

Name.	Answer.
Garratt & Ferguson...	About last week in November. We have only lost one ox, and that was through neglect in the 1st winter in the country. Climate very healthy.
Bole, J.....	Between the 15th and last of November, ends about the 20th April. A man can do more work and with greater comfort than he can do in Ontario. Climate healthy.
Garratt, R, S.....	From 1st to 15th November, ends from March 15th to April 1st. I say emphatically I have suffered no hardship or loss. Climate healthy, very much so.
McLean, J. A.....	About 15th November, sometimes later. No hardship or loss whatever. Climate certainly healthy; I find it so, and so do a good many more.
Bedford, J.....	Commences at different times in November, breaks up in April. No hardship or loss. Climate healthy for young and healthy people; too severe for aged and infirm.
Elliott, Joshua.....	The plough is generally stopped by frost 1st to 15th November. We have suffered considerably from cold, but do not know that we have lost much. Climate very healthy.
Todd, P. R.....	Ground frozen November 7th, not much snow in November. Cattle began to graze about April 1st; some snow till 18th April. No hardship or loss. Climate healthy.
Dickson, Phillip.....	About last of the month to 1st of April. No hardship or loss. Climate healthy, more so than any country I have been in.
Hoard, Charles.....	About 1st to 10th November till about end of March. No loss or hardship. Climate wonderfully healthy.
Connell, Robert.....	Beginning of November, sometimes in October. Not very many hardships or losses. Climate healthy, but wants plenty of clothes in winter.
Cox, William.....	November 15th to April 15th. No hardship or losses. No healthier climate could be desired.

The Farming Seasons.

The following are the farming seasons:—

SPRING.—April and May. Snow disappears rapidly, and the ground dries up quickly. Sowing commences from the middle to the end of April, and finishes in the beginning of May.

SUMMER.—June, July, August and part of September. Weather bright and clear, with frequent showers—very warm at times during the day; night cool and refreshing. Harvesting commences in August and ends in September.

AUTUMN.—Part of September and October and part of November, perhaps the most enjoyable season of the year, the air being balmy and exceedingly pleasant. At this period of the year the prairie fires take place, and the atmosphere has rather a smoky appearance, but it is not disagreeable.

WINTER.—Part of November, December, January, February and March.
