APPOINTMENTS THIS EVENING. GRAND OFFRA HOUSE-",Stolen Kisses"-Horace Logard.
ROYAL OPERA HOUSE—"Lazare, a Life's Mistake"—Alex. Caufman.

THURSDAY MORNING NOVEMBER, 4, 1881.

of the freedom of opinion.

No FEWER THAN a thousand young women recently congregated around the stage entrance to the Drury Lane theatre in response o an advertisement that the manager wanted one hundred girls, "young, welln ade and pretty," for the forthcoming pantomime. They were admitted in squads, and the rejected applicants, as they emerged upon the street, were greeted with derisive eries by the multitude without.

of their shooting privileges as of their fishing rights. Lord Dunraven, who has probably done more than any other living man to make their shooting privileges valuable to them, has just been arrested again for shooting moose in their bailiwick without a license. He gave an amusing sketch of a similar misadventure there, it will be remembered, in a lecture before the geographical society in New York, and he will doubtless turn this second experience to as

STACE THE SHAH OF PERSIA applied to the Russian government for drill instructors for his army, the Persian embassy at St. Petersburg has been besieged with applications from Russian officers desirous of proceeding to Theheran. Lieutenant-colonel Domontovitch, the head of the existing the tariff until forced to drop. military mission in Persia, receives a salary of £1200 a year, besides other allowances. His eight subordinates are also well paid. Aside from the emoluments it offers, the Persian service is popular on account of the change for active service which it holds out will be held in this city on the day appoint. I need not add. It is yet too early in the

Heretofore no Jew or Christian has been allowed within its walls, but the rude necthe Arabs more than a thousand years ago. Every Moslem dynasty has left a mosq ue there. The capture of the holy city and the death of Ali Ben Ameer, the Arab leader, which occurred on the same day, are severe blows to the insurgents.

PROFESSOR CAMPBELL, of the Presbyterian college, Montreal, believes that he has found the key to the Hittite inscriptions, and has sent the results of his investiga, tions to the society of Biblical arch æology. The most striking and important feature of this work is the identy established by Professor Campbell, as he believes, between the Aztecs and the Hittites. He concludes a statement of his discovery in The Montreal Witness as follows: "It is interesting to know that we have on this continent the remains of a people who played a great part in ancient history. It is also gratifying to learn that by the establishment of

B'Oylèy Carte's New Theatre.
The main feature of Mr. D'Oyley Carte's new theatre in London, the Savoy, is that it is lit by the electric light. The peculiar steely blue color and the flicker, which are inevitable in all systems of arc lights, make them unsuitable for use in any but very large buildings, but the invention of the incandescent lamp has now paved the way for the application of electricity to lighting houses. The arc light is simply a continuous electric spark, and is nearly the color of lightning, whereas the incandescent light is produced by heating a filament of carbon to white heat, and is much the color of gas; the current is easily controllable, and the lights can be raised or lowered at a lower 600 carcases of putter. The new if the average in temperature. In northern Minnesota, Dakotah and in Manitoba very severe weather will occur in December, and the winter's snowfall will be heavy, but the close of December and the subsequent months will be milder than usual, excepting possibly March. In the Algoma district, the upper Ottawa and eastern Quebec the snowfall will be up to the average, if not above it, but around Montreal and in the eastern townships sleighing will not be color of lightning, whereas the incandescent light is produced by heating a filament of carbon to white heat, and is much the color of lower lakes, but, of course, with rather heavy snows. The California coast will be below the average in temperature. In northern Minnesota, Dakotah and in Manitoba very severe weather will occur in December, and the winter's snowfall will be heavy, but the close of December and the subsequent months will be milder than usual, excepting possibly March. In the Algoma district, the upper Ottawa and eastern Quebec the snowfall will be milder than usual, excepting possibly march. In the Algoma district, the upper Ottawa and eastern Quebec the snowfall will be milder than usual, excepting possibly march. In the Algoma district, the upper Ottawa and eastern Quebec the winter's snowfall will be neve ers unded 5082 carcases of frozen beef and the lights can be raised or lowered at will. The new light is not only used in The mean winter temperature of New and over 600 carcases of nutton. These carrows, purchased in America for seven the pound, were sold for ten cents and over for seven the pound, were sold for ten cents and over for the design of the theatre, but on the stage and even in the dressing-rooms. To provide against contingency gas is laid on.

The mean winter temperature of New Brunswick will be nearly an average one, with heavy snowfalls. The Nova Scotia coast will be exceptionally stormy. New-

the pound. The attemps recently made by some London firms to get up a corner cam to nothing, not on account of the perishable nature of the article so much as on account of the widely distributed competition. and the impossibility of getting the ring sufficiently extensive to cover the whole

EUROPEAN POWERS have evinced three to accept the principles of the Monroe

The Anglican synon

The proceedings at the meeting of synod yesterday can hardly be considered creditable to that bod The old line of demarable to that bod The old line of demarable to the total between the high and low church and content the following arrangement and characteristics of the various periods of the coming warm winter, are likely to be followed in southern Ontario, southern Michigan, central and southern New York, and the state of Massachusetts, with, of course, the limit of the glorious privileges bought and paid for by the blood of a spirited ancestry. MR. J. Ick Evans writes a strong letter to us on "church and state bigotry," in reference to the book seizures. While we agree with Mr. Evans in the principle for which he contends we do not approve of the slashing manner in which he introduces side issues. The true line on which to fight out the issue is that of the principle for the state of Massachusetts, with, of course, the modifications arising from local climate and which are well understood by the public. North of this district, the central line of which are well understood by the public. North of this district, the central line of which is the parallel of 43°, the weather will be colder, though correspondingly milder than usual.

The general character of the first part of November will be decidedly mild, and the principle of the princi can wassed and worked by each party, the high churchmen, who had a majority in the synod, appointed every member of the committee from their side. Mr. Rainsford had the manliness to denounce what he corporation for Ireland with a capital of several millions, the object being to purchase large estates and reclaim waste lands, especially in the district of Connemara, dividing these estates into lots and reselling them on easy terms, thus establishing a canvassed and worked by each party, the high churchmen, who had a majority in the synod, appointed every member of the committee from their side. Mr. Rainsford had the manliness to denounce what he correctly described as the "caucus system," but this did not have the effect of breaking up the combinations. One way of doing so would have been to start a ticket with the best names of both party tickets on it; but them on easy terms, thus establishing a why should there he steep a conflict at all?" would have been to start a tiege with the mone easy terms, thus establishing a peasant proprietary without injury to any

Is it to be war to the knife to the bitter least the first half of December, and will include two "cold snaps"—the first near future the advent of what may be the near future the advent of what may be t or later have to face the question of separation into two distinct communions.

THE TELEPHONE SERVICE.

whereby the telephone would become similar to the telegraph, and those who used it milder than usual. There will be little or would pay the piper.

would pay the piper.

At the present time the charges for telephone service is very high, and it is a luxury which only the rich can afford to luxury which only the rich can afford to utilize. Under the tell system, the comeven below it. Sleighing will occur for a pany would charge only the actual cost of putting in the instrument and a regular tariff for messages, and as in the case of the postal service, the public would find the telephone a necessity instead of the luxury telephone an ecessity instead of the luxury seven below it. Sieighing will occur for a short time in some localities, but in others not at all. Rain and snow will fall in considerable quantities. The latter part of the month will be decidedly warm, and navigation will open at all the lower lake ports. Early March will show high temperatures, but later on the weather will become cold

rates by means of a healthy competition may be looked for, but the present company is standing in its own light by keeping up

A CONSERVATIVE CONVENTION.

The Mail yesterday announced, on the authority of Sir John Macdonald himself. ed for the banquet to the premier, that is THE CITY OF KAIRWAN, in Tunis, re- the 22nd of November. It is not definitecently captured by the French, is the holy | ly stated what the object of calling the party city of Africa, and as sacred to African together really is, but reading between Mahommedans as Mecea is to the Asiatic. the line suggests the conclusion that the purpose is to consider the propriety of appealing to the country next year instead of cessity of war has opened its gates to a the year after. The present parliament was horde of infidels. It is a walled city, containing 15,000 inhabitants, and has the famous Akbar Mosque and a holy well said to be connected with the Mecca well by subterranean passage. It was founded by the year after. The present parliament was elected in September, 1878, and its term expires by efflux of time after the session of 1883. If this surmise is correct, one inference would be that Sir John thinks he is more likely to carry the country after four subterranean passage. It was founded by more likely to carry the country after four usual. Northerly winds in a greater prosessions than after five, and that he is about portion than usual will mark the occasionto take the sense of his principal supporters in each coustituency on the point.

> Of course evey first minister under a system of responsible government must be eral character of the winter over most of the allowed to choose the time for making his continent east of the Mississippi may easily be guessed. South of Virginia the arrangeappeal to the people. At the same time, as be guessed. South or virginia the arrangement of the periods above outlined, will the constitution fixes the duration of the Dominion parliament at five years, and as for many reasons it is desirable to have as little colder than usual, but usually be a little colder than usual, but usually states. few general elections as possible, the free from extreme premier must be prepared to give the people uncommonly winter rains will be exgood reasons in justification of his course if | cessive in Florida and various points on the re decides to reduce the life of the present western states will enjoy decidely warm parliament from five years to four. Of weather, but will experience more storms course it is quite possible that the object in than Michigan and Canada. The outline that the object in than Michigan and Canada. The outline is that the object in the convention together may be have given for southern Ontario will answer in most particulars for Indiana and Illinois.

COMING WEATHER.

OATES PREDICTS A MILD AND VARIABLE WINTER.

What May Be Expected Over North America and Europe—Severe Gales—Hurricanes on the Atlantic—A Cold Dip for the Northwest.

To THE WORLD: The transition from times, by overt acts, their disinclination | the cold period of October has taken place and its character, combined and the length doctrine. Once was in 1823, before the and variations which have marked the doctrine was promulgated. Austria, Prus- | warm and cold periods of the present season sia and Russia then proposed to help Spain | confirm the impressions that I formed in subdue the revolted Spanish American September as to the leading characteristics subdue the revolted Spanish American states. Inotices, twenty-five per cent. advance on marry rates.

Inotices, twenty-five per cent. advance on states. President Monroe's proclamation of the coming winter. I need scarcely repeat what those acquainted with the plainly shows that a war of religious liberty repeat what those acquainted with the chief data upon which my autumn predictions are founded that while the records of previous years are often very serviceable in previous years are often very serviceable in previous years are often very serviceable in this day's issue of your journal, plainly shows that a war of religious liberty repeat what those acquainted with the chief data upon which my autumn predictions are founded that while the records of previous years are often very serviceable in previous years are of rope extended to the new world, warned previous years are often very serviceable in ures. them off the continent, and they went, though with bad grace. Again, in 1846, the winter season, my chief reliance is In the front ranks stand the archbishops, though with bad grace. Again, in 1840, the winter season, my chief remance is the "Holy Alliance" thought to set up imperialism in Mexico, but its designs were frustrated by the return of Santa Anna from exile and the outcome of the war with conditions prevailing during this season as from exile and the outcome of the war with conditions prevailing during this season as are now clamoring as did Demetrius, the early the United States. For the third time, in 1864, France, with the active co-operation of Austria and the tacit approval of Great Britain, undertook to establish an empire in Mexico, and then once more the schemes of absolutism failed. It is, on the whole, "long range" forecasting must advance for hood, and this is also the "war whoop" of the priest hood. not strange that the British lion growls many years to come. To enter into this our intelligent and conservative government. when the American eagle, in the person subject would, however, be to trespass too while Canada to day is parcelled out as the of Secretary Blaine, screams a reiteration of the old ultimatum, apropos of the Panama canal.

The following arrangement, and charge.

The following arrangement, and charge.

usually warm days, the mercury reaching

include two "cold snaps"—the first near the 3rd of the month and the second near the 3rd of the month and the second near the 14th. Navigation, however, will not entirely close, and this period past it will probably continue comparatively open during the most of the winter. I shall not be so much harm in Canadian politics.

postal service, the public would like telephone a necessity instead of the luxury but later on the weather will become cold and disagreeable, though winter will have It is understood that another company is no opportunity to afford more than a taste being or will shortly be formed, so reduced of its severity in low but brief dips of the temperature and in snow storms. Spring will open decidedly not till the end of the month. The changes from the general periods of warm to the general periods of cold, and vice versa, will be gradual. Ot course, it must be understood that no periods of either kind will be free from mode-

rate variations, due to the passage of low. and high barometric areas.

These are my more detailed predictions I need not add. It is yet too early in the progress of meteorological science to attach that degree of reliance to approximate dates and temperatures which even now may be attached to a general discription of the great features of the winter. These great features are decided mildness as a whole, distinct though not sharply defined periods of warmth and moderate cold, a marked deficiency in snowfall and particularly in sleighing, and an unusual frequency. larly in sleighing, and an unusual frequency of rain with, however, comparatively well-

al great extremes of cold which will rarely last for the three days' period common in ordinary winters.

From what has been said above, the ger something very different from the above.

What is the liberal party going to do about it?

D'Oyley Carte's New Theatre.

foundland will have a rather severe winter. The British Islands will be swept by unusually severe and frequent storms, and though like most of central Europe, the first part of the winter will be cold, the latter part will be warm and March decidedly so. The winter in Austria will be fine and much warmer than usual, but St. Petersburg and northern Scandinavia seem colder than usual.—Yours, etc., MOSES OATES.

Toronto, Nov. 1st, 1881. CHURCH & STATE BIGOTRY.

vouring the crumbs that fall from the over-laden table of the archbishop, and meekly

THE TELEPHONE SERVICE.

Numerous complaints are being made of the high rates charged by the National Bell telephone company in this city. Subscribers say that it is unfair that a man who uses the telephone every ten minutes in the day should only pay the same rate as the man who uses it but once in the same period.

The transition from the comparative cold but variable first part of December will be gradual.

The first part of January will be exceptionally mild, and at one time every vestige of snow or ice will have disappeared. Temperatures of from 55° to 70° may be expected. The second and possibly greater period.

So much harm in Canadian politics.

Let all lovers of civil and religious liberty take warning by the events now occurring in the parliaments and custom houses of Canada. The then edge of the wedge of intolerance has been roughly inserted in the heart of Canadian freedom to read, reason and think for oneself. Let all men, Orangemen included, see to it that they are not deprived of the dearly bought bless ings of religious freetion, because they are held as the personal property of Orange or Department of Crown Lands, at TWELVE

power at the expense of civil and religious liberty. For myself I am prepared when this occurs to give practical proof that I value civil and religious liberty in a far higher sense than a half hearted "National policy," and I trust the millions of Canada will show the party of retrogression that the year 1883 is not the year 1883. J. ICK EVANS. Toronto, Nov. 2nd.

REST AND COMFORT TO THE SUFFERING "Brown's Household Panacea," has no equal for relieving pain, both internal and or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago, and any kind of a pain or ache. "It will most surely quicken the Blood and Heal, as its acting power is won-derful." SOLID PROGRESS.

There are different kinds of Life Insurance Agents. Some recognizing their

Showing a contraction of 33 per cent. in Income, and of 31 per cent. in Insurance. During the same period the ETNA LIFE'S contraction was but 27 and 22 per cent., while its Assets increased during the 7 years, from \$18,077,540 66
In 1872, up to, in 1879, 25,636,195 41
showing an increase of a fraction under 30 per cent.

To say of a firm, or a bank, that its Debts had decreased and its Assets increased would be very strong testimony in favour of that firm's, or bank's, good management and present strength. The following statement shows Solid Progress in Assets and in Surplus over all Liabilities—that is, after making provision for the re-insurance of the first column, year by year:

Amount at Risk. \$100,617,773 98,884,149 94,506,992 91,454,011 97,385,555 82,719,074 79,568,066 77,788,038 77,951,819 In 1872, therefore, the ETNA had only \$180 on hand to each \$1,000 of Policy. To-day it has \$338 40. In 1872 its Surplus, after laying aside enough to re-insure all its Policies on the New York of Canadian standard was \$2,183.—982. To-day its Surplus is \$5,387,773, an increase of 150 per cent. The amount at Risk has now, with returning good times, increased in 1880 over 1879. We have given sufficient to satisfy any one that the Etma Lifte has all the elements that constitute a strong and reliable Company. But, the gentry above-mentioned say, its death rate "greatly exceeds the average of all the American companies." So it does, and it would be almost a miracle if it did not, for it is one of the oldest companies. But in 1880 its deaths were only \$15 per \$1,000, while the rate of all the other companies was \$14 50 per \$1,000, showing but a very trifling difference. But the ETNA has the money in hand for them as they come.

ing but a very trifling difference. But the ALINA has they come.

For Insurance which Insures, and which never becomes worthless through inability to pay a premium, after two or three years in force, apply to the Etna Life Insurance Company.
