body. Therefore, if the stemach is in good shape the body will be thoroughly fed.

But another important matter must be attended to. The blood, as well as carrying the food to the muscles, carries off the waste material, and the kidneys remove that waste material from the blood. Therefore, to ensure the perfect working of the system the two most important organs to keep in order are the stomach and the kidneys.

And to do this is easy with Dodd's Dyspepsia Tablets and Dodd's Kidney Pills, on sale at every dealer's. They work on the parts affected separately and together, and the results obtained are almost miraculous. Listen to what they did for Manrice Best of Southern Harbour, Newfoundland:
