OFFICIAL.

LONDON, Nov. 18.
The Governor, Newfoundland.
The Prime Minister, Grey, Balfour,
and Lloyd George are attending a
War Council in Paris.

The officer commanding in the Dardanelles reports a successful attack on Turkish trenches on the 15th. Nearly three hundred yards of trenches, near Krithia Nullah, have been captured, and the position consolidated. Our casualties are under fifty.

In Serbia, Monastir and Mitrovitzka are threatened by the enemy. Nothing special on other fronts.

BONAR LAW.

RESUMED THE OFFENSIVE.

LONDON, Nov. 18.
The British army in the Dardanelles has resumed the offensive and captured 280 yards of Turkish trenches. It is officially announced that the 52nd division successfully attacked the Turks at Krithia Nullah, near the tip of the Peninsula and captured 160 yards of trenches east of the debris, and 120 yards to the west.

EXECUTION OF HINDUS.

WASHINGTON, Nov. 18.
Mail advices reaching Washington to-day from India told of the execution of twenty-four Hindus and the sentence of twenty-seven others to the gallows for life by the governmental commission at Lahore. Activities against the British Government among certain elements of the Indian population were described as more extensive than had been officially admitted. According to reports from Lahore the affair was only one of several others that have been recently brought to issue in India with similar results, all the prosecutions being based on charges of anarchy, mutiny, and insubordination. The native press, while speaking of the loyalty with which India responded to the call by the British Government upon the natives military service, also referred in terms of condemnation to the activities of disaffected elements in the population, which in some quarters are ascribed to German machinations. The general tendency is to credit the munitions agitation to the work of a band of conspirators, alleged to have been located on the Pacific slope of America for several years, and actively engaged in a secret propaganda. Those conspirators are declared to have despatched emissaries to India, who have been stirring up antagonism to British rule there. The most disquieting feature of the situation, according to reports, is the uncertainty of the extent to

"Still Getting Worse."

"No one can measure your 'Nerve Force' as it leaves you."
"Prescription A" will increase your "Nerve Force" wonderful.
Nerve Force is the very motive power of the body as petrol is of the engine.
If you are using up too much Nerve Force through overwork, worry or other causes—you are like a motor car with a leaky petrol tank, however good the mechanism it must break sooner or later.

Now Prescription "A" not only restores lost Nerve Force but actually increases it to a remarkable degree. Try it. You will really be astonished at the result.

which native troops have been tampered with. In Punjab and in Bengal between the middle of June and the middle of September, 17 Indian cavalrymen have been sentenced to death for mutiny, making bombs and cutting telegraph wires. Seventy-one others were convicted of other offenses.

QUESTION OF WITHDRAWAL.

LONDON, Nov. 18.
Baron Ribblesdale said in the Lords to-day, when addressing a question to Lord Lansdowne that he understood Lieutenant General Monro, Commander of the British expedition at the Dardanelles had reported in favor of withdrawal of the British army at the Dardanelles. Marquis Lansdowne announced that the Government had asked Earl Kitchener to visit the eastern Mediterranean, because, in its opinion, the report of Sir Charles Monro and the evidence accompanying it did not seem sufficient to enable the Government to come to a conclusion upon the great question of policy involved. Speaking of the visit of the British cabinet members to Paris, Lord Lansdowne said that it was the most important step yet taken in connection with the scheme of closer working contact between the Entente Allies. There had been other coming and goings, but they were not to be compared in importance with the present visit. Lord Lansdowne added that the independence of Serbia was one of the most essential objects the Allies had in view in the near east, which already had become a very important theatre of war. This was not the time to talk of peace. They had entered upon a great struggle; and intended to carry it to a successful issue.

THIRTY PER CENT. INSTALLMENT.

NEW YORK, Nov. 18.
The Anglo-French Financial Commission which negotiated the five hundred million credit with Banks, Trust Companies and Bankers in this country has made a call for a 30 p.c. installment of \$150,000,000, which is to be deposited to the order of the Commission with the National City Bank on or before Nov. 29.

SITUATION IN GREECE.

LONDON, Nov. 18.
The situation in Greece, said Lord Lansdowne is extremely perplexing, and he might add disquieting. This was a reply to a request for information as to progress of negotiations.

WAR CASE IN COURT.

LONDON, Nov. 18.
A case having to do with alleged illegal traffic in war material, involving the name of the Duke of Manchester, was heard at Bow Street Court to-day. Victor Sly was the defendant in the case, charged with dealing in war materials, without a license. The prosecutor said that Sly's office had been searched, and that a secret code with the Duke of Manchester, who was in Paris, was found. The code covered various war materials. Many cablegrams had passed between Sly and persons in New York, whose names were given as Barnes and Barter, regarding contracts with Russia. Sly had applied to the Government for a permit to deal with munitions, which the prosecutor said, was promptly refused. Sly's application stated that he represented various States and Canadian concerns. It seems, said the prosecutor, that after Sly had been warned, that he was rendering himself liable to prosecution, he and the Duke of Manchester put their heads together to hoodwink the authorities by communicating with each other with regard to these matters in a secret code. One of Sly's cablegrams, which was produced in court, was addressed to "Pretty Maid," which was

declared to be the cable address of Barnes, Exchange Place, New York. It reads: "Sly, Petrograd by Saturday, names factories with two million maulers." Sly was remanded in custody, as he was unable to find bail which was fixed at \$10,000. His attorney said that Major General Sir Francis Lloyd, commanding the London district, regarded it as a minor offense, and wanted the case dealt with summarily.

SERBIAN SITUATION BECOMING WORSE.

PARIS, Nov. 18.
Telegraphing from Athens under date of Nov. 17, a correspondent of the Havas News Agency says: The situation for the Serbians is becoming worse. The fall of Priep is imminent and the Serbs have begun a retreat towards Ochrida. The danger of the Serbians, defending Babuna Pass, being enveloped by Bulgarians from the west, has caused the abandonment of the Pass. Desperate fighting is expected around Priep, and south of that city. Bulgarians are advancing towards Krushovo with the object of cutting off the Serbian retreat towards Albania. The Serbians are fighting with the utmost tenacity along the northern front, disputing the advance of the invaders foot by foot.

BOMBS DROPPED ON VERONA.

PARIS, Nov. 18.
A hostile aircraft flew over Verona, Italy, this morning, several bombs being thrown from the machine. One child was slightly injured, but there were no other casualties, nor was there any material damage done, a Havas despatch from Rome states.

ITALIAN SAILINGS CANCELLED.

NEW YORK, Nov. 18.
Representatives of Italian steamship lines here said to-day, that while they had received no advice that steamship service between Italy and the States had been entirely suspended, because of the submarine menace, at least five sailings from here during early December had been cancelled.

GERMANY'S COPPER.

LONDON, Nov. 18.
A Copenhagen despatch to Reuter's Telegram Company says that the copper famine in Germany is so acute that requests, equivalent to demands, are now reaching the authorities of the churches to hand over all the copper in their possession, as a good example to others. Huge copper roofs of the great cathedral of Bremen are being dismantled, and "everything made of copper hanging to the cathedral has been placed at the disposal of the military.

UNITED STATES WILL WAIT FOR AUSTRIAN REPLY.

WASHINGTON, Nov. 18.
While the United States will wait for the Austrian reply to Ambassador Penfield's inquiry, the high seas was not regarded as according to them a place of safety within the meaning of the term as used in the international law. In its correspondence with Germany over the Frye case, the American government expressed the view that open boats did not constitute a place of safety. This was based on the fact that the American government would develop the entire question of submarine warfare, further by correspondence with Austria, even though as the Austrian Admiralty declared, forty-five minutes were given to the passengers and crew of the Ancona to be transferred. This was not regarded as affording American citizens sufficient opportunity to be saved. The first official report alleging that the submarine continued shelling the Ancona after she had halted, reached the State Department to-day in a consular despatch, outlining an affidavit made by Doctor Grell of New York, the only known American survivor of the tragedy.

STEAMER SUNK; FOUR OF CREW MISSING.

LONDON, Nov. 18.
Twenty members of the crew of the Tirken have landed on the east coast.

**Mamma! Don't You
See Your Child Is
Sick, Constipated**

Look at tongue! Move poisons from liver and bowels at once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing laxative. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowels cleansing should always be the first treatment given. Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the California Fig Syrup Co."

THE DOOMED BIRD.

The day'll be with us in a trice — Thanksgiving day, of grateful glee. Still stands the ancient sacrifice, a turkey roosting in a tree. I wonder why we always eat a turkey and a pumpkin pie, to show we're grateful for the wheat that in the bin is piled up high. We see our farders apple full, the bald-faced hens are laying eggs, the sheep have grown so plump much wool that they are spavined in the legs; the cupboard's full of shredded oats, the pantry shelves have jars of jams, the cows are thrifty and the shotes give pledge of bacon and of hams. All mundane things have come our way, we grin each prize for which we try, and, filled with gratitude, we say, "We'll eat a gobbler and a pie. The turkey roosts in yonder tree, and hopes to dodge the butcher's gaze; but such a boon is not to be, alas, for numbered are his days. So many blessings crown our lives, so many gifts without alloy, that we, and all our aunts and wives, must find some way to show our joy. We find existence full and sweet, each day's the best that e'er went by; and so we fondly say, "We'll eat a turkey and a pumpkin pie."

SALVIA destroys dandruff in ten days. The roots of the hair are so nourished and fed that a new crop of hair springs up, the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is daintily perfumed. It is hard to find an actress who does not use SALVIA continually.

Your Boys and Girls.

In this little world whatever is the opinion of the parents becomes usually that of the child. If a parent's ideal is a man of intellect the child's aims will be intellectual; if the parents' aims are worldly advancement the child will strive in that direction. There are some few cases, of course, where the child seems to hold opinions directly opposite from the parents, but such is not often the case.

This is a point which constantly baffles philanthropists; for which ever end they take hold of in endeavoring to establish reforms, seems to be the wrong one. The plastic nature of a child admits of moulding so easily, that one feels that it is the prehensile point; and yet to secure development seems futile so long as the child's environments are so unfavorable; so long as it is in close contact with an ignorant, indifferent and, perhaps, immoral mother.
