Henry Allen to J. J. Dixon & Co.: The stock market to-day went down. Its downward movement was as positive and rapid as its upward progress had been halting and uncertain. To those who waited last week to learn the action of the Bank of Engiand and purchased on Friday and Saturday when it was known that the rate would be unchanged, it was evident that a change in the rate was impending and it is quite certain to come during the next week or two though its influence will have been largely discounted. It nevertheless indicates that there will be no immediate permanent upward movement in prices. The inclination of corporations to sell their securities and to enlarge their obligations at the moment wnen the situation bears a promising aspect is another discouraging feature which has been frequently witnessed of late. It is a damper on the market of no little weight sand effectually upset quotations. Pacfic Mail yesterday furnished a case in point. Altogether there is not much to furnish encouragement to the immediate future outlook.

EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Coca, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunareds of subtle maiddies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
