TRANSATLANTIC GOSSIP.

Popular Feeling in Austria against Germany -French deputies become violent-Bismarck deposes a doctor and honors his rival-Death of two eccentric peers.

New York, Aug. 19.—The Sun's cable special says:—The inshionable senside resort for a couple of weeks at this time of the year is Coves. The Queen did her best to make the great regatts of last week a failure, but it was triumphantly successful. Both her undutiful eldest son and his son participated in the fun and frolic. Prince George is described as externally very quiet, but really full of mischief and jo'lity. The society papers find a topic for number-less paragraphs in the elevation of the youngster to the Knighthood of the Garter before he has even came of age. Numberless American millionaires and beauties went down to Cowes in the train of Lady Mandeville.

TWO ECCENTRIC PREES.

The two Peers who have just died suddenly were among the most eccentric of their order. Lord Lauderdale, disappearing for years, was finally discovered acting as a baggage porter on a railway line. The Duke of Wellington was chiefly remarkable for his fierce quarrels with his illustrious father. Once the old Duke was condoled with by a friend because of a caricature of him in a comic paper. His reply in the presence of his hapless son was that the only caricature that annoyed him was that—pointing to his heir. The point of this remark was that the son bore an extraordinary but grotesque likeness of his father. He had the hooked nose and the high check bones, but all this was rendered frightful by a small and weak chin and thin irresolute

AUSTRIA AND GERMANY.

A significant incident illustrative of the feeling between Austria and Germany occurred this week at Troppen, Silesia. A congress of school principals and children from all parts of the Austrian Empire is in session at Troppan, and at the first day's meeting a letter was read from Deputy Schoeverer, a well known member of the Austrian Parliament, which ended with the words "Cheers for Bismarck," The reading trought out a few feeble cheers, which were, however, speedily drowned in a perfect storm of hissss, and no one has since ventured to name Bis-marck or Germany in the congress.

BISMARCK'S DOCTORS.

Bismarck has thrown over another life-long friend. Dr Struck, formerly his physician, incurred his enmity by refusing to meet in consultation the homocopathist Dr. Schwenniger, whomit was one of the von Chancellor's whims to employ, and from that moment has been getting successive saubs from his im-perious friend. A place was refused him on the International Health Commission, and he was consequently retired from the Imperial Board of Health, of which he was president. Meantime the lucky Schwenniger is rising higher and higher. His latest appointment is to a professorship at Berlin University, much to the disgust of the orthodox teachers of medicine.

WRATHFUL DEPUTIES.

The Parisian newspapers are still full of the marvellous novelties of Billingsgate which the Versailles congress clicited. A deputy perhaps reached supremany in this ignoble contest by declaring that when his opponent died his body would be found to contain the microbe of every species of hypocrisy, shame, and treachery. A Paris paper finds a sufficient reason for the general violence in the fact that the deputies consumed 2,000 quarts of beer, over 100 gallons of brandy, 2,000 quarts of miscellaneous refreshments, and 2,500 pounds of ice. The miscellaneous refreshments, with the large quantity of ice, prove the rapidly spreading popularity of "boissons Americans," as it is recorded that a favorite drink was what with some violation of orthography was called a "sherry

A SHYLOCK.

A World cable despatch says :- An important and sensational trial has just been concluded, after occupying several days, at Carlshrue, in Baden. The accused was a money lender named Housman, who had a terrible reputation for usurious practices and cruelty toward those who were in his power. There were seventy witnesses who testified to his unjust extertions of money, and almost all of them were debtors who had been gradually stripped of all their possessions by him. The public prosecutor in his address to the jury said that the prisoner had been a curse to the country and had been shown to be without a trace of humanity. Housman was found guilty and was sentenced to pay a fine of 8,000 marks, to be imprisoned for six years, and to be deprived of civil rights for five years thereafter.

A NEW DISEASE.

People have often been assured in positive terms, by dealers in stock, and even by medical men, that cuting the flesh of cattle affected with "lumpy jaw" or actinomycosis will not injure human beings; but a case of recent occurrence seems to cast a doubt on the assertion. A woman complained to a surgeon in the Chicago County Hospital, of a lump on her jaw. Examination showed that she was suffering from "lumpy jaw" as the abscess contained vegetable parasites identical with those found in the abscesses on cattle. Under the microscopes a number of these parasites were recognized as the same as was shown to the surgeon by Prof. O. Israil, in Berlin. The parasite is about the size of a pigeon shot and is the color of sulphur. The patient said she first began to notice the swelling about six weeks ago and it finally became so excruciatingly painful that she sought relief from a physician. There is little doubt but that it was caused by eating meat from cattle suffering with the disease of "lumpy jaw." An operation has been performed by Dr. Murphy. That it will excite great interest is certain, as this is the first case of the kind reported in the United States. Twenty-four similar cases have been recorded in Germany and other foreign countries .-

RELICS OF THE JEANNETTE PARTY.

NEWBURYPORT. Aug. 20 .- Noros, one of the Jeannette survivors, says the relics recently seen off the coast of Greenland could not have belonged to the DeLong or Melville parties, but may possibly have belonged to Chipps' party. He says, however, that if the relics belonged to the Jeannette something Dr.J.C.Ayer & Co., Lowell, Mass.

The countries where Cholera prevails, as in India, China and Africa, Pain-Killer is considered the surest and safest of all known remedies, and the natives place the most perfec reliance in it.

Read the following extract from the letter of missionary in China:-

DEAR SIRS:—I ought to have acknowledged long ago the box of Pain-Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN-KLLLER, using as directed for Cholera. A list was kept of all to whom the Pain-Killer was given, and our patient against a graph of the pain-Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered Believe me, dear sirs, gratefully and faithfully yours,
