**LONDON AND DISTRICT**

—A very quiet wedding took place this morning at 10 o'clock at the First Presbyterian Church, when Mr. Harry H. Young, a well-known citizen, was married to Mrs. May E. Leonard. The ceremony was performed by the Rev. W. J. Clark, who is holidaying in London. Only a few immediate friends witnessed the happy event. After a pleasant trip down the St. Lawrence to Quebec, Mr. and Mrs. Young will take up residence in this city.

The stable of Parson's Fair, situated in the east end, was burned down yesterday afternoon. There were about 30 tons of straw in the building at the time. The barn itself was completely destroyed, and considerable of the straw was damaged. The fire threatened to assume serious proportions at one time, several nearby buildings being endangered. It is supposed to have been caused by boys smoking in the building. The loss will amount to \$300 or \$400.

**City Council Got Through With Routine Business**

**Big Gust Was Before the Aldermen at the Meeting Last Night.**

Considerable routine business was transacted at the council meeting last night, the session being a very long one. The aldermen seemed to be in a conversational mood, and they discussed every item that came before their attention at considerable length. Ald. Stevenson moved that No. 2 committee be empowered to build a sewer to White & Sons' plant on Rectory street. He thought that the sewer could be constructed out of the general funds, and those on the street be assessed for their use. Ald. Gillean moved that No. 2 committee be instructed to prepare an estimate of the cost of the proposed sewer.

Both motions were adopted, and the committee will take the matter up at its next meeting. The offer of Mrs. Depper to settle her claims for \$600 for injuries received owing to a defective sidewalk was accepted on motion of Ald. Matthews. The years and days were as follows: Yeas—Ald. Beattie, Scarlett, Stevenson, Stevely, Gillean, Booth, Rose and Matthews. Nays—Ald. Cooper, Saunders, Gerry and Garratt.

The report of No. 1 committee was adopted without change.

**Fire Engine Trouble.**  
The report of No. 3 committee was read by Chairman Gillean, and adopted after considerable discussion.

The item agreeing to pay the Canadian Fire Engine Company \$50 for repairs to the chemical engine was the cause of the trouble.

Ald. Saunders pointed out that there was a latent defect in the construction of the engine, and that the city should not be forced to pay for such a defect.

Ald. Matthews declared that the engine had done service for three years, and the guarantee was not valid. The committee should have paid the \$50 to the company, and not have paid an arbitrator, in addition.

Ald. Stevenson said that the engine was latently defective, and the company alone was responsible. The defects had weakened the engine, for which the city was not responsible.

Ald. Beattie was of the opinion that the city would have to pay the bill, if the award was against them, they should do their part just as readily as if the award were in their favor.

Ald. Gillean explained that the committee had thoroughly discussed the matter, and were of the opinion that the award of the arbitrator should be accepted. The arbitrator had charged but \$10, and had then donated this money to the victims of the Reid disaster.

Ald. Cooper moved that the company be compelled to repair the engine under its guarantee. The motion was seconded by Ald. Stevenson, and lost.

The years and days were called for. Nays—Ald. Beattie, Scarlett, Stevely, Gillean, Garratt, Booth and Rose. Yeas—Ald. Stevenson, Gerry, Saunders, Cooper and Matthews.

**Park Improvements.**  
Ald. Garratt gave notice that at the next meeting of the council he would move that No. 2 committee be instructed to have the boulevard posts and rail on the west side of the park moved outside the new walk giving more room to the park, and also decreasing the width of roadway, and also the cost of keeping the roadway in repair.

Ald. Gillean and Stevenson moved

That steps be taken to establish a public incinerator for the disposal of the city's refuse, and that estimates be secured as to cost and maintenance of same, to be presented at the next meeting of this council. This motion was carried.

**Building Inspector.**  
The preparation of the bylaw governing the inspection of buildings, was referred to No. 3 committee, with the addition of Ald. Stevely. The bylaw will be submitted to the council, and the drafting of the terms of the bylaw will be left with No. 2 committee.

Ald. Garratt suggested Ald. Stevely's name be added to the committee, as was connected with the building trades.

"It might be just as well if the committee were not all connected with the building trades," suggested Ald. Saunders.

**Isolation Hospital Plans.**  
A communication was read from Mr. S. Scream, chairman of the hospital trust, suggesting that the plans for the isolation hospital be ratified, and the purchase of the land necessary, and the construction of the building be consummated forthwith.

Mayor Judd thought that the purchase of the land necessary should be left with No. 1 committee, and the matter of the building with No. 2.

Ald. Stevely wanted a special committee, consisting of No. 1 and No. 2 committees, to attend to the whole matter. It was customary to appoint such a committee to do hospital construction work.

Ald. Cooper thought that No. 1 committee was butting in.

"We have as good men on No. 2 committee as on No. 1 committee, and we don't butt in," declared Ald. Cooper.

"I did not know that the building of hospitals came under the work of No. 2 committee," said Ald. Stevely.

"I was only following out what was done under former councils, and do not desire to butt in. The hospital was built by No. 1 committee with the addition of the chairman of No. 2 and No. 3 committees."

**No Butting In.**  
Ald. Beattie did not think No. 1 committee wanted to butt in, as they were not anxious for more work. He thought that the best way was that suggested by Mayor Judd. No. 2 committee was perfectly competent to attend to the construction of the building.

Ald. Matthews was of the opinion that the work should be done by No. 2 committee, and the purchase of the land should be left to No. 1 committee.

"The plans cannot be altered after they come back from the committee," said Ald. Stevenson. "As I understand it, there is no provision made for the poor, and there are other changes to be made."

"You have no right to make such a statement," replied Mayor Judd. "There is ample provision made for the poor, and there will be wards in every department for their care. The hospital trust is attending to their work in a proper manner."

Ald. Stevely withdrew his motion, and the mayor's suggestion was adopted.

**Bennett's Unique.**  
Mr. C. W. Bennett applied for a reduction of the theater license on the Unique from \$80 to \$40. He thought the charge was unreasonable. Toronto only charged \$20 for such a theaterium and in other cities where the license fee is much lower. He thought it unfair that in the home town of such an enterprise as the Bennett Theatre Company, such an exorbitant license should be charged. He explained that a five-cent theater-
