

**DR. G. V. N. RELYEA.**

Our readers will be pleased to see the portrait of one of the fathers and founders of the Dental profession in Ontario. Dr. Relyea was one of the charter members; and, though on the shady side of life, seems to enjoy a perennial youth.

**EDITORIAL NOTE.**

We must not forget to thank Dr. E. O. Blanchard for the privilege of using the photographs of the X rays revelation of a portion of the maxillary bones, used in our last issue.

IN his palmy days John Bright was fond of expatiating on the wonderful growth of the United States in material resources, and of demonstrating that its wealth was multiplying by leaps and bounds. We are reminded of the orator's favorite theme by the announcement that Parke, Davis & Co. have opened two new branch houses to satisfy the rapidly growing demand for their preparations—one in New Orleans and another in Baltimore—and by the receipt of their '96 price list, comprising over six thousand items and twenty-nine distinct lines of preparation! It is amazing how this house has grown within the past fifteen years. It has been erecting laboratories by the acre, multiplying its branches and agencies, and increasing its output of pharmaceutical preparations by the ton! The ground for this amazing prosperity is not hard to find—scrupulous integrity, dignified, honorable business methods, and, above all, a strenuous desire to treat professional men in accordance with professional methods. All the world knows that the label of this firm is a warrant of purity, activity and precision in the contents of the container, and the physician realizes that in his grim battle with disease he can depend upon Parke, Davis & Co.'s preparations every time!
