THE LATEST COMET. Scientists Give Numerous Reasons Why it

KIEL OBSERVATORY, Prussia, Nov. 24.— The new comet discovered by Prof. Holmes Blanchard, Miss Nellie Dupont and Miss

Gertrude Dupont. The bride was bewitchingly sweet in an is not the famous Biela comet. Such is the

opinion of nearly all the astronomers who opinion of nearly all the astronomers who have reported on the subject. For fifty years the Kiel observatory has been the central telegraphic bureau for the astrono-mers of the entire world. Whenever an astronomer discovers any new phenomena in the skies, he at once flashes the news to Kiel. Here, by an admirably arranged In the skies, he at once mashes the news to Kiel. Here, by an admirably arranged code, the news is at once sent out to all the observatories, even as far as Cape Town, Madras, Melbourne and Rio Janeiro. Thus, almost simultaneously, every astronomer Madras, Melbourne and Rio Janeiro. Thus, almost simultaneously, every astronomer focuses his telescope to try to confirm or further develop the value of the first obser-vation made. Prof. Krueger is the director of the Kiel observatory. With him are receiving and distributing astronomical tele-graphic news and in editing the recognized official astronomical organs. It was Prof. Lampe who first saw the comet reported by Holmes. It had got about in many quarters tiz t Herr Berberich, director of the Berlin observatory, made the observations. That is not so. Prof. Lampe said : "Mr. Holmes, an amateur astronomer, discovered on November 6 a bright comet, which was visible to the naked eye. It was in the considellation Andromeda. The dis-covery was telegraphed by the Greenwich observatory to this observatory.

London, Nov. 24.—The sudden rise in the price of silver yesterday was due to the operations of a group of peculators. The in the constellation Andromeda.
