From the Burlington Hawkeye here were three demons came out of the deep; Fiends that blighted the eyes to see; Ist hightened the dreamer out of his sleep, indefiled the heart with a sudden leap, ind numbed the brain with their stealthy ereep.
Aghastly, terrible, horrible three.

Agnassy, string, hourstone three.

"War" was one, and his sable plume
Shadowed a face that was cruel as hate;
Shadowed the dawn with the sullen boom
He awakened the dawn with the sullen boom
of muderous guns; like a pall of gloom
of muderous guns; like a pall of gloom
Hung his smoke of his breath, and pitiless
Hung hom
His mailed hands held like a soulless fate.

Lie was his meat and his drink was gore;
Red to his knees he walked in blood;
Raybed as he raged down the carmine shore,
Raising his voice in the horrid roar
Raising his voice in the horrid roar
They swelled the ghastly flood.

and "Rum" was another one, grisly and grim; Grueler ten times told than you'd think; Crueler ten times told than you'd think; Wisery poisoned its beaker's brim, peath eternal, and hate, and sin, peath eternal, and hate, and sin, want and woe; he poured them in And gave to the world to drink.

His victims were numberless as the sands,
Maiden and youth and hoary age;
the wisdom and courage of many lands,
the wisdom and courage of many lands,
tearts of manhood, and dimpled hands,
tearts of manhood, and dimpled hands,
they came to his death feast, ghostly bands;
Weak fools and the strong-minded sage.

and the third—he came with a goblin smile; Gentle and kind he seemed to be; But the heart of the fiend was full of guile, In his merriest moments all the while His thoughts were cruel, his plans were vile; He was the worst of the three.

At less and wedding he sat claie,
With luscious lips he kissed the bride;
He petted the little, he pleased the great,
While he wrecked the home and destroyed the state. gih swan like the rule of an iron fate, fhat you couldn't resist if you tried.

th, wos was the home where he entered in ! He darkened the hearthstone that he stood by;
ind nees pale, and wan, and thin,
looked up in fear at his mocking grin,
looked up in the rear at his mocking grin,
and the victims knew, as they scooped him in,
They were hopeless slaves of the demon

The New York Star says :- " The London apers speak of the late President as "a brave Englishman," and they begin to recognize us as "a nation of Englishmen." This condesension is very flattering, no doubt, provided it is disinterested. But how about President Arthur, O'Donovan Rossa and the Fenians?

SCIENCE IN FULL PROGRESS.

Thousands cured of Catarrh, Bronchitis, Asthma and Lung diseases by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts effected. These wonderful instruments se used in all first-class hospitals, and are prescribed by leading physicians. Full directions for treatment sent by letter, and instruments expressed to any address. It is only since Dr. Souvielle's invention that lung seases are no longer feared except in their ery last stage. Write for particulars to Dr 1. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillip's Square, Montreal. Read the following notices :-

(From the Montreal Gazette, December 24th, 1880.)

We are pleased to notice that a great many of our best citizens have bought Dr. M. Souvielle's Spirometer, which is used for the cure of those terrible diseases known by the name of Nasal Catarrh, Bronchitis and those instruments and preparations were infallible in the cure of such complaints, and, to satisfy our curiosity, we visited Dr. M. Sauvielle at his office, 13 Phillips' Square, Montreal, and gave a thorough examination of his invention, so that we can speak with our own authority of it. We think that such amethod, which conveys medicinal propertes direct to the organs affected by those distressing diseases, cannot fail to be a benefit to humanity, instead of pouring drugs into the stomach and deranging digestion. These wonderful instruments, with their contents, were invented by Dr. M. Souvielle after long and careful experiments in chemical analysis, and used in hundreds of cases treated by him in the hospitals of Europe. We find the Doctor a well-learned gentleman, and he inthe physicians and sufferers to try his instrument free of charge.

Common Sense in Medicine.

(Montreal Star, January 5, 1881.) Dr. M. Souvielle, the Parisian physician and inventor of the Spirometer for the scientific treatment of diseases of the lungs and air passages, who recently took up his residence among us, is meeting with excellent access. Already the doctor has had hundreds of patients, who have given his system a trial, and, so far as we have learned, with both satisfaction and benefit. Dr. Souvielle makes a departure from the usual methods of treating diseases of the air passages. He contends that the proper mode of treating them is by inhelation and chromotor are treating than it is a treating than a callon for separation as to property has been instituted in this cause.

Montreal, 18th August 1881. air passages, who recently took up his resicontends that the proper mode of treating them is by inhalation and absorption, not by pouring drugs into the stomach and thus upsetting and disarranging one part of the system in the hope of benefitting another. This argument certainly has the advantage of being common sense, which is always the best kind of sense. The doctor certainly has the courage of his opinions and confidence in his system, for he gives a standing invitation to physicians and sufferers to visit him and test his instruments free of charge. Els office is at 13 Phillip's Square, Montreal.

TRIED AND TRUE!

How sad to contemplate the fact, that for the sake of gain, would-be philanthropists have introduced patent medicines and drugs (vila compounds) which are advertised to cure fil the ills that flesh is heir to. Verily they have their reward. Thousands are annually sunt to their graves through the use of such compounds. Baxter's Mandrake Bitters have come before a discerning public, without any loud trumpeting. They have been tried and have not been found wanting. They are daily gaining in public favor, and for dyspepsia, jaundice, and biliousness have no equal.
