

Delicious Drink

Horsford's Acid Phosphate

with water and sugar only, makes a delicious, healthful and invigorating drink.

Allays the thirst, aids digestion, and relieves the lassitude so common in midsummer.

Dr. M. H. Henry, New York, says: "When completely tired out by prolonged wakefulness and overwork, it is of the greatest value to me. As a beverage it possesses charms beyond anything I know of in the form of medicine."

The Macmillan Company is about to add to its valuable medical list Deformities. "A Treatise on Orthopaedic Surgery, Intended for Practitioners and Advanced Students," by A. H. Tubby, M. S. Lond., F.R.C.S. Eng., illustrated with fifteen plates and three hundred and two figures, of which two hundred are original, and by notes of one hundred cases. This volume is the outcome of several years' work at the hospitals to which the author is attached. Almost all the cases quoted are from his note-books, and two hundred of the illustrations have been drawn from his patients especially for this work. It has been his endeavour to make himself acquainted, by direct observations, with the methods of treatment practised in Orthopaedic Clinics abroad as well as at home, so that most of the details have been personally verified.

The Herald says, "Pillsbury has beaten all the 'cracks.'

subscriber to the paper, and has for years been one of the most respected business men of Wellington. He is also possessed of considerable inventive genius, and is the holder of several patents for his own inventions. The Times was aware of Mr. Pettit's serious and long continued illness, and was delighted to see that he had been restored to health. In answer to enquiries as to how this had been brought about, Mr. Pettit promptly and emphatically replied "Dr. Williams' Pink Pills did it." Being further interrogated as to whether he was willing that the facts should be made public, he cheerfully consented to give a statement for that purpose, which in substance is as follows:—He was first attacked in the fall of 1892, after assisting in digging a cellar. The first symptom was lameness in the right hip, which continued

for nearly two years. It then gradually extended to the other leg and to both feet. The sensations were a numbness and prickling, which continued to get worse and worse until he practically lost control of his feet. He could walk but a short distance before his limbs would give out, and he would be obliged to rest. He felt that if he could walk forty rods without resting he was accomplishing a great deal. He had the best of medical attendance and tried many medicines without any beneficial results. He remained in this condition for about two years, when he unexpectedly got relief. One day he was in Picton and was returning to Wellington by train. Mr. John Soby, of Picton was also a passenger on the train. Mr. Soby, it will be remembered, was one of the many who had found benefit from Pink Pills, and had given a testimonial that was published extensively. Having been benefited by Dr. Williams' Pink Pills he has ever since been a staunch friend of the medicine, and noticing Mr. Pettit's condition made enquiry as to who he was. Having been informed, Mr. Soby tapped him on the shoulder and said "Friend, you look a sick man." Mr. Pettit described his case, and Mr. Soby replied, "Take Dr. Williams' Pink Pills, I know from experience what virtue there is in them and I am satisfied they will cure you." Mr. Pettit had tried so many things and failed to get relief that he was somewhat skeptical, but the advice was so disinterested, and given so earnestly that he concluded to give Pink Pills a trial. The rest is shortly summed up. He bought the Pink Pills, used them according to the directions which accompany each box, and was cured. His cure he believes to be permanent for it is now fully a year since he discontinued the use of the pills. Mr. Pettit says he believes he would have become utterly helpless had it not been for this wonderful, health restoring medicine.

The experience of years has proved that there is absolutely no disease due to the vitiated condition of the blood or shattered nerves that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles would avoid much misery and save much by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, which, for the sake of extra profit to himself, he may say is "just as good." Dr. Williams' Pink Pills make rich, red blood, and cure when other medicines fail.

A Good Samaritan.

HAVING FOUND HEALTH HE POINTS THE WAY TO OTHERS.

His Advice Was Acted Upon by Mr. Miles Pettit, of Wellington, Who, as a Result, Now Rejoices in Renewed Health and Strength.
