THE Subscribers having been appointed AGENTS for CANADA, for the sale of CAST STEEL CHURCH and FACTORY BELLS, are now prepared to execute Orders for them to any extent that may be required.

These Bells are made by Measrs. NAYLOR, VICK-ERS & OO., of Sheffield, England. They have a pure, melodious sound, peculiar to steel, owing to the elasticity of the metal the sound penetrates to a great distance.

Cast Steel Bells are much lighter than those made of ordinary bell-metal of the same size, and are consequently more easily rung; and owing to the density and also to to the well-known strength of the material, it is almost impossible to break them with

ordinary usage.

These bells have been successfully introduced in some of the largest cities and towns in the United States and Canada, for Fire Alarms, Churches, Factories, &c.,; and being sold much cheaper than Composition Bells, this fact in connection with their lightness, strength and sweetness of tone, cannot fail to commend them to public favor.

Cast Steel Bells combine, therefore an improvement in quality and power of tone, with greater facility for placing and ringing them, from their diminished weight and a very material saving in price. OHIMES CAST TO ORDER WITH GREAT ACCURACY.

Every Bell is warranted for one year, with proper usage, in any climate.

Printed Circulars, with descriptious, recommendations, prices, &c., will be furnished on application to FROTHINGHAM & WORKMAN,

Agents for Canada.
