GERMAN STRIKE DEVELOPS RIOTS

Smith Family, of Madiver Lane, Police and Mine Workers Collided and Fierce Fight Ensues.

Government Is Asked to Rush Troops to the Points of Disturbance.

[Canadian Press.] Berlin, March 12.-Collisions between the strikers, the police and the non-strikers, are reported to have occurred today in six or eight localities in the coal regions. The most serious conflict was near Hamborn, in the district of Dusseldorf, where, ac cording to dispatches, a mob of 2 000 strikers, who were waiting fo the workers, threw stones and bottles and fired revolvers at the detach. me.t of forty policemen who were on guard, injuring five of them.

police then charged with drawn sabres injuring many of the strikers. The workers were stoned and the police used their sabres in dispersing the crowds of strikers at many other points but the number of casulties is not reported.

Owing to these disturbances Christian Trades Unions and the mine owners have telegraphed to the Minister of the Interior to send troops or to reinforce the police in the coul district as the protection afforded to the workers is, in their opinion, inadequate. The police authorities, on the other hand, assert that the police protection is quite sufficient and they minimize the disorders that have taken place.

The strike is assuming considerab! proportions in all districts, many the mines today working with only court proceedings followed, in which one of the three shifts that are or dinarily employed. A small union of he hoisters joined the strike today.

The owners have instituted committees representing the miners from cus tomorrow, but there is no prospect of these reaching a successful issue owing to the present attitude of the owners. Figures issued today show that the increases of wages de n anded by the miners cannot granted owing to the financial posi tion of the mining companies.
