SUPERIOR GOLD AND COPPER.

A Colorado Mining Superintendent
Speaks Very Highly of the
Copper Locations.

Mr. James C. Stephenson, a well-known maing superintendent from Colorado, who has been looking over the native copper locations on the east shore of Black Bay. Lake Superior, with a view to making a report on them, reached the city last night.

Drice of copper, and the largely increased demand for metal suitable for electrical, naval and railway construction, for which aluminum has shown great adaptability in its pure state, it is safe to predict that the demand for aluminum, which is now in excess of the supply, will be very largely increased. Aluminum, on account of lightness of weight, will be cheaper for use, and by reason of its firmness, durability and non-corrosiveness, will largely supplant many of the other metals. This will produce great wealth to the aluminum industry.

Q.O.R. INSPECTED.

Major Young, Acting D. O. C., Did With the Boys in Green.

The annual inspection of the city regi-Queen's Own Rifles at the Armounies. This regiment, which turned out 551 strong, was examined in company drill and manual and firing exercises. Major Young of the Royal Regiment of Canadian Infantry was the Inspecting officer, and he seemed satisfied with the showing made by "the boys in green." Lieut.-Col. Delamere and all the officers were present.

Next Wednessay evening the regiment will be inspected in battallon drill. On the same night the prizes won at the rifle matches held at Long Branch will be presented.

matches held at Long Branch will be presented.

The regimental orders of the Q.O.R. state that 15 new recruits have been added to the strength of the regiment, and one man struck out. Mention is also made of the members who have gone to South African with the Canadian contingent, that their with the Canadian contingent, that their amenes will remain on the roll books.

Interest in military affairs is still rife.
The Armouries last night held a large crowd of citizens, who looked with the keenest of pleasureat the soldiers in going through their manoeuvres.

Turkish Rugs and Carpets by Auction.

Mr. L. Rabayan of Constants

Mr. L. Babayan of Constantinople has arrived with the most magnificent and largest collection of Turkish rugs, carpets, embroideries, etc., ever imported into this country, all of which will be sold shortly. Catalogues will be ready in a few days. Lovers of genuine art goods will no doubt avail themselves of this great opportunity. Mr. Chas. M. Henderson will conduct the sale. S. O. E. Beneficiary Fund After the transaction of routine business the following resolution was unanimously adopted by the above board at its regular monthly meeting last night: "This Beneficiary Board of, the S.O.E.B.S., at its first meeting since the outbreak of hostilities meeting since the outbreak of hostilities in South Africa, desire to place on record its warm appreciation of the action of the Canadian Government in equipping a Canadian contingent for service in the Transwal; the members of the board, in common with all Englishmen, have been deeply touched by the readiness of Canadians of all creeds and classes to assist the Motherland in bearing the burdens of empire in an hour of need; the board feels it will only be carrying out the wishes of the order at large by passing a resolution, which is hereby adopted, that the policies of those brothers who have joined the contingent shall continue in force in the same class as heretofore."

You adjust the Belt to your body at night when retiring and take it off next morning. There is a pleasant sensation when you have just enough current, and this may be obtained by using the little regulator screw which you manipulate while the belt is on, making current strong or mild at pleasure. If there is any weakness in back benefits are often felt there from first hour's use. It takes sixty to ninety days to return

Lecture on African War,

Rev. C. O. Johnson, pastor of Queenstreet Methodist Church, delivered an instructive address to a large audience in the lecture room of that church last evening in the war in Africa. Mr. Johnson is a thorough Britisher and believes in the justice of the present war that Britain is a thorough Britisher and believes in the justice of the present war that Britain is the present time. He showed how lenient the present time. He showed how lenient the Boers, and that it was impossible for England to go into any land without carrying liberty and religious equality to all. It was for this that she was fighting to-day.

The Browning Club here general Institutes Criminal libel, because of statements attributed to the archbishop Ireland to go into any land without carrying liberty and religious equality to all. It was for this that she was fighting to-day.

The Browning Club here general Institutes of the Ransa General Institutes Sciminal Libel Proceedings Against the Archbishop.

The Kansas General Institutes of the Stocks don't forget that the Superior. The and Copper Company, Limited, have a native copper property of great promise on the north shore of Lake Superior. The native copper is found in copper stocks don't forget that the Superior Gold and Copper Company, Limited, have a native copper property of great promise on the north shore of Lake Superior. The native copper is found in shot form in the conglomerate, to The Star from Albuquerque, N.M., says:

Sen. Frederick Funston, who is en route home with the mustered out 20th Kansas Regiment, has wired his Topeka attorney; to bring proceedings again Archbishop Ireland to the archbishop in a recent interview. Gen. Funston also instructed his lawyers to begin criminal and clivil prosecutions against The Monitorial Properties of the Calumet and Heela. The outed form and the course of the Calumet and Heela. A NEW COMPANY WITH A FUTURE.

The company recently organized by the well-known and popular firm of Mining Brokers, WILSON BARR & SONS, of Hamilton and Toronto (who, by the way, are members of the STANDARD MINING EXCHANGE), has attracted considerable attention in mining circles. Their idea is to purchase shares en bloc in undertakings which their engineers consider meritorious. It is well known that at the present moment there are many cheap, good stocks that may be had almost for the asking. Their shares are of the par value of \$1 each, and all subscribers for stock pay up the full amount, which is a distinct innovation, as far as Canada is concerned. This methfull amount, which is a distinct innovation, as far as Canada is concerned. This methfull amount, which is a distinct innovation, as far as Canada is concerned. This methfull amount, which is a distinct innovation, as far as canada is concerned. This methful amount in full, as I understand the venture is meeting with deserved sucknow from actual experience. I understand the venture is meeting with deserved success, and I am very pleased to add my quota of praise for efforts put forth in a right direction. The purchasing of the stocks will in all likelihood be made through the STANDARD MINING EXCHANGE, so that when active dealing commences the public will notice a sensible increase in our sales.

The Capital of the Company is \$300,000 (Three Hundred Thousand Dollars)

E. GARTLY PARKER, Mining and Investment Broker, Member of the Standard Mining Exchange, 12 Adelaide St. East. Phone 1842

THE STANDARD STOCK

6500 Shares at 85c per share, par value \$1.00 each. The Standard Aluminum Reduction Co. comprise some of the leading and most erprising financial men of St. Louis, Mo.

The Company are free of encumbrance and have assets of \$1,185,000. The control and manufacture under patent rights, absolutely independent of any

The exclusive right of soldering patent alone is valuable.

Owing to the increased demand for Aluminum the Company decided to enlarge their plant at a cost of \$25,000. This stock will advance in a few days. Buy now and take profits.
