

PEPYS BEHIND  
THE SCENES.

July 10th.—Up betimes, the day cold and foggy, and as much like the fall as was last September like the tropics. Indeed, so chill has it become that croakers do prophesy no summer at all, which I am inclined to doubt, being yet somewhat early for the heat. Talking with Mr. Lake of the great storm at Flat Islands which shattered all the window panes, and is the greatest damage done by a storm since the great October gales of 1921. A thing to note is Mr. Monroe, he asked to grant money for the Flat Islands' relief, but will not do so, refusing to give the people money save in cases of the most desperate nature. So while all sorry for the people of Flat Islands, yet Mr. Monroe's action pleasing in that it is clear that while he is Prime Minister there will be a careful administration of public monies and no squandering of heretofore. By the public despatches, news of Mr. W. Davis, that he was one time American Ambassador to the Court of St. James, he chosen leader of the Democrats on the 103rd ballot, and is the largest number of ballots were required for this purpose. The House meets to-day and a great crowd for the opening session. The Governor reads the Speech from the Throne, and little promise of Legislation in it, being that the time was too short for much to be prepared. Among other things, a full enquiry into the public matters, and promised into public matters, and measures to come before the House for the amendment of the Prohibition Act and for the starting of a pulp and paper plant on the Gander River, and a flour mill at St. John's. But little debate in both Houses on the speech being confined in the Upper House chiefly to congratulatory discourse and in the Lower House to indefinite statements of policy. Mr. Lake makes a very good discourse on the motion for an address in reply to the speech in it. Mr. Monroe replies, and in his address highly emphatic on the need for economy and careful administration. His discourse, for all brevity, a safe indication of his desire to benefit the country in every way that lies in his power. So with few questions and notices of motions, the House adjourns to meet again Monday, and to conclude its business with all possible despatch.

Newfoundlanders  
Lead in Fashion Parade

FAIR DAUGHTERS OF TERRA NOVA ARE LEADING FIGURES IN BEAUTIFUL SOCIAL EVENT IN CALIFORNIA.

When the Orchestra struck up the "Grand March" and the parade of 180 guests was formed up in the beautiful ballroom of the Baltimore Hotel, at Glendale, California, the selected leaders chosen by the Committee of Chaperones were Miss Jean Corbett and Florence McCoubrey. Both, charmingly attired, stepped into their places as roses were showered from the balconies, and the Fashion Parade moved off to the delightful music of Heine's Orchestra. Miss Florence McCoubrey is the young daughter of the late H. T. McCoubrey, former Managing Director of the Standard Manufacturing Co., St. John's, Nfld. Her mother, Mrs. J. O'Neill Farrell, is at present a resident of Los Angeles, and has been living there since 1916.

Miss Jean Corbett is the daughter of Mrs. J. A. Corbett (nee Miss Maud Williams), the latter one of our most accomplished actresses in the days of St. John's premier amateur performances. Miss Williams made her first appearance in St. John's in "Under the Gaslight" at the Metropolitan Theatre, when it was last produced by the Old Favorites Dramatic Co., the cast of characters at that time including T. M. White as "Byron," her cousin, Leo Murphy as "Snorky," J. J. O'Grady as "Ray," G. F. Power, P. J. Patterson, G. F. Power, Jean Halley, Polly Carroll, T. J. Rolfe and many others well known to the footlights.

Although losing active touch with their native country, the hearts of the Newfoundlanders abroad warm, to-day Avalon's shore, even though far live in a sun-kissed centre, where the roses and fruits grow in rich profusion.

Goiter Traced  
to Snow Water

Winnipeg, Man., July 7. (A.P.)—Examination of 600 school children has resulted in the pronouncement that prevalence of goiter among them was caused by snow water in local Lake, a body 50 square miles in area, situated 40 miles to the northeast, from which the municipal supply is drawn. Dr. Duncan McRae said iodine would have to be introduced into the water. Three hundred children between the ages of 12 and 15 were found to have goiter.
