Action Against Parties for Profits in Stock Transactions—Question of Agency—To-Day's Lists.

At the non-jury sittings in Nerlich v. Bain, judgment was given for plaintiffs for \$781 and interest and costs. The action is brought to recover from defendant, data and Gormley & Co., as partners, the profits in certain stock transactions. The defence was that the defendants acted merely as agents for the Standard Grain and Stock Exchange of Buffalo, which failed.

NEW YORK GOSSIP.
 Henry A. King & Co., 12 King-street east, received the following despatch from New York to-day:

The stock market suffered a reaction on opening and fractionally higher, but it was turned into buoyancy by the semi-official announcement that the Government would accept the foreclosure and reorganization proposals of the U. S. Steel Corporation. Additional stimulus to the recovery was given by the brilliant railroad program of the U. S. Steel Corporation, which was well as more peaceful and realistic advice as to the recovery of the steel industry.

The market developed a decidedly better undertone today and before the close all Saturday's losses were recovered on a moderate volume of business.

The bears endeavored to press their advantage in the local trading, but before they were able to do so, the market was covered with decisiveness, and the U. S. Steel Corporation's recovery program was announced.
