MACHINE TOOLS

**FOR IMMEDIATE
DELIVERY**

NEW AND SECOND-HAND

IF YOU NEED A LATHE OR DRILL right away or are likely to in the near future, look over this list and write us.

All improvements that improve and labor saving feature that save labor are embodied in our new machines, but we do not sacrifice the weight, quality of material and superior workmanship, for which the Bertram tools have always been noted, to experimenting with impracticable ideas and freak devices. This special attention to the vital parts is the secret of the durability and capacity for work of our machine tools. It is this which enables us to compete successfully with the best American makers.

The second hand lathes are all Bertram make. Although, through good care when in use, they have never been in other than good condition, we have had them all overhauled and refitted, and they are amply capable of standing up to all work within their capacity for some years to come, and are equal to many lathes doing satisfactory work in the best shops of the country.

For any of the above machines write for full particulars to

THE JOHN BERTRAM & SONS CO.

Limited

DUNDAS, Ont., Canada.
