

Home comfort in all weathers

A poor furnace well installed might give satisfaction for a time. But a good furnace poorly installed can never be successful, while a good furnace properly installed will give best results from the day it is fired up.

The Sunshine Furnace, installed the McClary way, is guaranteed by McClarys to warm every room in your house—to warm it with the right quality, as well as quantity, of heat, to make your home healthy, pleasant and enjoyable in all weathers.

And it is to do these things a furnace is for—those are the results which mark the successful furnace. The furnace that fails to do them all the time is only a nuisance.

The Sunshine Furnace is a never failing source of pleasure, satisfaction and home comfort.

Engineering Service Free. McClary's own heating engineers are at your service when you buy a Sunshine Furnace, to give you free expert advice on your home-heating requirements. Write to the nearest McClary Branch and ask for particulars about this service. A booklet, "Comfort in the Home," makes clear all the things you want to know about furnaces, and it is sent free on request.

MAJOR HUME BLAKE GOES TO HOLLAND

To Represent Red Cross Society and Help Canadian Interned.

The Canadian Red Cross Society has sent Major Hume Blake as a special representative of the society to Holland to endeavor to better the conditions of Canadian interned there. It is satisfactory to learn that also some

of the prisoners have undoubtedly suffered hardship in Holland, others have had a more satisfactory experience. A Canadian prisoner of the 29th Battalion writes as follows:

"Dear Sister:—Here I am at last, but even at that I am ahead of when I expected. I did not tell any of you that I expected to be exchanged so soon, in case that thru some accident I might have been missed and then it would have been such a disappointment to you. I sent you a postcard just after I crossed the frontier and I suppose they won't know what to make of it for I don't suppose they were expecting anything like that.

We are billeted in some of the most beautiful barracks that ever I have seen, fitted up with every modern convenience possible to mention—from new beds with new mattresses, woolen blankets (white), with sheets and pillows and pillow cases. (Is it a dream?) to gas heated tubs and shower baths, gas ranges where we can do any extra cooking. Also writing room and library—and the greatest of all—free footings—go where you please from 2 p.m. to 10 p.m. and later if you wish to apply for a free pass. Thank God it is impossible for you to understand just what this means to us poor devils after our long time in the prison camps of the Devil and his Imps. We are living just at The Hague, and this is one of the most beautiful places imaginable, with its lovely sandy beaches and canals running everywhere thru the towns and country. I will be able to tell you more about it after I have been able to have a look around and get acquainted with the place. Maj Stewart is with me, also Corporals Henderson and Girling, who have been with me all along. We met one of our old sergeants that was captured with me and there is an officer here also who was taken with me, but I have not been able to see him yet.

The last two years seem a terrible nightmare now and when I look back

at all that has taken place during the time since I joined the army it looks like something I have read in one of Dumas' or Henty's books—but it is all too true.

I also want you to do me a favor and write a nice letter to Mrs. E. Rivers-Burkeley and the Canadian Red Cross and thank them for all they have done for me and my comrades in misfortune, and tell her that it is to their credit that we are all in the very best of health and fit to go in the fighting line now if it were needed."

The honorary governors who will visit the Toronto General Hospital during the week commencing on August 11th, are Colonel F. H. Deacon and Mr. J. L. Englehart.

The Roseade Golf Club has turned over the results of its recent Patriotic Day, amounting to \$1,178, to the Prisoners of War Bread Fund.

CHOLERA INFANTUM

Cholera Infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach, and thus prevent all the dreaded summer complaints. Concerning them Mrs. Fred Rose, South Bay, Ont. says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum, and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

SEE TANKS ADVANCE IN GREAT WAR FILM

One of the most important factors in the advance of the British army within the past few days has been the large fleets of tanks used to support the infantry. To General Byng must be credited for the effective work of the tanks.

A striking parallel to the recent actions of the tanks is shown in D. W. Griffith's "Hearts of the World," which will be shown at the Allen Theatre for two more weeks. More than fifty armored tanks, leaders of the German army, are shown moving slowly into position to take the troops in the capture of important positions. Then comes the battle of a large number of the tanks move slowly but surely forward, belching fire from three sides. German shells burst all around them, but they keep steadily onward to ultimate victory. A cameraman caught the explosion of a German mine directly in the path of ironclad forces, but the tank was unscathed and took the huge hole with a leap and a bound.

The tanks are performing a valuable service to the troops during the present rapid advance, and Mr. Griffith, realizing their vast importance in warfare, has given us some exceptional pictures of them in action.

ANSWERS CRITICISM OF HOUSING PLANS

Answering certain criticisms that may be made regarding the power given the municipalities under the new housing plan of the government, to advance money at five per cent on houses built under the government plan, Prof. C. B. Sissons, secretary of the Ontario Housing Commission, makes the following remarks:

There are certain people who claim that they are being placed at a disadvantage if the municipality lends the money so low interest when they are obliged to pay 6 1/2 and seven per cent on the houses they have re-
