

# Winter's the time to make comparisons

Make a note of it this winter—add up the coal bills—mark an “x” in the days in the calendar when your house is not comfortable. Then ask about the

## “SOVEREIGN”

### Hot Water Boilers and Radiators

They give more heat from less coal. Heat all parts of the house equally and comfortably and supply abundance of hot water for bath and kitchen as well.

The Boilers with the Larger First Section  
The Radiators with Screwed Nipple connections
