Mining Shares. Croup Is The Terror of Thousands

Of Young Mothers, Because Its Approach Is So Insidious, and Its Outbreaks So Agonizing and Frequently Fatal.

Croup usually commences with a cough, more or less fever, alternate hot and cold spells, flushed face, watery red eyes and restlessness at night. Not a moment should be lost, whether the case be common cold or not; it may develop into true croup. If you live in the country or on the outskirts of a town or village, it is a very wise and necessary precaution to have a good croup remedy at hand, especially in the Fall, Winter and early Spring months,

Shiloh's Cough and Consumption Cure

acts like magic in cases of croup acts like magic in cases of croup; it is soothing, loosening, expectorant, pleasant to take and perfectly harmless. Thousands of mothers will recognize the picture conveyed in the following extract from a letter to S. C. Wells & Co., Le Roy, N. Y., from an old lady whose grandchildren have been cured by Shiloh's Cure:— "Never shall I forget the agony

"Never shall I forget the agony I experienced that night, so many years ago, when little Tom was taken with the croup. It was midnight and snowing. Our house was a mile from the nearest village; I had no one to send for the doctor. I had given Tom nearly a bottleful of syrup of ipecac, without effect. He was suffocating! Frantic with fear, I pulled him out of the bed, and, as a last recourse, made him turn round and round; in fact, I whirled him until he grew nauseated and suddenly threw up a quantity of phlegm; his life was saved! When the strain was over and Tom safely tucked in bed, I collapsed. With dear old Shiloh at hand, nowadays, we have no such terrible scenes to contend with, for it prevents them."

for spring Rush.

The Grand Trunk is right at the head of the procession, as far as Klondike traffic is concerned. Its freight and passenger business in connection with the Yukon trade promises to very heavy this spring, and the company is making its arrangements accordingly. The Grand Trunk is not bound up to any one particular route from the coast cities to the Klondike, so that passengers going by this railway will have their choice of routes when they reach the Paclific coast. Or they can book themselves by the Grand Trunk from any of its agencies. Pamphilets may be had from Mr. M. C. Dickson. G.T.R. Passenger Agent, who will be glad to furnish all information in regard to the route.

THE RUSH HAS BEGUN.

Victoria, B.C., Jan. 14.—The City of Topeka, which called here this morning on her way from Puget Sound had 200 passengers for the Yukon. The City of Seattle, which also passed up to-day, was crowded to her full capacity with 242 first-class and 368 second-class paseengers.

Editor Miner: Sir, Will you please let me know through the columns of your paper how The WHd Horse Gold Mining Company stands?

[The Wild Horse Gold Mining Company stands?

[The Wild Horse property is in good condition. At the present time a force of men are working day and night driving the tunnel, which has now been driven a distance of 75 feet, and the latest assay gives a value of \$78.69 per ton. The ore from which this assay was made came from the face of the workings of the tunnel. The force will be kept at work all winter. There is a five months' supply of provisions at the mine, funds enough in the treasury for the company to carry on the work for the next six months, and there is not a dollar of indebtedness.]—Ed. R.
