**Modern Ideas of Evolution as Related

Author of 'The Chain of Life in Geological Time'; 'Egypt and Syria: their Physical Features in relation to Bible History,' &c.

Sixth Edition. Revised and Enlarged.

Crown 8vo. Cloth gilt. 5s.

'It embodies the thoughts of an eminent geologist on some of the chief flaws and discrepancies in what he justly styles the "hypothesis" of evolution. If there is anything calculated to arrest the cocksure young scientist, who is always the young man in a hurry, this book will do it. Perhaps nothing but a counterblast—and Sir William Dawson's book is too well reasoned to deserve the term—can be expected to shake the unflinching confidence of the middlemen of science, who purvey Darwinism, or what they consider to be Darwinism, to the intelligent multitude.'—*Saturday Review*.

**The Meeting Place of Geology and

With Illustrations. Crown 8vo. Cloth gilt. 5s.

'A popular exposition by a competent authority of the results of recent researches in the debatable ground intervening between the later part of the geological record and the beginnings of sacred and secular history.'—*Times*.
