MILK TRUST TAKING SHAPE.

Committee of Local Dealers Instruct

Their Solicitor in This

The preliminary steps towards the open

ing up of negotiations for the sale of the

York syndicate were taken yesterday, when

York syndicate were taken yesterday, when a committee of the Milk Dealers' Association instructed their solicitor, Mr. B. N. Davis, to confer with Mr. Greer, the representative of the American capitalists, regarding his offer.

The names of the men interested in the formation of the trust are withheld because they have negotiated in other towns for the milk trade, and their endeavors to secure it have been thwarted by a rival syndicate.

No Toronto men are interested in the deal here.

The Directors' Circular.

The following circular letter will be sent out, accompanying the dividend cheques today. This circular was issued in accordance with the action of the Board of the Golden Star Mining and Exploration Company of Ontario, Limited, which met yesterday: The Golden Star Mining and Exploration Co. of Ontario, Limited. No personal liability:

Hon, S. C. Wood, President. Hugh Blain, Vice-Pres., Sec. Toronto, June 30, 1899.

Dear Sir,—In sending you the enclosed cheque for dividend of ½c per share, instead of 1c, as paid hitherto, I am instructed by the Poard of Directors to say that as snareholders are aware, the present Board assumed office on the 14th inst. only, and have not since had time to obtain the necessary full information respecting the company's mine and future prospects, which is required to enable the Board to formulate the future policy of the company.

The directors intend to pursue a safe and conservative policy with respect to the company's operations, and at present they are of opinion that it is in the true interests of the company that the dividend for this month should be reduced, as mentioned, and that in future the dividend should not be declared more frequently than quarterly. By order of the Board, yours respectfully, A. C. Neff, Acting Secretary.

Mining Notes, Arthur Van Koughnet was elected auditor of the Standard Mining Exchange at the annual general meeting of the exchange.

The Alice A. Mine.

The Alice A. Mine.

Mr. George H. Indiver, vice-president of the American-Canadian Gold Mining Company, writes from West Superfor, Wis.: "In your issue of June 26 appears an item, apparently taken from The Wabigoon Star, to the effect that the Alice A mine is under new management, and that the machinery for the new mill is to be snipped from 'lermany. We very much regret the necessity of asking for a correction of this statement. The Alice A is not under new management, and will not be suite the mine is formally turned over to the British-Ontario Company. The mill has not been pure tario Company. The mili has not been purchased, and it has not yet been determined whether the new mili will be purchased in Canada, the United States or Germany. Nothing will be done in that direction, except by the British-Ontario Company."

Monteith.

The only important evidence adduced during the day was that Mr. John O'Brien of St. Mary's received \$10 from Some unknown person to spend in buying votes for the Conservative party. Mr. O'Brien acknowledged having offered Mr. Alex. Brown, auctioneer of St. Mary's, to wipe out a coal bill of \$6 if he would vote for Mr. Nelson Montekh.

Messrs. Marshall and Mr. Boiting, St. Mary's, aware that one John McCabe of-

Tupper had acted improperly in introducing his name at all, unless he was prepared to impeach him. Major Walsh, ie said, was no longer in the service of the Government, and he characterized the allegations that that officer had been guilty of intemperance and immorality as wanton cruelty. He said that if, when the full report on the investigation by Mr. Oglivle was received, it was considered by the Government to be insufficient, or unsatisfactory, a further investigation would be held. [Cheers.] As to the personal charges against Mr. Sifton, the only one of any account was that he had been guilty of favoritism and partiality, and he did not think that very serious. He denied that Philips was a partner of the Minister of the Interior in a dredging lease, and said that if anyone could show that Philips had obtained dredging leases in collusion with the Minister of the Interior, a committee of investigation would be appointed without a moment's hesitation. [Government applause.] Mr. Foster's Remarks,

Mr. Foster's Remarks.

Hon. Mr. Foster said the Government pretended to want more facts, but had not attempted to disprove those adduced by the member for Pictou. The statement had been made that the investigation would not stop until every allegation of mismanngement and misconduct had been probed to the bottom, and if that was acted up to, he thought the Government had a pretty long and tough job ahead of it. The whole subject of Yukon maladministration, he claimed, should be thoroughly examined into, and this could only be done by an independent and impartial tribunal, with full authority, such as was proposed by the member for Pictou. [Applause.] He laughed at the idea that Judge Dugas' conduct could not be inquired into except by limpeachment, and said if that argument was sound then all the Government had to do is to appoint a Yukon council, composed entirely of judges, and their conduct would be above criticism.
