Please do not let other matters interfere with this most important appointment.

### NOON MEETING.

OUR noonday Prayer Meeting has not been so well attended during the past few weeks. One reason to be assigned for this, is certainly a good reason, and has a pleasant side to it, namely: The number of unemployed persons visiting the free Reading Room is not so great as during the winter months, when the Reading Room is visited by large numbers of this class, and many of them accept our invitation to attend the meeting. While the attendance is not so large, we believe that we are correct in saying that the meetings are very beneficial to those who do attend.
