\$7.00

Oak Hall

Found Dead in Bed.
 Toronto, March 12.—W. W. Pegg, a prominent Newmarket farmer, was found dead in his bed at the Albion Hotel here yesterday morning, with the gas turned on. Pegg was about 60 years old, and once contested North York against Sir William Mulock. He was an uncle of the Pegg who was connected with the Little Evans case, in which the woman was charged with attempting to poison her husband.

LONDON AND DISTRICT.
 —Ad. Cowan, of Galt, was in the city yesterday on business.
 —Mr. John Arscott and family have removed from Teeswater to London.
 —Mr. William Hadden, of this city, is on a business trip to Detroit and Chicago.
 —Dr. J. I. Ferguson and Mrs. Ferguson, of Courtright, are visiting in this city.
 —A meeting of the East Middlesex Teachers' Association will be held tomorrow in the council chambers here.
 —About \$24,000 of taxes are still unpaid and Collector Hayes has started out to get it by the warrant issue route.
 —Rev. Dr. Johnston, of this city, will attend the annual meeting of the British and Foreign Bible Society at Ottawa next May.
 —Mr. Robert Currie, of Hamilton, has been on a visit to London relatives for a few days. Mr. Currie was a former resident of the city.
 —The Secretary of State yesterday notified Senator Coffey of his appointment to the upper house, and requested him to attend in Ottawa on Monday.
 —A farm near Port Talbot, owned by Mr. Talbot Macbeth, of this city, has been bought by Mr. W. Braddon, of this city, acting for the Columbia Handle Company.
 —Rev. Thomas Wilson delivered an interesting illustrated lecture last night at an entertainment given at St.

Nitsuki

 380 Richmond St. JEWELER.

SMOKING CONCERT.
 A smoking concert under the auspices of the local Broommakers' Union was held in the Union Hall, corner of Dundas and Richmond streets, last night, and was well attended, the hall being filled. A. S. Johnston, secretary of the Tailors' Union, was invited to the chair, and discharged his duties in an excellent manner. The following programme was rendered: Songs by H. Reid and Sid Chamberlain, and her Cuban and African mid-dresses, the chairman, James (Chief of the Broommakers' Union), also President Lochane and Vice-President Crossland, of the Trades and Labor Council. The entertainment was closed at an early hour with an exhibition of hypnotism by a local hypnotist.

MUSIC AND DRAMA
TEN-ICHI TONIGHT.
 The Ottawa Free Press says of Ten-ichi, who is playing at the Grand Theatre last night: "The audience which left the Russell Theater last night no longer wondered why Japan is spoken of as a magic land, and the Japanese as the most dexterous conjurers in the world. Ten-ichi, the Japanese court acrobat, is certainly a past master in the art of leg-dermatism."
PHASEY TROUPE OF DANCERS.
 The kaleidoscopic extravaganza, "The Evil Eye," comes to the Grand tomorrow afternoon and evening. After two years' absence the great Phasey troupe has been announced to double its original size, and now forms a large and most expensive single nov-ty.

YOU CAN INTEREST HIM
 Any Man Over Fifty.
 You can interest any man over 50 years of age in anything that will make him feel better because he is old, and not as yet have any positive organic disease, he no longer feels the buoyancy and vigor of 25, nor the freedom from aches and pains, and he is, in 25 years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.
 He will notice among other things that the stomach of 50 is a very different one from the stomach he possessed at 25. That greatest care must be exercised in the selection of his food, and much of it, and even with the best of care there will be increasing digestive weakness with advancing years.
 He will notice that it is possible to improve the digestion and assimilation of food is one which interests not only every man of 50, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest those elements which become blood, brain tissue and every other constituent of the body is entirely the product of digestion, and no medicine or health food is possible except the pure blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting, half-digested food.
 No, the stomach itself wants help and in no roundabout way, either: it wants direct, unmistakable assistance, and this is given by the new Stuart's Dyspepsia Tablets after each meal.
 These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contains dig-estive elements sufficient to digest 3,000 grains of ordinary food, such as bread, meat, eggs, etc.
 The plan is simply another name for starvation, and the use of prepared foods simply makes matters worse, as any dyspeptic who has tried them knows.
 As Dr. Bennett says, "the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by every body who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug, whereas, as a matter of truth, any druggist who is observant knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heartburn, heart trouble, nervous prostration and run-down condi-tion generally than all the patent medi-cines and doctor's prescriptions for stomach trouble combined. 30c zlv

RECEPTION TO CHOSEN FRIENDS.
 The reception to the Grand Council, Canadian Order of Chosen Friends, which meets here week after next, will be held at the city hall. A programme will be followed by a dance. The reception committee comprises: Friends George B. Nash, (secretary), Mrs. Lemon, R. H. Cullis, Mrs. J. W. Thorp, A. Legg, Mrs. W. J. Smith, T. Blanche, Mrs. J. Tierney, D. E. McIntosh, Mrs. G. Burton, Wm. Pepper, L. Baker, F. J. Fitzgerald (treasurer), D. David-son, H. Burton, Lemon, C. A. Burgess,

Matthew's Church. Quite a large audience was present, and greatly en-joyed it.
 —Mr. Alexander Riddle, son of Mr. George Riddle, of concession 2, West-minster Township, died yesterday. He had been ill for some time, and lately it was known that he could not recover. He was in his 20th year, and had a HAD THUMB CRUSHED.
 —Albert Philpott, a brakeman on C. P. R., had his thumb crushed while coupling cars. The injured member may be saved, but the accident will prevent him from working for some weeks.
ST. GEORGE'S BANQUET.
 The regular monthly meeting of St. George's Society was held last evening, when there was a large attendance. The most important business was a decision to hold a banquet, as is the custom on the 23rd of April. A com-ments.

WAS HE CHOKED?
 Norris Graham, of London Town-ship, has been charged with assault-ing John Gillis, of Lobo, the latter claiming that Graham tried to choke him. The case will be tried by Judge Smyth on Monday afternoon.
AN AXLYMER MAN.
 Peter Loop, who died at Chicago the other day and of whom information was asked of the chief of police here, was an Axlymer man, whose father lives there at present. Mr. Loop has written to Chief Williams for more information, but the chief knows nothing more than that the authorities wanted to know of the dead man's relatives.
NATIVE OF DELAWARE.
 Mrs. O. M. Maybrey, whose death at Dorchester Station has been an-nounced, was a native of Delaware. The deceased was in her 7th year, and had lived all her life in this district, seeing London advance from its earliest stages. She was the daughter of the late H. Melancthon, who repre-sented the County of Middlesex at one time in the Upper Canada Parliament.
"B.S." ARE COMING.
 B Company, of the Seventh Regi-ment, is looking for big things in drill this year, as the number of applicants is very large. Last night the non-coms. were entertained at the Oriental Hotel by Capt. Becher, when com-pany business was discussed, com-mites being struck for the year.
OLD RESIDENT'S DEATH.
 The funeral took place this morning at St. John's of the late Mrs. Ardell, relict of the late James Ardell. The deceased, whose death occurred Tues-day, was one of the township's oldest settlers, and was known and liked throughout the community. The funeral was therefore a very large one. It was conducted by Rev. D. McCracken, of Thorndale, and Rev. Canon Richardson, at the house and grave res-pectively. The deceased is survived by one daughter and two sons.

THE STEAMER CELTIC, WITH EX-MAYOR RUMBALL ON BOARD, ARRIVED AT QUEENSTOWN, IRELAND, YESTERDAY, AND PROCEEDED TO LIVERPOOL. FROM THERE MR. RUMBALL GOES DIRECT TO LONDON, WHERE HE IS STOPPING AT THE HOTEL DE L'EUROPE, THE SOUTHWESTERN TRACTION COMPANY'S BONDS. HE WILL BE ABSENT FOR FIVE WEEKS OR THEREABOUTS.
THIRTY-SEVEN CONFIRMED.
 His Lordship the Bishop of Huron addressed the rite of confirmation to 37 persons at Courthouse on Wednes-day evening. He congratulated the incumbent, Rev. Edwin Lee, upon the large number presented. The latter had performed the ceremony of bap-tism to several of the communicants. He and Mrs. Lee entertained Bishop and Mrs. Baldwin at the rectory.
ROBERT LAWRENCE'S DEATH.
 A Kerwood correspondent gives the following details of the tragedy near Kerwood, which has been already men-tioned in these columns:
 "The young man, Robert Lawrence, was killed about three miles here on Wednesday evening in the woods on lot 4, con. 3, Adelaide. It seems he and a colored man named Green, from London, came out about a week ago to chop wood for Mr. H. Johnston. Some parties cut a large elm, thinking it a conifer tree. A maple was leaning against it, and remained standing after the other fell. Lawrence and an unfortunate young man on the back of the head, smashing in his skull. He never moved or spoke. Dr. Morgan, who was called, could find an inquest unnecessary.
BAD ROADS.
 The average visitor to the city would not be very favorably impressed with the appearance of the streets at present. On some of the thoroughfares the mud is almost axle-deep, and makes the hauling of heavy loads on them an arduous task. It is to be hoped that woe betide the person who should forget himself so much as to drive through it faster than a walk. But the city engineers do not blame for the state of affairs altogether. The early mild weather brought the frost out of the ground, and the heavy rains which closely followed did the rest. One block where some work will have to be done this summer is York street, between Colborne and Burwell streets. Last fall a large quantity of coal dust or something similar was thrown on there and as it was piled in the center it has made both sides very low, the result being that since the rains the street is almost impassable.

DOUBLE BILL AT THE LONDON.
 "Ten Nights in a Barroom" was the play at the London last night. The Glick Stock Company gave it a presentation that was thoroughly satis-factory to the large audience present. An especially good feature in the spec-ialties was the sleigh bell dance of Miss Geraldine Bodley. Tonight, after the performance of "The Trapper's Daughter," an amateur contest will be held. Tomorrow night "Uncle Tom's Cabin" will be presented, when the ton of coal will be given away, and at the matinee a box of bon-bons to each city feature. As a finale to their act they appear in a full brass band spec-ially.

AUDIENCE CROWDED THE THE-ATER.
 Miss Isabel Irving, who appears at the Grand Monday night in "The Crisis," scored a success in Toronto. The Globe says: "Winston Churchill's dramatization of his own novel, 'The Crisis,' produced at the Grand Opera House last night, may be pronounced one of the most attractive and best acted plays that have been offered the-atergoers this season. The costumes are those of the early sixties, and aroused much interest, especially the hoop skirts of the ladies. The audi-ence, which crowded the theater, were most demonstrative in their expres-sions of approval, and, in fact, it is not often that so much fervent en-thusiasm is witnessed at the Grand of late over a drama that may be justly considered of a high-class order.

BURLESQUE AT THE LONDON.
 "Wine, Woman and Song" comes to the London next Monday and Tues-day.
ROSE WAS FOUND DEAD
 William Rose, an elderly man living at 55 William street, was found dead in his bed last night by Detective Egerton and P. O. Ralph. The neighbors had not seen him for some days, and as the man lived alone they decided to notify the police. On asking an en-trance to the house the officers found the body in a half sitting posture, partly out of bed. It is supposed that apoplexy was the cause of death.
 The coroner was notified and the body was removed to an undertaking establishment. The deceased had two sisters and an adopted son living here in the city. His wife died about a year ago. She was found on the road-side in the east end. The coroner is making inquiries as to whether it will be necessary to hold an inquest.

Neighbors Had Missed Him and Notified Police.

HOME GUARD OF OLD BOYS AT PRESENT MARKING TIME
 It's Early to Do Much Yet, But Outside Associations Are Hustling.

THE GLAD HAND AFFAIR TWO YEARS AGO
 promises to send a better representa-tion than ever to renew old ac-quaintances and talk over the events that happened "when we were boys." In Toronto, for instance, where the Old Boys' movement originated, the secretary of the association is already working overtime looking after the London Old Boys located there, and the prominent members are also on the alert. Joe Davis, one of the leaders of the association, was in London on Thursday, and when the reunion was mentioned to him, he smiled as only Joe can. It brought back to him recol-lections of the many good times he had spent here since the reunions com-menced, and reminded him that in August next another good time await-ing him. The man who met me, Billy Small, Bert Lewis, "Col." Sullivan, of Detroit, and the rest of the "boys." Joe gave the assurance that Toronto would be on deck when the time came, and would give all other cities a race for the honors. To beat Toronto, he said, any other place would have to bring three special trains, and that would be a heavy burden. And just as encouraging reports come from other places. Only the ar-rival of the date for the homecoming will tell what a great gathering it will be.

DEEPER HARBOR NEEDED.
 "Now, if we could get at Goderich harbor the depth increased, the south side of the harbor deepened to 20 feet, and the north side and part adjacent thereto to the lumber docks deepened to a uniform depth of 14 to 15 feet, we could admit the western and eastern draft grain vessels all right, for they cannot now be loaded full and get to Buffalo, as what is known as the Lime Killo crossing in the Detroit River pre-vents them. Besides that, boats of heavy draft must encounter in Lake Erie, while there is nothing to prevent a boat from entering Goderich harbor except a north-west gale. This can be remedied by a breakwater.

DEEPER HARBOR AND BREAKWATER WOULD BRING CARRIERS THERE.
 If the town of Goderich does not get the harbor improvements that it is ap-plying to Parliament for it will not be because it has not an interested mayor. An advertiser reporter had an inter-views with this gentleman yesterday, in which it was made evident that the capital of Huron is not marking time in the matter of securing what it wants. Mr. E. N. Lewis, acting crown attor-ney at that place, is the mayor, and he is apparently a good advocate of the town's interests. A short time ago he sent out to the different boards of trade a circular asking for the assistance of the various parts of Western Ontario in getting for Goderich the harbor im-provements that it is desirous of hav-ing from the Dominion Government, and giving arguments as to how the same would benefit the whole country. Remembering this, The Advertiser re-presentative, when he saw Mayor Lewis, approached him on the subject, asking him how matters were progress-ing.

DEEPER HARBOR NEEDED.
 "Now, if we could get at Goderich harbor the depth increased, the south side of the harbor deepened to 20 feet, and the north side and part adjacent thereto to the lumber docks deepened to a uniform depth of 14 to 15 feet, we could admit the western and eastern draft grain vessels all right, for they cannot now be loaded full and get to Buffalo, as what is known as the Lime Killo crossing in the Detroit River pre-vents them. Besides that, boats of heavy draft must encounter in Lake Erie, while there is nothing to prevent a boat from entering Goderich harbor except a north-west gale. This can be remedied by a breakwater.

THE GLAD HAND AFFAIR TWO YEARS AGO
 promises to send a better representa-tion than ever to renew old ac-quaintances and talk over the events that happened "when we were boys." In Toronto, for instance, where the Old Boys' movement originated, the secretary of the association is already working overtime looking after the London Old Boys located there, and the prominent members are also on the alert. Joe Davis, one of the leaders of the association, was in London on Thursday, and when the reunion was mentioned to him, he smiled as only Joe can. It brought back to him recol-lections of the many good times he had spent here since the reunions com-menced, and reminded him that in August next another good time await-ing him. The man who met me, Billy Small, Bert Lewis, "Col." Sullivan, of Detroit, and the rest of the "boys." Joe gave the assurance that Toronto would be on deck when the time came, and would give all other cities a race for the honors. To beat Toronto, he said, any other place would have to bring three special trains, and that would be a heavy burden. And just as encouraging reports come from other places. Only the ar-rival of the date for the homecoming will tell what a great gathering it will be.

DEEPER HARBOR NEEDED.
 "Now, if we could get at Goderich harbor the depth increased, the south side of the harbor deepened to 20 feet, and the north side and part adjacent thereto to the lumber docks deepened to a uniform depth of 14 to 15 feet, we could admit the western and eastern draft grain vessels all right, for they cannot now be loaded full and get to Buffalo, as what is known as the Lime Killo crossing in the Detroit River pre-vents them. Besides that, boats of heavy draft must encounter in Lake Erie, while there is nothing to prevent a boat from entering Goderich harbor except a north-west gale. This can be remedied by a breakwater.

DEEPER HARBOR AND BREAKWATER WOULD BRING CARRIERS THERE.
 If the town of Goderich does not get the harbor improvements that it is ap-plying to Parliament for it will not be because it has not an interested mayor. An advertiser reporter had an inter-views with this gentleman yesterday, in which it was made evident that the capital of Huron is not marking time in the matter of securing what it wants. Mr. E. N. Lewis, acting crown attor-ney at that place, is the mayor, and he is apparently a good advocate of the town's interests. A short time ago he sent out to the different boards of trade a circular asking for the assistance of the various parts of Western Ontario in getting for Goderich the harbor im-provements that it is desirous of hav-ing from the Dominion Government, and giving arguments as to how the same would benefit the whole country. Remembering this, The Advertiser re-presentative, when he saw Mayor Lewis, approached him on the subject, asking him how matters were progress-ing.
