## bro. professor loon in eramosa.

When we learned at Everton that Bro. Loos was in Toronto, we ascertained by a messenger sent for the purpose, when he would visit Everton, in time to notify brethren in all the churches around us, and from the first to the last we bad large, attentive and proftable audiences. On Lord's day, our house $60 \times 40$, was packed full twice, and in the estimation of the most intelligent brethren, the series of meetings held by Bro. Loos among us, though only a few, were among the most profitable we ever had. His subjects could not, in our judgment, be better selected, and he haudled them as we would expect from a man determined to benefit his hearers with admirable simplicity, skill and judgment, so that a child could understand him. May he long live a blessing to the world as a preacher of the Gospel and a teacher in Bethany College.

## BRO. LARD IN CANADA.

This efficient proclaimer of the gospel has settled in Oshawa for a time. He has conducted a series of meetings in that place very successfully. Ife would like an acquaintance with the Brotherhood throughout the Province. All who wish to order his Quarterly (a most valuable work) can address him at Oshawa, C. W. All of which we say on our own responsibility.

## GOOD NEWS.

We learn from Bro. Rutherford that two were impuersed in King recently. From Bro. N. Black that four were immersed in Toronto within the last month. From Bro. S. Culp that one was immersed in his neighbourhood, and four from Smithville were immersed by Bro. Kemp. And from Bro. Ash that Bro. Lard had ten inmersions in Oshawa.

We have been informed that sotne brathron whom we highly esteem heve widhdeawil from the Shuter Street Chureh, This wo very truch regret. Had wise and oxparignead brethren been called from other churohes, matters tuight have been adjusted. Such counsol is oftem of great utility.

We wish our contributors to nssist us all thoy can with items of news, useful artheles, \&ou, but by all means let them comdenss, fot the triticles be brief, concise, shors, fall of pith. We wish our paper to be filled whth useful matter -short pieces-with thoughts woll pificked: Long articles are seldom rend,
