the rest will probably leave to-day.

CITY FUNDS.—To the Editor of the Herald: DEAR SIR,—It is rumored in this city, that a culvert above the Government Post was recently repaired at a cost of \$133 or thereabouts, the work being done under the supervision of our Alderman McPherson. It is also rumored that the City Treasurer advanced the said amount of \$133 without any order of Council, and it is further rumored that the road master says the job is not worth \$40. It is also rumored that Alderman Burchill ordered McPherson to have the work done without consulting the road master. Some one should rise and explain this job. Yours, &c., CRITIC. Aug. 3, 1882.

A REMEDY FOR DYSPEPSIA.—There is a great deal of dyspepsia prevalent in Fredericton just at the present time, and young and old alike seem to be suffering from it. A great many deaths have occurred and there are very many other cases in which children have been greatly weakened. The following simple story will be found efficacious in the early stages of the disease, and the writer's experience leads him to think it not injurious. Make a strong solution of common baking soda and give in doses from a teaspoonful to a third of a teaspoonful according to age. It has proved very useful to the writer's own knowledge in very many cases. It sometimes causes vomiting, but this is not an unfavorable sign.

SEVERAL ACCIDENT.—On Friday night a young son of Mr. Bebbington of this city met with a serious accident. A load of wood was being hauled in a yard near Mr. Bebbington's residence on which a lot of young lads were hanging. As the sloven crossed the gutter, young Bebbington who was hanging on behind got his leg under the sloven and had it broken short off, the break being just above the knee. Dr. Coulthard was immediately summoned and set it. It appears to be a practice of young fellows to jump on any team that may be passing, doing so at the risk of being hurt. When such occurs the parents of such would no doubt thank any driver who would even use the whip in keeping them off.

A GOOD IDEA.—The Woodstock Press says arrangements have been made for an excursion by Mr. St. Andrews next Saturday evening, and return on Monday morning. A trip to the seaside at this season of the year can be made one of great pleasure and benefit. St. Andrews presents many very attractive spots to the tourist or pleasure seeker, while its cool, invigorating sea breezes would have a tendency to impart new vigor to those who will avail themselves of this opportunity to inhale it at a very early hour of time and money.

If something of the kind were got up here it would be pretty well patronized, at any rate it would cost nothing to try it. Let our railway people give to the public road trip on any team that may be passing, doing so at the risk of being hurt.

THEFT OF A WATCH.—Thursday a young lad named Harris, son of Aaron Harris of Gibson, went to the Rev. Mr. Brewer's with some berries to sell, and being left alone for a few minutes stole a silver watch. The servant girl having missed the watch, Mr. Brewer went in pursuit of the lad and overtook him. After some persuasion and threats the lad confessed to have taken the watch, and said he had given it to his sister who was in his company. The latter who is about twenty years of age, gave up the watch on request, saying that her brother said it had been given to him and he was to bring berries for it. The lad is not more than twelve years of age. Owing to the fact that there is no place in the Province for the care of such young offenders, Mr. Brewer does not deem it advisable to prosecute.

WATERING CART.—It is not surprising that the watering cart was not seen on the street Friday and Saturday morning, but when Saturday afternoon came and it began to look like a shower, the cart ought, according to the plan, to have been seen. The cart on Queen Street is something nearly as bad as the best, but what with suffering from the heat and breathing dust, it is almost unendurable. Our watering cart is without doubt a post-figuration; but as bad as it is the effect of its being around is fair, and if but one street can be kept watered let that one be kept so. The merchants at their own expense have purchased this cart, but still find it necessary to keep their doors closed to protect their goods. If the city horses see on the roller, it is much better to have a rough road and have the watering cart in use.

THE HALIFAX REGATTA.—The following programme of races has been adopted by the Halifax Regatta Committee.

Race for championship of Halifax Harbor. Double scull race, best and best boats. Single scull race, best and best boats. Gigs of four oars, best and best boats. Gigs of four oars, outriggers. Double scull wherries, six oars. Fishing wherries, two pair paddles. Fishing wherries, four oars. Ship jolly boats, four oars. Man-of-war gigs. Man-of-war cutters. Man-of-war pinnacles. Gigs pulled by soldiers of the garrison. Canoes pulled by Indians. Canoes pulled by squaws. Rob Roy canoes. Consolation race for oarsmen not winning prize in single sculls. Fishing sail boats. Sailing whalers.

WEDDING BELLS.—The gay display of hunting on North Wharf and on Duke Street, yesterday, over the warehouses of Messrs. A. F. Tippet & Co., led to a natural inference. Mr. Tippet was married yesterday morning at Trinity church, Sussex, to Miss Blanche Label, youngest daughter of Rev. Richard Simonds. The floral decorations of the church were chaste and beautiful, and there was a large gathering of the friends of both parties, including Lady Tepper and Mrs. Fullerton, of Amherst, relatives of the bride. Rev. Mr. Simonds, assisted by Rev. Canon Medley, rector of Sussex, performed the ceremony. The bride, who looked beautiful, was attended by Miss Nellie Simonds, her sister, as bridesmaid, and Mr. Tippet was supported by his brother, Mr. W. H. Tippet, of Fredericton. Happy is the bride the sun shines on, and yesterday was a most delightful day for such a ceremony. Mr. and Mrs. Tippet left yesterday afternoon for a sojourn at Old Orchard Beach, and a visit to the White Mountain.—Globe.

A HABES CORPUS.—Friday Mr. Gregory and Mr. Neale made application for an order in the nature of habes corpus, for the discharge of John Hamilton from the custody of the gaoler of Queens County, Hamilton was convicted of violation of the Canada Temperance Act. The conviction was irregular in many particulars, and the warrant of commitment did not appear to be for any offence whatever. Mr. Lugin, who opposed the application, admitted that the commitment could not be sustained as it stood, but asked Judge Welton, before whom the matter was heard, to allow him time to bring the proceedings up, so that the matter might be decided upon the merits, and the warrant and conviction amended as the Act provides. The learned Judge stated that in his opinion the Legislature could not have intended to give him power to amend, which was a very dangerous power, and might be extended too far altogether. He had made up his mind never to amend proceedings sent up by magistrates. He expressed his astonishment that Mr. Wetmore, who is a barrister, should have made so many extraordinary errors.

The provision of the Act which the learned Judge considers not to have been intended as conferring any power upon him is as follows:—

"And such Court or Judge may, in any case, amend the same if necessary."

The New Pavement.—The kind of finish that is to be used on our new Side Walks is yet undecided. The Mayor of Halifax has been on a visit to the city in this connection. His Worship is the agent for the Brokenhire Pavement, a kind which he says gives the utmost satisfaction to every city that has used it. He is desirous of selling the right to use it and then the city can put it down itself.

The Brokenhire pavement is put down in two days; the first crusting of a mixture of gravel and lime, and after this has been laid a mixture of fine sand and tar is put on. As the tar exudes with the heat a little more sand is put on and rolled again.

The asphalt consists of a composition of tar and pitch which is boiled and spread on. There are many ways of laying down the finish of the sidewalks, and while the Road Committee are communicating with persons respecting these, no definite action will be taken in the matter. With regard to the block that they are working on they propose to finish it after a manner of their own. The Mayor of Halifax at his own expense wishes to take one of the Committee to Halifax. The offer will probably be accepted. On examining the work that has been done he said that it is superior to any that he has seen. He left for home Thursday.

St. Mary's.—A look around St. Mary's shows that the effect of the fire on the village was but temporary. All the businesses that were interfered with by the fire were repaired immediately, so that the only loss was the buildings. Mr. Vanwart erected a temporary building, where he placed his stock, and has since carried on his business. He is now erecting a wooden building on the same ground that the old one stood on.

Mr. McParlane's loss was the heaviest, and although at the time it was thought that the fire would seriously injure his business, it did not effect it very much. He has carried on the work ever since, doing part at Douglas and part at St. Mary's. He has done a larger business this year than any former year. He has also started to rebuild. The new factory will be built of brick, the building being fire proof. The machinery that was put in it will be the best obtainable. Recently he visited Boston, where he has ordered it. When the building is completed his facilities for doing good work and a large amount of it will be first class. On the corner where the St. Mary's Drug Store stood, Mr. Estabrooks is putting up a two-story building, the upper story to be used as a dwelling house, the lower for a drug store, and there will also be room for another store.

On the spot where the building known as the "Bee Hive" stood Mr. Gillespie is putting up a dwelling house, and immediately behind this Mr. Wm. Burk is building a dwelling house. In addition to these there are three more houses being put up by Messrs. John Leslie, Reid, Blair and John Gallagher respectively. The first of these is on the burnt part. The other two are being put up in another part of the village. With all these buildings being built the place presents a lively appearance.

A BEAUTIFUL HEAD OF HAIR.—There is nothing more pleasing in the external appearance of woman or man than a beautiful head of hair, and it is possible for every person to possess it by using the long and well known Clingless Hair Restorer. Sold at 50 cents a bottle.

NEVER forget that at your Druggist's you can always obtain Dr. Van Buren's Kidney Cure. It is the only known remedy that speedily relieves all cases of the Kidneys, and if persisted in will effect a permanent cure.

BE ADVISED in time, and do not allow what may appear to you as a simple back-ache to run into a disease of the Kidneys, which invariably proves fatal in the end. Dr. Van Buren's Kidney Cure will at once ease your pain and positively prevent these unfortunate results. Take it at once. Any Druggist will have it.

The Baptist Seminary.

The Visitor, and one of its correspondents, are very much exercised over the injunction obtained by Mr. Phillips to prevent the application of the funds of the Baptist Education Society to other purposes than those contemplated by the subscribers to the fund. They seem to have a certain feeling of holy horror aroused over the fact that the first institution they had of it was through "secular" papers. It happened to be the business of "secular" papers to publish the news, and our good friends ought not to be more shocked at the information coming through such an unwholesome source, than they would be at seeing the advertisement of a Sunday-school festival in one of those unwholesome sheets. The correspondent of the Visitor is frightened lest the seven or eight thousand dollars should be gobbled up by "hungry lawyers," for that it says "must be the unavoidable result of a protracted suit in Equity." Common prudence would seem therefore to suggest, in view of this awful result, that a protracted suit should be avoided. An equity suit may be "harmless," as to the purpose for which the fund was originally subscribed, and all parties concerned will consent to a decree being made to hold the money for such a purpose probably to quote the correspondent, "sumans will be provided to extricate that fund, which has been committed to us as a sacred trust, from the rapacious grip of the law, and from the danger of total extinction." The Visitor editorially presumes that Mr. Phillips has been indulging "in a harmless bit of pleasantry." If our religious friend does not know any more about Gospel than he does about law and equity, he is not a much better guide than his secular contemporary. An equity suit may be "harmless," but it can hardly be called a pleasantry. It is difficult generally to see where the laugh comes in. To be serious, the Visitor says that a conclusion has not been reached to open the Seminary somewhere else than in Fredericton. It goes on to say, "Fredericton may be just the very best place by reason of inducements to re-open the school, and if so all ought to be glad to acquiesce in the selection, and so of any other place." The Visitor here, to use a "secular" expression, rather gives itself away. The fact that it considers that Fredericton may be the best place, when the constitution of the Society provides that the institution shall be in Fredericton, shows that it is contemplated to open it somewhere else than in Fredericton, and that at any time steps may be taken in that direction, which is the very thing which Mr. Phillips seeks to prevent by his injunction. The Visitor says, in effect, "New Brunswick wants a Seminary, and Fredericton may or may not be the best place for it." Mr. Phillips says "the funds were subscribed to build a Seminary in Fredericton, and should not be used to build one elsewhere." In both law and equity Mr. Phillips would seem to be right.

CRICKET MATCH.—The finishing of the cricket match between the Liberals and Conservatives came off Thursday afternoon. The play was not up to the average but this no doubt was due in part to the excessive heat. The following is the score:

Table with 3 columns: Player Name, Runs, Wickets. Includes names like Hazon, B. W. B. Allen, etc.

CONSERVATIVES.—Hazon, B. W. B. Allen, 0; Wetmore, R. B. Kelly, 0; Hawthorne, B. E. Allen, 8; Sharkey, B. Kelly, 0; Richards, J. B. W. Allen, 23; McNeill, B. Allen, 7; Winslow, B. Allen, 0; McDougal, B. Allen, 0; Barker, B. Allen, 0; Bontellier, 0.

Table with 3 columns: Player Name, Runs, Wickets. Includes names like Hazon, B. W. B. Allen, etc.

LIBERALS.—Hazon, B. W. B. Allen, 2; Atherton, run out, 2; Allen, B. E. Richards, 0; McLoughlin, run out, 5; Penwick, C. Sharkey, 0; Richards, J. B. W. Allen, 0; Grieser, J. B. Allen, 0; Hodge, B. Rutter, 0; Calder, W. B. Rutter, 4; De Witt, G. B. Rutter, 1.

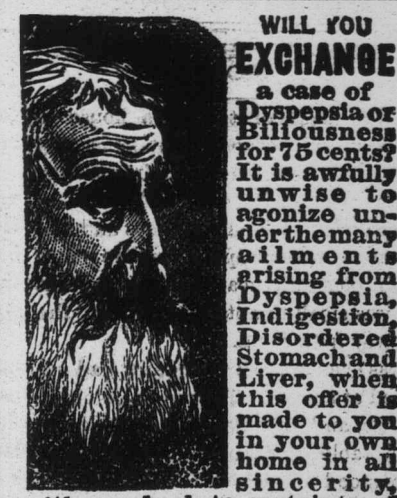

The first inning was, Liberals 69, Conservatives 27, which makes a total of 122 for Liberals, and 87 for the Conservative.

THE PORTRAITS IN THE HOUSE OF ASSEMBLY.—The following extract from the Journals of 1821 and 1822, of the House of Assembly which appears in a letter of J. W. Lawrence, President of the N. B. Historical Society, in the St. John, Globe of the 4th, will throw some light on the portraits in the House of Assembly of which mention was made in the Herald a few days ago. From these it appears that the cost of freight in bringing the portraits from England was the only expense of which the province, was placed. The Royal Arms, which appear in this House of Assembly were brought about the same time.

Journals, 1821: "To His Excellency the Lieut. Governor or Commander-in-Chief, the sum of one hundred pounds sterling, towards procuring the full-sized portraits of His late Majesty, King George the Third, pursuant to the resolution of the House of Assembly of the first of February."

In the Journals of the House, 1822, is the following:—Monday, 11th February. "The Lieut. Governor is much gratified to have it in his power to present to the House of Assembly full-length portraits of their late Majesty, King George the Third and Queen Charlotte, feeling assured, from the loyal principles which govern the vote of the last session for providing the expense of such a portrait will be acceptable to the House."

At the same Session: "To Thos. Bonner, Esquire, such a sum as will procure a bill of exchange on England for twenty-one pounds, eight shillings, to defray the expense of freight and other incidental charges, incurred in the shipment of the full-length portraits of their late Majesties from England to the city of St. John."

WILL YOU EXCHANGE a case of ZOPESA or Biliousness for 75 cents? It is awfully unwise to agonize in dertheman's ailments arising from Dyspepsia, Indigestion, Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you. ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves a sample bottle convinces; a 75 cent bottle cures. It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating ZOPESA gives energy and vim to the Brain, Nerve, and Muscles, simply by working wonders upon the Digestion, and giving activity to the Liver. Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of ZOPESA, and try it on your neighbor now 50 cents. It is warranted to cure Dyspepsia and Biliousness.

Weather Report.

Table with 3 columns: Date, Temperature, Wind. Includes dates from 1882-07-01 to 1882-07-25.

The number of hours of sunshine was two hundred and sixty-four. The number of days without sunshine was four.

VENUS'S HORROR DAY.—The wicked generation which does not believe in Venus, arose from its bed on Saturday morning with the belief implanted in their stubborn and rebellious hearts that they had "got the blues" at last upon the (improbable) weather prophet, and that his hottest day of the season was a delusion and a snare. They had already begun to hunt out a place for him in the list of false prophets, and were only in doubt whether he should be classed A1 for seven years like Al Mehdid, or put in the lowest grade along with the St. John Sun, George Francis Frair and O'Dynamite Rossa. But "a prophet is not without honor," and in this case Venus held all four honors and a full fall of the best trump besides. He was betting on a sure thing. It is true the breeze was in favor of the inland; but the prophet had the mercury on his side, and as the zephyrus gave feather the silver columns mounted higher until at more than one point in the Celestial City it reached 95°. Then the wicked were convinced and the prophet was more Venorated than ever. It was a painful sight to promenade Queen street and see shirt collars which, at breakfast time raised their tall peaks towards the stars, hang limp and lifeless on prestripping necks; to see men whose business required them to move with speed gradually dissolving from sight, like the local Government's majority. Men who at the City Hall were round and hearty, by the time they reached the Queen Hotel were diminished to the circumference of a telegraph pole; while Ald. Burchill's new pavement, if it had been laid, would have been slippery with humanity liquified. Nobody was out who could stay in, until near midnight, when the young ladies came out in force and looking so cool and delicious after their sojourn all day in their darkened rooms, that the cases of sunstroke were innumerable.

The watering cart was conspicuous by its absence, and the dust lay from one to three inches deep upon the streets. It was a hot day, and a dusty one.

One Sunday morning after service the minister expressed the great satisfaction it gave him to see in his pew a member of the congregation who had not made his appearance at church for several months and was commonly supposed to have gone the way of the world, the flesh and the devil. The neighbour to whom this gratification was communicated simply replied: "You seem to forget that his wife is in the midst of her house-cleaning."
